## **Awesome Creations And Evolution New Age Of Revelations:**

*AWESOME CREATIONS AND EVOLUTION* Kamran Pirnahad, 2010-03-10 Pirnahad has initially gathered the material of this book in the format of different articles as relating to crucial concepts that have affected the history and evolution of mankind. Afterwards, He decided to transform these inspirational writings into a comprehensive book of revelations. He has received the necessary information not only through endless sincere and honest research, continuous education, but also through faith in God, intuition, insight, vision, meditation, and dreams. All contents and basic materials of this book have been thought and initially constructed and defined in the English American language within its socio-cultural, historic, and religious course of development. Moreover, all basic concepts have been developed on the basis of a universal conscience, and therefore, most views could be also understood and adapted by other languages within their specific cultural environment. This book has been mostly the result of the insight and many visions the author has been receiving through the capacity of his soul, mind, and spirit, and within a multi-dimensional platform; therefore, there are only few references to outside sources. His book has been nevertheless based on a comprehensive library of multi-faceted references in different fields as related to the subject of his book. Pirnahad's effort to prepare and write this book is solely based on the principle that those who possess special spiritual, intellectual, and creative talents should reveal and share their thoughts, works, and ideas for the benefit of mankind. The author has reserved high hopes that at this crucial time in human evolution and history, this effort could help everyone gain a better insight into major concepts concerning faith, humanity, history, culture, languages, and evolution, and develop a more meaningful and profound way of life. This book was originally edited and published on 7/22/2005 and revised and reedited on 1/20/2010.

*The Prominence Book of Faith* Kamran Pirnahad, 2012-06-08 Prominence system of faith consists of a diverse spiritual culture which could strengthen the reader's ability to enjoy the presence of God and rejoice in his Spirit. Prominence is the path to a spiritual, pure, and elaborate independent relationship between God, Humanity, and the Truth. It is a lifetime effort to elaborate the Truth.

**Awesome Creations and Evolution- 2nd Edition** Kamran Pirnahad, 2013-02-08 The Author Kamran Pirnahad has made effort to investigate and reveal the source of the planetary systems as well as the human origins and define its course of evolution, purpose, and final destination. The word creation is generally being used to describe the formation of the worlds and all the species, yet the origin of each species in the context of the creation requires that light be shed on the characteristics of each species. In his view, humans are a superior race only in the sense that humans do have the capacity and competence to continuously strive to advance to unimaginable heights and greatness. The Author believes that a state of duality and double existence has been deliberately imposed on the living beings as a challenge to measure and test human's abilities and resolve to overcome any possible conflict and finding the true meaning of God and spirituality. Author Kamran Pirnahad has high hopes that someday humans will represent God's Throne and Glory throughout the Universe and in the whole World.

**Evolutionary Creation** Denis O Lamoureux, 2009-02-26 In this provocative book

evolutionist and evangelical Christian Denis O Lamoureux proposes an approach to origins that moves beyond the evolution versus creation debate

**Cosmos and Revelation** Peter R. Stork, 2021-09-30 Science and technology have profoundly altered the cosmic and societal perceptions of the world. Regrettably, the Christian imagination has not kept pace. Most believers still adhere to pre-scientific views. *Cosmos and Revelation* urges the Christian community to reimagine God's creation by engaging the data of science. For if God has indeed brought forth an intelligible world for us to explore through scientific research, those who profess this faith ought to, as a minimum, allow scientific findings to expand their theological horizon. Drawing on his scientific qualification and academic background in theology, Peter R. Stork opens several windows on God's creation from galactic star nurseries to the wonderland of living cells. After rereading Genesis 1 and 2, the author interlaces examples and reflections to present a coherent yet provocative sketch of the new landscape that spreads out before us, leaving it to his readers to intuit for themselves the immensities Christians are challenged to embrace in the age of science.

**The Best Books** William Swan Sonnenschein, 1891 *The Two Great Books of Nature and Revelation; ... Being a History of the Origin and Progression of the Universe; ... Illustrated by the First Chapters of Genesis, Etc.* George FIELD (Lecturer.), 1870 *The Two Great Books of Nature and Revelation* George Field, 1870 *Modern Creation Trilogy, The* Henry Madison Morris, John M. Morris, 1997 The *Modern Creation Trilogy* is the culmination of decades of study of the classic confrontation between evolution and creation. Authors Henry Morris and John Morris, president of the Institute for Creation Research, detail the case for Biblical creationism. Book One: Scripture and Creation. Book Two: Science and Creation. Book Three: Society and Creation.

**The Great Creation Debate** Brad Freckleton, 2012-07 Why isn't the evolution of flight shown in the fossil record? Bugs, birds, bats, and dinosaurs flew and are shown fully formed in the fossil record, but there are no animals with halfway wings in the fossil record leading from ground-based animals to flying animals. What is desperately wrong with the Grand Canyon if evolution is true? Where are the massive signs of erosion between the sedimentary layers of the Grand Canyon if they were laid down a million years at a time? Why does massive erosion only show up at the top? Animals with well-developed eyes show up suddenly in the fossil record, as do flying animals. It's the norm for plants and animals to show up in the fossil record with the same separations as we see in different types of living animals and plants today. The second law of thermodynamics is a law of science that says everything left to its own will wear out, run down. It is a fundamental law of science. So how did evolution accidentally go up? How could a DNA molecule fumble together? The cell needs DNA. DNA needs the cell, which came first. Beneficial mutations also weaken in other areas and don't write evolutionary advancing DNA code. Spiral galaxies, which have the shape of a starfish that is spinning quickly throughout our universe like our Milky Way galaxy, are supposed to be over 10 billion years old. If they were over a billion years old, they would lose their spiral arm shape. The arms of our galaxy, the Milky Way, only show a maximum age of 0.3 billion years. People want to know why they're here now and where they're going to go. They want surety of truth also. Read this book and see how well.

evolution holds up in all the sciences Read this book and see if life can have meaning direction and hope with surety For those who claim to be open minded put on your seatbelts and keep your arms inside as you ride the roller coaster of your own value systems

**Revelation** Brad Steiger,2006 Revelation The Divine Fire A Biblical prediction says that In the latter days your sons and daughters shall prophesy Brad Steiger has communicated with literally hundreds of individuals who claim to have received messages directly from God or from spacemen angels spirit guides or other superhuman entities It would be easy to dismiss these latter day prophets as deluded but amazingly their revelations all have an internal consistency a common theme a time of judgment is at hand and humankind must change its ways to avert disaster Moreover contemporary housewives business executives and Jesus people are experiencing the same symptoms of revelation a blinding light a voice out of nowhere an impulse to take on a new name and a new life On the track of the elusive source of these messages Steiger examines the spread of glossolalia and faith healing the folklore of elves and leprechauns the awesome cases where a revelator's body is briefly occupied by an outside personality the mysterious Elijah tradition of the Bible that suggests that the great prophets perhaps even Jesus were possessed by a single entity and the latest laboratory research into consciousness expansion Revelation The Divine Fire presents actual warnings predictions and messages from a wide spectrum of contemporary revelators In addition there are interviews and evaluations from a number of clergymen scientists and psychics who have met the Divine Fire Steiger's divine fire is something which from the beginning of recorded history down to the present has communicated a revelation to man Steiger is properly objective in his evaluation of the significance of such phenomena setting forth the opinions of various scientific or at least thoughtful observers on the subject and where necessary synthesizing such opinions Kirkus Reviews In the tradition of William James Varieties of Religious Experiences we have an important collection of valuable data that should be read and considered by any one interested in the pursuit of man his meaning and destiny For me this book was an exciting adventure Paul Severson Fate magazine Steiger enormously expands the definition of revelation What emerges is an engrossing compilation of esoteric events reported by those experiencing them Library Journal Brad Steiger has written a shelf full of books on psychic phenomena Many people throughout the country first developed an interest in extrasensory perception through the work of this prolific author Martin Ebon OCCULT magazine

William Swan Sonnenschein,1895      **Light** ,1887      *Reason and Revelation* William Horne,1876      **Awesome Creations and Evolution** Kamran Pirnahad,2017-10-28 The book is based on a platform of truthful spiritual and actual observations to achieve a higher status of the mind Perception and meaning have been derived from pure concepts which define the creation and henceforth the evolution of the species and the human species It's an effort to reach at an explanation worthy the concept of the human existence and humanity It is made up of the fabric of the creation and evolution in a more transcended and ecclesial way Effort has been made to approach serious and complex issues of humanity in a more intellectual analytical

and critical way Furthermore the purpose of these scripts is to enable the human to transform and attain a higher state of existence without regard of race language color or gender It is an effort to empower the human soul and psyche to consciously and conscientiously define the purpose and goals in life and death and free one's soul from the domination of the dark aged mind Enlightenment enables the human soul to achieve the true meaning of freedom and emancipation Salvation of the soul could only be reached at in a state of harmony and unity with God It requires utmost effort to go through different developmental stages of the mind establish a pure method of meditation and consistently pursue the quest for spiritual learning These unique qualities could only be achieved through a life time of devotion and dedication The human is a conflict driven entity whose soul and mind is being continuously stirred up by mysterious forces However reaching a relative state of the Truth and Truce is for the most part the experiencing of a spiritual and inner epiphany as a sudden manifestation of the salvation of the soul This state of being is based on promoting individuality and developing an independent state of the mind It cannot be forced on anyone's soul neither can it be taken away from whoever has attained such a status On the other hand humans are also necessitous beings whose reality of existence is defined by the degree of satisfaction of their different levels of needs In this regard the human state of existence cannot be transformed as a whole to a state of complete salvation because it would necessarily keep on changing for the purpose of satisfying such needs in a more sufficient way until the end of time Yet a whole is made up of its individual units therefore as individuals transform themselves into more efficient and truthful beings then we could reach a higher socio cultural economical and spiritual status worthy the true meaning of existence

**The Great Religions** Pietro Archiati,1998 Taking a radical departure from the usual comparative study of religion Pietro Archiati shows that the various religions represent stages in each individual's path of development In this sense the Great Religions create an absolute unity not in what they say or teach but in their contribution to each of us becoming ever more human Beginning with the Flood of Atlantis Archiati places the religions in the context of human evolution taking us through the development of Buddhism Zarathustrianism Judaism Christianity Islam and onwards to the future of religion based on spiritual reality For example Archiati considers how the founders of the various religions are working today Are the Buddha Krishna Moses and Zarathustra doing and telling us the same things now as they were in the past even though humanity has undergone considerable changes since

**The Six Great Themes of Western Metaphysics and the End of the Middle Ages** Heinz Heimsoeth,1994 Heimsoeth enters boldly into the historical drama of Western philosophical thought at its deepest level and tells a story focused not so much on actors as on the plot itself the great metaphysical questions about philosophy and life

**Dogmatics II** Emil Brunner,2025-04-24 One of the great twentieth century works of theology Emil Brunner's Dogmatics series presents a profoundly biblical systematic theology Finding a path between Barth and Bultmann Brunner explores key doctrines such as the doctrine of God creation and redemption and the doctrine of the church and of faith These foundational texts from a leading theologian of the 20th century

are crucial for scholars and students illuminating how modern Protestant theology was formed in the last century The first volume serves as an introduction to Brunner s view of dogmatics setting out the nature position and necessity of dogmatics before exploring the many facets of the doctrine of God In detailed vigorous explanation Brunner considers the nature and will of God including his name his holiness his wisdom and his glory Thorough insightful and extensive this first volume is an illuminating beginning to this series The second volume explores the fundamental concepts of the protestant doctrine from creation and the creator to man s position within creation sin and its consequences and the saving work of Jesus Brunner explores all of the possibilities of these fundamentals and his detailed thoughtful arguments are designed as he says to set us free to have a faith which is based on nothing save the Love of God revealed in Jesus Christ The third and final volume focusses on the theology of the Church as a reflection of God s self revelation through the Holy Spirit and an eternal consummation of Divine self communication Drawing together the understanding gleaned in the previous two volumes Brunner addresses the nature of the church and faith to bring his systematic biblical theology into the experiences of his readers

**The Long War Against God** Henry Morris,2000-04-01 It is generally assumed that evolution originated with Charles Darwin the one time divinity student turned naturalist atheist That this assumption is false will shock and surprise many Considered to be a classic work The Long War Against God by the late Dr Henry Morris long an opponent of Christian Compromise with evolution presents in riveting detail the very old plan to undermine God s Word Drawing from the text of the Greeks Babylonians and other ancient philosophers Dr Morris shows the path that has led to today s neo Darwinists and how evolution the philosophy of death is in itself dying Millions of Christians have seen their faith diminished and left fragile by aggressive arguments for evolution but few know the true story of a belief system that seeks to ultimately eliminate God Dr Morris reveals within these pages this compelling story and reiterates the power of scriptural truth Discover why God couldn t have used the inefficient cruel method of evolution to create Learn how the Sermon on the Mount illustrates how God has nothing to do with survival of the fittest Has science proven evolution Where are all the transitional fossils What about vestigial organs Learn the answers to these questions and more
