Anshen + Allen Los Angeles ,2002 The Housing Project Gaia Caramellino,Stéphanie Dadour,2020-03-03

Throughout the twentieth century housing displays have proven to be a singular genre of architectural and design exhibitions. By crossing geographies and adopting multiple scales of observation from domestic space to urban visions this volume investigates a set of unexplored events devoted to housing and dwelling organised by technical professional cultural or governmental institutions from the interwar years to the Cold War. The book offers a first critical assessment of twentieth century housing exhibits and explores the role of exhibitions in the codification of notions of domesticity social models policies and architectural and urban discourse. At the intersection of housing studies and the history of exhibitions *The Housing Project* not only offers a novel angle on architectural history but also enriches scholarly perspectives in urban studies cultural and media history design and consumption studies.
