Principles and Practice of Maternal Critical Care Sharon Einav,Carolyn F. Weiniger,Ruth Landau,2020-11-25 This book contains a collection of the most recent insights regarding maternal morbidity and mortality and optimization of the care processes during acute critical illness The volume represents a practical resource to be used in real time by medical practitioners faced with a woman who is critically ill during pregnancy and the peripartum period By providing concise tools for disease identifiers and management flow charts the Editors aimed to increase awareness and improve processes of care for this population Many care paradigms for obstetric patients are currently unstandardized unfocused and often do not follow a pre determined path Each chapter will provide the practitioner with updated information on how to identify specific critical conditions and how to manage them once they have been identified to enhance recognition and readiness This book should be used as a resource to improve the quality of care administered to obstetric patients to reduce fragmented care processes and to improve interdisciplinary co ordination and communication with the overall aim of decreasing maternal morbidity and mortality Therefore this book represents an invaluable guide to specialists in critical care anesthesia and obstetrics as well as to intensive care nurses and midwives Anesthetic and Obstetric Management of High-Risk Pregnancy Sanjay Datta,2006-04-29 It has been enormously satisfying to prepare the third edition of Anesthetic and Obstetric Management of High Risk Pregnancy because it fulfills the need for close communication between two specialties anesthesiology and obstetrics This relationship is necessary not only to take care of the sick parturient but also to deliver a healthy baby New developments in obstetrics and in obstetric anesthesia necessitated this third edition Most of the

contributors to this edition are new and they have provided information on the latest approaches as well as updated information. In addition, Chapter 13 Critical Care Anesthesia for High Risk Parturients is completely new. Like earlier editions, the third edition includes contributions from an international team of experts in the field of obstetric anesthesia and obstetrics. I thank all the authors for their valuable contributions. The authors have expressed their own opinions and recommendations which do not necessarily reflect my own views. I also wish to thank Ms Elizabeth Kiernan for her endless help in completing the new edition. I sincerely hope this edition will further reinforce the concept of the team approach for taking care of the high risk parturient.
