Black Feminist Anthropology, 25th Anniversary Edition Irma

McClaurin, 2024-11-15 **Black Feminist Anthropology Theory Politics Praxis and Poetics** is a groundbreaking collection that centers the imaginative intellectual perspectives voices and experiences of Black American feminist anthropologists Twenty five years ago as the Foreword states this book dared to put three words together in the title Black Feminist Anthropology that have not always kept company with each other and in the minds of many both in and outside of the academy they should remain separate Standing the test of time it is still a bold reimagining of anthropology and all social sciences as inclusive and decolonized while establishing a new Black feminist anthropology canon that decades later is too often taken for granted as normative Black Feminist Anthropology is filled with a message of theoretical possibilities that anyone who enters its pages will find healing life saving and an affirmation that Black women anthropologists have contributed much to the theory politics praxis and poetics of anthropology gender and women s studies masculinity studies queer studies the social sciences generally and any other discipline that seeks transformation from the inside out It is both an archive and a legacy for the next generation

Black Feminist Anthropology Irma McClaurin, 2001 In the discipline s early days anthropologists by definition were assumed to be white and male Women and black scholars were relegated to the field s periphery From this marginal place white feminist anthropologists have successfully carved out an acknowledged intellectual space identified as feminist anthropology Unfortunately the works of black and non western feminist anthropologists are rarely cited and they have yet to be respected as significant shapers of the direction and transformation of feminist anthropology In this volume Irma McClaurin has collected for the first time essays that explore the role and contributions of black feminist anthropologists She has asked her contributors to disclose how their experiences as black women have influenced their anthropological practice in Africa the Caribbean and the United States and how anthropology has influenced their development as black feminists Every chapter is a unique journey that enables the reader to see how scholars are made The writers present material from their own fieldwork to demonstrate how these experiences were shaped by their identities Finally each essay suggests how the author s field experiences have influenced the theoretical and methodological choices she has made throughout her career Not since Diane Wolf s *Feminist Dilemmas in the Field* or Hortense Powdermaker s *Stranger and Friend* have we had such a breadth of women anthropologists discussing the critical and personal issues that emerge when doing ethnographic research
