*Faithful Interpretations* Philip Geister, Gosta Hallonsten, 2021-02-26

Theology of Religions is among the most burning issues within Christian theology today The challenge to study and discuss different ways of handling conflicting truth claims and religious narratives between religions is taken up by a growing number of theologians across denominational boundaries This is a common and ecumenical effort undertaken by Christian theologians all over the world And yet the impact of specific ecclesiastical or theological traditions on different concepts of theology of religions should not be underestimated As well known the Second Vatican Council with its pivotal decree *Nostra Aetate* On the relation to other religions not only set the agenda for Catholic theology but even influenced the wider discussion on the topic The papers of this volume were all given at a conference in Uppsala Sweden in October 2017 The structure of Faithful Interpretations follows closely the way the conference was conducted A general introduction to the development and present status of Theology of Religions by Marianne Moyaert opens the book Archbishop J. Augustine Di Noia of the Vatican Congregation for the Doctrine of Faith then treats the recent developments in the teaching of the Magisterium regarding theology of religions Anna Bonta Moreland addresses the issue of Muhammad and Christian Prophecy Diego R. Sarri Cucarella focuses on early Christian theological views of Islam and concludes that Islam has been from the beginning a disturbing factor in the Christian view of salvation history Wilhelmus G. B. M. Valkenberg discusses the impact of *Nostra Aetate* on the Church's relation to Muslims using

especially the precedent of Nicolaus of Cues as regards a constructive approach to Islam Klaus von Stosch addresses a sensitive issue in Muslim Christian relations and illustrates the advantages of the comparative theology approach for the theology of religions Complementing this perspective Peter Jonkers offers a hermeneutical perspective on truth claims and reflects on the religious Other with references to Jacques Derrida among others Reinhold Bernhardt argues in favour of a biblically grounded relational existential theory of truth which would be most helpful with regard to other religions To conclude the prominent Catholic specialist on Theology of Religions Gavin D Costa widened the perspective by addressing the relation to Judaism from the point of view of the covenant and the promises of the land Altogether the papers of this volume give a clear impression of the status of Roman Catholic Theology of Religions **Fierce Wars and Faithful Loves**
