Christensen, 2022-07-14 The Second Coming of Christ the resurrection of the dead the Final Judgment the Apocalypse is central to Christianity and has evolved throughout Christianity's long history Thus when ecclesiastics brought the Apocalypse to Indigenous audiences in the Americas both groups adapted it further reflecting new political and social circumstances The religious texts in Aztec and Maya Apocalypses many translated for the first time provide an intriguing picture of this process revealing the influence of European Aztec and Maya worldviews on portrayals of Doomsday by Spanish priests and Indigenous authors alike The Apocalypse and Christian eschatology played an important role in the conversion of the Indigenous population and often appeared in the texts and sermons composed for their consumption Through these writings from the sixteenth to the early nineteenth century priests official texts and Indigenous authors rendering of them Mark Z Christensen traces Maya and Nahuatl influences both stylistic and substantive while documenting how extensively Old World content and meaning were absorbed into Indigenous texts Visions of world endings and beginnings were not new to the Indigenous cultures of America Christensen shows how and why certain formulations such as the Fifteen Signs of Doomsday found receptive audiences among the Maya and the Aztec with religious ramifications extending to the present day These translated texts provide the opportunity to see firsthand the negotiations that ecclesiastics and Indigenous people engaged in when composing their eschatological treatises With their insights into how various ecclesiastics Nahuas and Mayas preached and even understood Catholicism they offer a uniquely detailed deeply informed perspective on the process of forming colonial religion **The Aztecs** Henry Freeman, 2019-05-20 The Aztec Empire did not recoil from the face of an impending doom they struggled faithfully Destined to emerge from their humble beginnings it grew into a highly complex devoted civilization refusing to live at the mercy of more neighboring powerful rulers Their powerful pochteca combed the valley for luxury items while markets dotted their lands Inside you will find

Mundy, 2018-03-22 Winner Book Prize in Latin American Studies Colonial Section of Latin American Studies Association LASA 2016 ALAA Book Award Association for Latin American Art Arvey Foundation 2016 The capital of the Aztec empire Tenochtitlan was in its era one of the largest cities in the world Built on an island in the middle of a shallow lake its population numbered perhaps 150 000 with another 350 000 people in the urban network clustered around the lake shores In 1521 at the height of Tenochtitlan's power which extended over much of Central Mexico Hernando Cortés and his followers conquered the city Cortés boasted to King Charles V of Spain that Tenochtitlan was destroyed and razed to the ground But was it Drawing on period representations of the city in sculptures texts and maps The Death of Aztec Tenochtitlan the Life of Mexico City builds a convincing case that this global capital remained through the sixteenth century

very much an Amerindian city Barbara E Mundy foregrounds the role the city's indigenous peoples the Nahuas played in shaping Mexico City through the construction of permanent architecture and engagement in ceremonial actions She demonstrates that the Aztec ruling elites who retained power even after the conquest were instrumental in building and then rebuilding the city Mundy shows how the Nahuas entered into mutually advantageous alliances with the Franciscans to maintain the city's sacred nodes She also focuses on the practical and symbolic role of the city's extraordinary waterworks the product of a massive ecological manipulation begun in the fifteenth century to reveal how the Nahuas struggled to maintain control of water resources in early Mexico City

Christian Texts for Aztecs Jaime Lara, 2008 Christian Texts for Aztecs Art and Liturgy in Colonial Mexico is a cultural history of the missionary enterprise in sixteenth century Mexico seen primarily through the work of Catholic missionaries and the native populations principally the Aztecs Also known as the Mexica or Nahuas speakers of the Nahuatl tongue these Mesoamerican people inhabited the central plateau around Lake

Texcoco and the sacred metropolis of Tenochtitlan the site of present day Mexico City It was their language that the mendicant missionaries adopted as the lingua franca of the evangelization enterprise Conceived as a continuation of his earlier well received City Temple Stage Jaime Lara s new work addresses the inculturation of Catholic sacraments and sacramentals into an Aztec worldview in visual and material terms He argues that Catholic liturgy similar in some ways to pre Hispanic worship effectively conquered the religious imagination of its new Mesoamerican practitioners thus creating the basis for a uniquely Mexican Catholicism The sixteenth century friars in partnership with indigenous Christian converts successfully translated the Christian message from an exclusively Eurocentric worldview to a system of symbols that made sense to the indigenous civilizations of Central Mexico While Lara is interested in liturgical texts with novel or recycled metaphors he is equally interested in visual texts such as neo Christian architecture mural painting feather work and religious images made from corn These he claims were the sensorial bridges that allowed for a successful if not wholly orthodox inculturation of Christianity into the New World Enriched by more than 280 color images and eleven appendices of translations from Latin and Nahuatl Lara s study provides rich insights on the development of sacramental practice popular piety catechetical drama and parish politics Song dance flowers and feathers of utmost importance in the ancient religion of the Aztecs were reworked in ingenious ways to serve the Christian cause Human blood too found renewed importance in art and devotion when the indigenous religious leaders and the mendicant friars addressed the fundamental topic of the Man on the cross An important work on worship liturgy and the visual imagination Christian Texts for Aztecs Art and Liturgy in Colonial Mexico is a vivid look at a unique cultural adaptation of Christianity I have deeply enjoyed and have been intellectually enriched by reading Jaime Lara s Christian Texts for Aztecs Art and Liturgy in Colonial Mexico This book will transform how we understand the process of evangelization of Mexico in the sixteenth century Clearly written and persuasively argued Lara reveals how metaphor allows for cross cultural communication as the deepest level of the Human experience religious belief This is demonstrated by a nuanced but richly documented history of the period Drawing upon architecture painting and a variety of different kinds of primary sources this study blends a deep understanding of Aztec religious beliefs so as to articulate the very complex development of Colonial Mexican Christianity Most importantly Lara demonstrates how Aztec beliefs and practices were not only incorporated into Catholic teaching and ritual practice but how they transformed that teaching and practice Moreover Lara makes so very evident the centrality of Music and Art in this complicated interaction Thomas Cummins Dumbarton Oaks Professor of the History of Pre Columbian and Colonial Art Harvard University We have seen many interpretations of the story of the faith in America some have called it black and others white or grey Whatever version one may appropriate Jaime Lara has provided us with a unique rich focus the worship experience of a people called to be renewed by Christianity and the creative expressions of Christian faith in unique images and paintings Jaime Lara s book is a treasure to cherish for many years an addition to any personal or public Library and a

legacy that engages readers to embark on a journey in which history liturgical theology and good art become one s traveling companions Rev Fr Juan J Sosa Presidente Instituto Nacional Hispano de Liturgia Inc **Radical History Review: Volume 61, Winter 1995** Calvin B. Holder,Dewar MacLeod,1995-04-13 Radical History Review presents innovative scholarship and commentary that looks critically at the past and its history from a non sectarian left perspective RHR scrutinises conventional history and seeks to broaden and advance the discussion of crucial issues such as the role of race class and gender in history

Performative Bodies, Hybrid Tongues Julian Vigo,2010 This book reconsiders the body in literature and makes a case for visual representation as a physical and gesticulative domain for rethinking the constructions of gender nationalism and sexuality Examining literary production from the eleventh century until the present the author argues that the body in contemporary North Africa and Latin America serves as a physical and symbolic terrain upon which sexual textual national racial and linguistic identities are vectored and through which postcolonial and hegemonic antagonisms of power and identity are resolved Rather than embracing third world identity as a residual repository of western thought colonization and linguistic infusion the author suggests that the paradigm of cultural identity in the Maghreb and Latin America is best understood through an examination of the emergent corporeal articulations of subjectivity prevalent in these literatures and visual cultures The text examines the body as a critical landscape through which the various discourses of nationhood gender and sexuality converge in order to construct a reading of the social that neither amasses subjectivity as singular under the rubric of the third world nor couches the other within static notions of gendered sexual or racial identities
