as a 2013 Outstanding Academic Title Recipient of a 2012 PROSE Award honorable mention *Epic and Romance Criticism* Arthur Coleman,1973 **Medieval Robots** E. R. Truitt,2015-04-22 A thousand years before Isaac Asimov set down his Three Laws of Robotics real and imagined automata appeared in European courts liturgies and literary texts Medieval robots took such forms as talking statues mechanical animals and silent metal guardians some served to entertain or instruct while others performed disciplinary or surveillance functions Various ascribed to artisanal genius inexplicable cosmic forces or demonic powers these marvelous fabrications raised fundamental questions about knowledge nature and divine purpose in the Middle Ages *Medieval Robots* recovers the forgotten history of fantastical aspirational and terrifying machines that captivated Europe in imagination and reality between the ninth and fourteenth centuries E R Truitt traces the different forms of self moving or self sustaining manufactured objects from their earliest appearances in the Latin West through centuries of mechanical and literary invention Chronicled in romances and song as well as histories and encyclopedias medieval automata were powerful cultural objects that probed the limits of natural philosophy illuminated and challenged definitions of life and death and epitomized the transformative and threatening potential of foreign knowledge and culture This original and wide ranging study reveals the convergence of science technology and imagination in medieval culture and demonstrates the striking similarities between medieval and modern robotic and cybernetic visions **Holy Warriors** Richard W. Kaeuper,2012-06-04 The medieval code of chivalry demanded that warrior elites demonstrate fierce courage in battle display prowess with weaponry and avenge any strike against their honor They were also required to be devout Christians How then could knights pledge fealty to the Prince of Peace who enjoined the faithful to turn the other cheek rather than seek vengeance and who taught that the meek rather than glorious fighters in tournaments shall inherit the earth By what logic and language was knighthood valorized In *Holy Warriors* Richard Kaeuper argues that while some clerics sanctified violence in defense of the Holy Church others were sorely troubled by chivalric practices in everyday life As elite laity knights had theological ideas of their own Soundly pious yet independent knights proclaimed the validity of their bloody profession by selectively appropriating religious ideals Their ideology emphasized meritorious suffering on campaign and in battle even as their violence enriched them and established their dominance In a world of divinely ordained social orders theirs was blessed though many sensitive souls worried about the ultimate price of rapine and destruction Kaeuper examines how these paradoxical chivalric ideals were spread in a vast corpus of literature from exempla and chansons de geste to romance Through these works both clerics and lay military elites claimed God's blessing for knighthood while avoiding the contradictions inherent in their fusion of chivalry with a religion that looked back to the Sermon on the Mount for its ethical foundation **Folk Literature of the Sephardic Jews, Vol. III** Samuel G. Armistead,Joseph H. Silverman,2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived

makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1994 *Partonopeus de Blois* Penny Eley, 2011 First book length treatment of a fascinating medieval French romance underlining its influence in the genre Partonopeus de Blois is one of the most important works of twelfth century French fiction it shaped the development of romance as a genre gave rise to adaptations in several other medieval languages and even an opera Massenet's *Esclarmonde* However partly because of its complicated transmission history and partly due to the fact that it has been overshadowed by the works of Chr tien de Troyes it has been unjustly neglected This first full length study of the romance brings together literary historical and manuscript studies to explore its making as it evolved through seven medieval editions the earliest of which probably predated most of Chr tien's romances The book's thematic analyses show how the Partonopeus poet applied established techniques of rewriting to a wide range of classical vernacular and Celtic sources combining this literary fusion with political subtexts to create a new and influential model of romance composition Detailed studies of the Continuation reveal more ambitious experimentation by the original author as well as the activities of a series of editors who continued to modify the text for over a century A final discussion of patronage proposes a new reading of the poem's distinct narratorial interventions on women and love and suggests a link between Partonopeus and a disturbing episode in the history of Blois Penny Eley is Professor of Medieval French at the University of Sheffield

Constructions of Childhood and Youth in Old French Narrative Phyllis Gaffney, 2016-05-23 What do we know of medieval childhood Were boundaries always clear between childhood and young adulthood Was medieval childhood gendered Scholars have been debating such questions over half a century Can evidence from imaginative literature test the conclusions of historians Phyllis Gaffney's innovative book reveals contrast and change in the portrayal of childhood and youth by looking at vernacular French narratives composed between 1100 and 1220 Covering over sixty poems from two major genres epic and romance she traces a significant evolution While early epics contain only a few stereotypical images of the child later verse narratives display a range of arguably timeless motifs as well as a growing awareness of the special characteristics of youth Whereas juvenile epic heroes contribute to the adult agenda by displaying precocious strength and wisdom romance children are on the receiving end requiring guidance and education Gaffney also profiles the intriguing phenomenon of enfances poems singing the youthful deeds of established heroes these prequels combine epic and romance features in distinctive ways Approaching the history of childhood and youth through the lens of literary genre this study shows how imaginative texts can both shape and reflect the historical development and cultural construction of emotional values
