## **Awakening Of China 1793 1949:**

**The Awakening of China, 1793-1949** Roger Pelissier, 1981      Making Urban Revolution in China: The CCP-GMD Struggle for Beiping-Tianjin, 1945-49 Joseph K.S. Yick, 2015-05-20 The end of the Sino Japanese War in 1945 brought not peace but renewed confrontation between Mao Zedong's Chinese Communist Party and Chiang Kaishek's Guomindang. The ensuing Civil War at the threshold of the Cold War held enormous significance for international strategic alliances and in particular the interests of the United States in East Asia and has been the subject of intense research and debate ever since. Joseph Yick's *Making Urban Revolution in China: The CCP GMD Struggle for Beiping Tianjin 1945 1949* based partly on the rich new sources available in the PRC since 1978 rethinks the traditional interpretations of the Chinese Communist Party's victory in 1949 and makes a major contribution to the historiography of this period.

**China in Disintegration** James E. Sheridan, 2008-06-30 After the 1911 fall of the Manchus came the most hideous breakdown in Chinese history. Sheridan, a Northwestern University scholar, concentrates on the Kuomintang movement of Chiang Kai shek, insisting that we judge a political force by whether it solves the problems posed to it, not as Chiang's partisans prefer by means of what if's. Sheridan's focus on the KMT brings more to light than do many surveys of Mao's revolutionaries. The KMT failed either to create an effective dictatorship or to mobilize fascist passions which could ensure willingness to sacrifice. Thus the difficulty in squeezing enough wealth out of the peasantry to meet a foreign debt which totaled half the national revenue. The KMT did ensure that forced opium production took up at least a fifth of Chinese cropland by the 1929-1933 period and they consolidated a soldier recruitment system that approximated Nazi roundups. However, the book underlines Chiang's failure to give the masses a Strength through Joy spirit and as wartime inflation of 300% gave way to postwar collapse, the anti-Communist pitch became emptier and emptier. The Kuomintang turned into a mere holding operation and faded into chaos. Sheridan gives a strong sense of the rapine of the warlords who were Chiang's off and on allies and of the feeble heritage of Sun Yat sen's patriotic platitudes. He leaves out explicit investigation of the international context while underlining more than most writers Chiang's commitment to repay external debt at the expense of the Chinese people. A sound and striking approach to these decades of desperation in the lives of a quarter of the human population, if not bypassed in the glut of China books, it may encourage students and academics to go further.

Levine,2016-06-01 In contrast to the Lost Generation of youth in the West who were disoriented and disillusioned by the First World War and its aftermath the Chinese youth born between 1895 and 1905 not only believed they had a duty to save their nation but pursued their goal through social and political experimentation The vigorous purpose and optimism of this Found Generation contrasted with the apathy and detachment of their Western counterparts who followed a different path in coming to terms with the new world of the twentieth century Just after the First World War sixteen hundred Chinese young men and women traveled to Europe most of them to France as members of the Work Study Movement Their goal was to study Western technology and culture and utilize this knowledge to achieve national salvation and they planned to finance their study at European schools by factory work While in Europe many of these students became politicized partly through their exposure to European political ideas such as Marxism and partly through the social network based on shared experience that transcended what would have separated them in China One important result of this political activity was the formation of the European Branches of the Chinese Communist ORganizations ECCO The Found Generation explores the origins development and significance of the ECCO highlights the differences between it and the Communist home organization and describes its

impact on the Chinese Communist Party The founders of the ECCO shared values and goals with their compatriots in China but their experiences and opportunities in Europe molded them in different ways that can be traced in their later careers On their return to China many of the young activists including Zhou Enlai Deng Xiaoping Chen Yi Cai Hesen Li Lisan Zhu De Nie Rongzhen and Wang Ruofei quickly assumed powerful positions in Chinese politics and their influence is still felt today Levine s examination of the early experiences of this important cohort of Chinese leaders helps explain their adherence to the Leninist concept of Party discipline and their tenacious hold over central governmental power The Found Generation is a pioneering study based on original sources including interviews with several prominent participants in the Work Study Movement and the ECCO Chinese studies and memoirs and Chinese and French periodicals It provides otherwise unavailable information and analysis about the political leadership of modern China and by pointing out the differences between the Chinese radicals in Europe in China it furthers our understanding of the conflicts motivations and values of modern Chinese leaders

**Changing Clothes in China** Antonia Finnane,2023-05-30 Historians have long regarded fashion as something peculiarly Western In this surprising sumptuously illustrated book Antonia Finnane challenges this view which she argues is based on nineteenth and twentieth century representations of Chinese dress as traditional and unchanging Fashions she shows were part of Chinese life in the late imperial era even if a fashion industry was not then apparent In the early twentieth century the key features of modern fashion became evident particularly in Shanghai and rapidly changing dress styles showed the effects The volatility of Chinese dress throughout the twentieth century matched vicissitudes in national politics Finnane describes in detail how the close fitting jacket and high collar of the 1911 Revolutionary period the skirt and jacket blouse of the May Fourth era and the military style popular in the Cultural Revolution gave way finally to the variegated globalized wardrobe of today She brilliantly connects China s modernization and global visibility with changes in dress offering a vivid portrait of the complex subtle and sometimes contradictory ways the people of China have worn their nation on their backs
