D. Jakes and Creflo Dollar are examined in detail with regards to how they align with black church religious history Hinton concludes by proposing that the fastest growing religious phenomenon within and outside of the black community in the United States the mega church should no longer be analyzed based on size alone Instead Hinton urges readers to consider the ecclesiastical structures of churches in making appropriate assessments in determining should and should not be classified as a commercial church [Rediscovering Genesis](#) Gerald Ostroot, 2009-11 Rediscovering Genesis is an exciting new look at the evolution creation controversy Its author is neither scientist nor theologian so he can present an objective point of view The premise of the book is that both religion and science describe the same Universe and must be compatible It accomplishes that goal by exposing the hidden assumptions and self imposed restriction of both disciplines and challenging them It documents the changes needed from both disciplines The book presents a well

researched effort to root out the causes of the evolution creation controversy and to discover a solution that includes both disciplines. While the book is aimed at a Christian audience, it has much to offer to the less committed individuals as well. It will be of special interest to those who have been or are currently being exposed to the Theory of Evolution in our educational systems. It will be invaluable to the parents of those students. It will serve as a guide to educators. It will be of interest to all that are aware of the present controversy. The book is divided into two parts. The first part looks at the biblical creation account in the first 4 chapters of Genesis. By incorporating our modern knowledge into this account, it becomes compatible with both the scientific account of our beginning and the literal seven days of creation described in the Bible. That is a necessary first step in resolving the controversy between science and religion. Part 1 goes on to bring a new deeper understanding of our relationship with our Creator. Part two brings us face to face with two major roadblocks to accepting a world view that includes a Creator: 1. the problem of suffering in our world and 2. the evolution creation controversy. The first roadblock, the problem of suffering, occurs only in the teaching of Christianity. It occurs because we misunderstand the relationship of the Creator with His creation. Understanding this special relationship starts in Genesis. Misunderstanding and misinformation have marked the second of the evolution creation controversy from the very beginning. This book explains the facts that are important for general understanding. It goes on to closely examine the scientific definition of life and shows where it leads. This is also a necessary step in resolving the evolution science controversy. Throughout the book, the overriding theme is authority and its important function in our lives. It is the common ground where both science and religion can merge. Find out how it can change your world view and your life.

The Spirit of God's Anointing Bill Vincent, 2023-05-30 There has been a long-term deterioration in the Church's position in society. God has commanded us to perform bigger deeds. Most ministries aren't even carrying out Jesus' teachings and commandments. A new era is about to begin. According to God's word, the information I've uncovered will be made available so that we can all reach the goal we've set for ourselves. Miracles, signs, and wonders are all around us. Even in the local church, I'm referring to this. The anointing is about to get a lot more intense. In the long run, the investment will pay off. It is time for you to learn about three life-changing anointings. Revealing, breaking open, and crowning the king are all aspects of the kingly anointing. As a result of this discovery, my anointing has risen to a new level.
