## **Antares Dawn:**

Anatares Dawn Michael McCollum, 1986      Euclid's Wall Michael McCollum, 2020-10-01 A century after civilization fell in a day and a night of tectonic cataclysm scattered communities have regained a fraction of what humanity lost on that Day of Destruction One such is the Duchy of Hampshire on the southern tip of England Hampshire is at war with the Califat de Normandie It is a war that has been profitable for merchant sea captain Ethan Scott of the Sailing Barque Hellespont Despite the money to be made Scott prays for the war to end Each time he puts to sea he risks his ship and the lives of his crew on his ability to evade the Norman raiders in the Channel and the Eirish Sea It is a gamble he will inevitably lose if he keeps at it too long The Duke of Hampshire has problems of his own War is expensive If he doesn't find additional resources soon he will be defeated The Duke plans to send an expedition to North America to discover whether the fabled wealth of old still exists there For that he needs a ship Scott's chance meeting with a beautiful woman presents both men with the solution to their respective problems Soon Hellespont sets sail for America and the mysterious Wall that scholars believe precipitated the fall of civilization and which may yet destroy the world      **The Lady from the Black Lagoon** Mallory O'Meara, 2019-03-05 In 1954 movie going audiences were shocked and awed by Universal Studio's groundbreaking horror film Creature from the Black Lagoon As the years passed the film gained a reputation as a landmark of the monster movie genre But only a small number of devotees were aware of the existence of Milicent Patrick who remains to this day the only woman to have designed a classic Universal monster That is until film producer horror aficionado and Black Lagoon acolyte Mallory O'Meara begins to investigate rumors about the monster's creator only to find more questions than answers Through diligent research O'Meara learns that the enigmatic artist led a rich and fascinating life that intersects with some of the largest figures of mid century America including William Randolph Hearst and Walt Disney The sudden premature end to Patrick's career is defined by circumstances that parallel uncomfortably so O'Meara's own experiences in the film world an industry that continues to be dominated by men In a narrative with equal parts mystery and biography The Lady from the Black Lagoon interweaves the lives of two women separated by decades but bound together by the tragedies and triumphs of working in Hollywood      **Jumping at the Chance** Gil Griffin, 2017-07-13 The true story of how professional Australian Rules Football found an unlikely new source of talent in the United States Though most Americans automatically think rugby when they hear or read the phrase Australian football the two sports actually have very little in common besides tackling and kicking Footy as this unique sport is known in Aussie circles bears more resemblance to American athletics requiring the skill and grace of basketball combined with the physical toughness and endurance of American style football The only thing it apparently didn't require was actual Americans Until now Scouts from the Australian Football League AFL realized that a key position on their teams called the ruckman required both the height and ball handling skills readily found in American basketball players What began as an unlikely experiment of cross breeding sports talent has led to a growing expedition of

NBA hopefuls from NCAA athletic programs including Oklahoma State Morehead State and the University of Arizona looking to make their way in a game most of them had never even seen played before In Jumping at the Chance longtime Aussie football fanatic Gil Griffin delivers a riveting account of these American athletes who go to the other side of the world in search of their dreams of glory From learning an entirely foreign sport from the ground up to coping with what it means to be a team member in a different culture to gaining not only acceptance but ecstatic support from the rabid footy fans their stories are much like Australian Rules football itself sometimes humorous sometimes heartbreaking always inspiring The Sails of Tau Ceti Michael McCollum,2020-10-01 Starhopper was humanity s first interstellar probe It was designed to search for intelligent life beyond the solar system Before it could be launched however intelligent life found Earth The discovery of an alien light sail inbound at the edge of the solar system generated considerable excitement in scientific circles With the interstellar probe nearing completion it gave scientists the opportunity to launch an expedition to meet the aliens while they were still in space The second surprise came when Starhopper s crew boarded the alien craft They found beings who despite their alien physiques were surprisingly compatible with humans That two species so similar could have evolved a mere twelve light years from one another seemed too coincidental to be true One human being soon discovered that coincidence had nothing to do with it **Thunderstrike!** Michael McCollum,2020-10-01 The new comet found near Jupiter was an incredible treasure trove of water ice and rock Immediately the water starved Luna Republic and Sierra Corporation a leader in asteroid mining were squabbling over rights to the new resource But all thoughts of profit and fame were abandoned when a scientific expedition discovered that the comet s trajectory placed it on a collision course with Earth As scientists struggled to find a way to alter the comet s course world leaders tried desperately to restrain mass panic and two lovers quarreled over the direction the comet was to take all Earth waited to see if humanity had any future at all **Gibraltar Earth** Michael McCollum,2019-11-18 It is the 24th Century Humanity is only just beginning to gain a toehold out among the stars While exploring the New Eden system the crew aboard Stellar Survey Starship Magellan encounters a pair of alien spacecraft A skirmish ensues and both sides exit the battle with heavy losses In picking through the wreckage of one of the alien ships the human crew stumbles upon a survivor with a fantastic story The alien hails from a million star Galactic Empire ruled over by a mysterious race known as the Broa As masters of this region of the galaxy they permit no challenge to their empire But as yet the Broa are ignorant of humanity s existence Armed with this vital information the human race must decide how best to proceed Do they cease all astral voyages and retreat to their corner of the universe quaking in fear at the thought of the Broa s discovery of Earth Or do they take a more aggressive approach **Procyon's Promise** Michael McCollum,2020-02-04 For millennia the Makers Life Probes explored the farthest reaches of space in search of the secret behind faster than light speed In the 22nd century the people of Earth made a pact with this far flung civilization all of the Makers intelligence in exchange for help in their mission Three hundred years later descendants of the original Procyon expedition have returned to Earth in

a starship They find a world that has forgotten the generations old contract No matter The returning colonists have overcome far greater obstacles in their single minded drive to redeem a promise made before any of them were born Gibraltar Stars Michael McCollum,2019-11-18 The great debate is over The human race has rejected the idea of retreating to Earth and that the Broa will continue to overlook them at least for a few more generations Instead the World Parliament by a 60 40 vote has decided to throw the dice and go for a win Brave words echo in Parliament Hall as members declare a victory inevitable While plans for war mount on Earth Mark and Lisa Rykand face grave danger as spies in enemy territory The Broa have begun to scrutinize these strange two legged interlopers and question their intentions It s only a matter of time before their identities are revealed But the Rykands mission is key to securing a victory With the number of forces favoring the enemy by roughly a million to one Earth will need all the help they can get **Slaying the Dragon** Ben Riggs,2022-07-19 2022 Goodreads Choice Awards Finalist 2023 Texas Topaz Nonfiction Reading List Dungeons Dragons It s the fantasy role playing game first conceived over fifty years ago by the now legendary company Tactical Studies Rules which has enthralled millions of devoted gamers around the world for generations It s a test of skill intelligence audacity and survival But no D D game ever played could compare to the stunning behind the scenes melee for power and dominance that was the true story of TSR Slaying the Dragon chronicles the rise and fall of TSR Tactical Studies Rules how the brilliant and wild minds of the legendary Gary Gygax and his co creator Dave Arneson gave birth to a game that would capture the imagination of outsiders and underdogs throughout the world From its humble beginnings in the small town of Lake Geneva Wisconsin to its emergence as a cultural phenomenon TSR soon spawned an unlikely empire of games and geekdom with Dungeons Dragons leading the way that was decades ahead of its time inviting both hyper devoted fans as well as hysteria surrounding the game s supposed corrupting influence on America s youth TSR was in the news in the money and on top of the world But success soon took its toll with creative control and rivalries within the firm threatening the stability of TSR Former allies grew apart personally and professionally and the formerly fun freewheeling firm founded by a band of misfits collapsed into a desperate struggle for survival Despite attempts to grow in a changing market setbacks and management decisions put TSR in a downward spiral in the 1990s which resulted in the company s death and then resurrection by the most unlikely of saviors With author access to previously unreleased documents and insider stories and interviews with former TSR employees and associates who witnessed the high stakes machinations and maneuvering that would eventually seal the company s fate Slaying the Dragon is a fascinating revealing tale of friends turned enemies success and failure and loyalty and betrayal that no roll of the die could predict Praise for Slaying the Dragon A compelling corporate saga mired in mythmaking Kirkus Riggs s book a compelling adventure in itself features interviews with many of the key players narrated by a superfan The Washington Post Riggs has written a fascinating and dishy account of the business hits and whistling misses of a band of dreamers writers artists and geeks A must read for fighters magic users and even bards and everyone else too Brad Ricca

Edgar nominated author of Mrs Sherlock Holmes and True Raiders Far from a fluff piece on a beloved hobby this book goes behind the GM s screen to take a hard nosed look at the people and circumstances that first gave rise to D D then nearly killed it twice Riggs takes you on a roller coaster from boom to near bankruptcy but never loses sight of the individuals involved the good the bad and the geeky Marie Brennan Hugo Award nominated author of the Memoirs of Lady Trent series We strongly recommend buying it especially if you are interested in TSR and D D history Dungeon Master Magazine An indispensable account about the legends and truth from the people that worked there Highly recommended Mike Mason co designer of Call of Cthulhu 7th edition ,2018-11-30 The Apocalypse of Enoch and Bhu unda The Apocalypse of Enoch and Bhu unda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology In this second volume of A Chronology of the Primeval Gods and the Western Sunrise ancient myths from multiple geographies are correlated to spikes in cosmic rays over the past 120 000 years as documented in ice core data The chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods hyper nova at the Galactic Center associated with Sgr A The Dragon Sgr West The Beast and Sgr East Hirany ksha and Hiranyakas ipu with secondary supernova seen as the birth of new destructive gods Ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geo polar migrations which has resulted in a shift of the earth s equator on at least one occasion Multiple myths are shown to represent a view of the sky that can only be seen from the Antarctic region Multiple versions of the myths of Orion are analyzed showing clear linkages between the Vedic myth of Trisanku the Book of Genesis Senmut s Tomb and the myths of Prajapati Daksa representing the oldest version of the Orion myth older than Trishanku and Genesis by 20 000 years The stunning conclusion explains how the Watchers of Enoch were the Vedic descendants of Ila and Ikshvaku These descendants of the seventh Manu had been observing and recording the stars as a source of cataclysm for at least 15 000 years prior to Enoch thus allowing Enoch to prophesize a new heaven That prophecy became the foundation for St John s Book of Revelations which is shown to be a description of a series of cataclysms attributed to Sgr West The book offers a new theory for explaining geo polar migration That theory suggests small shifts in the location of the earth s center of gravity underlie each migration but that there are multiple causes for the shifts

**The Clouds of Saturn** Michael McCollum,2020-10-01

When the sun flared out of control and boiled Earth s oceans humanity took refuge in a place that few would have predicted In the greatest migration in history the entire human race took up residence among the towering clouds and deep clear air canyons of Saturn s upper atmosphere Having survived the traitor star they returned to the all too human tradition of internecine strife The new city states of Saturn began to resemble those of ancient Greece with one group of cities taking on the role of militaristic Sparta

A Galaxy Reborn It is the 43rd century and humanity occupies a substantial chunk of the Orion Spur the small galactic arm in which Sol is located Homo sapiens Terra has become Homo sapiens Galactica Following the invention of faster than light travel in 2530 the Great Hegira went from a trickle to a flood as human occupied space expanded at an exponential clip Over the centuries rivalries grew as did star system navies When widespread war finally came it raged across entire sectors Mass bombardments of enemy planets took their toll Much that had been built during the preceding thousand years was smashed in flashes of nuclear fusion A dark age descended Eventually a new Pax Galactica took hold The return of stability brought with it a renaissance Much knowledge that had been lost was regained Much but not all On worlds across human space

parents told their children stories of a place where once dwelt knights and princesses magicians and dragons where bold warriors sallied forth to victory or defeat What the children did not learn was where this magical place could be found The years of chaos had robbed them of that information The stellar coordinates of Sol were lost And with them the location of Planet Earth     *Andrearth* Dickey Mayor,2004-07 Some six billion years from now the Milky way and the Andromeda galaxy will fold into one another a dance to death a super massive collision leaving behind just one swirling mass of gas and dust Hence it may not have been pure coincidence that there was an identical solar system in the Andromeda galaxy and also human life on the third inner planet That was Andrearth a near utopian world a home to spiritually more evolved human beings An extension of our own civilization In search of a world from where their souls could have evolved the Andrearthians stumble upon earth where they can connect with only two people one is Ray an infant at that time the other is a spiritual master of a meditation mission Ray s growing years are marred by strange experiences he hears voices from outer space as if someone is reaching out for him but he cannot comprehend these messages Strangely when he grows up he joins the SETI Search for Extra Terrestrial Intelligence programme civilizations the quest for kindred spirits continues one using the tools of modern science and the other using their mental powers Do they succeed     *Merchant Vessels of the United States...* United States.
