**Anonymi Monophysitae Theosophia An Attempt At Reconstruction Supplements To Vigiliae Christianae Vol 56:**

Anonymi Monophysitae Theosophia Pier Franco Beatrice, 2015-12-22 The Theosophy written by an anonymous Monophysite theologian in the early years of the sixth century CE is a work in four books with a final world chronicle. Heir to a long apologetic tradition it aims at demonstrating that there is a basic harmony between Christian faith and pagan theology. For this reason its author quotes at length numerous pagan prophecies of the Christian doctrines of the Trinity and the Incarnation. This volume proposes the first comprehensive critical edition of all the extant fragments of this work in an attempt to reconstruct the general framework and to understand the inner logic of its composition. Thanks to this edition which is bound to become the starting point for any future investigation the Theosophy has now been put in circulation and made available for further research. *New Testament Apocrypha*, vol. 2 Tony Burke, 2020-07-21 A compilation of

apocryphal Christian texts many translated into English for the first time with comprehensive introductions. This second volume of *New Testament Apocrypha* continues the work of the first by making available to English readers more apocryphal texts. Twenty nine texts are featured including *The Adoration of the Magi* and *The Life of Mary Magdalene* each carefully introduced, copiously annotated and translated into English by eminent scholars. These fascinating texts provide insights into the beliefs, expressions and practices of a range of Christian communities from the early centuries through late antiquity and into the medieval period.

**Hellénisme et Christianisme** Michel Narcy, Eric Rebillard, 2004 Issues d'un atelier regroupant des spécialistes de différentes disciplines concernées par l'Antiquité tardive ces contributions font le point sur les avancées récentes dans la compréhension de la rencontre entre le christianisme et la culture gréco-romaine. **The Fragmentary Latin**

**Histories of Late Antiquity (AD 300-620)**, 2020-06-25 The first systematic collection of fragmentary Latin historians from the period AD 300-620 this volume provides an edition and translation of and commentary on the fragments. It proposes new interpretations of the fragments and of the works from which they derive whilst also spelling out what the fragments add to our knowledge of Late Antiquity. Integrating the fragmentary material with the texts preserved in full the volume suggests new ways to understand the development of history writing in the transition from Antiquity to the Middle Ages.
