Antiochos III and the Cities of Western Asia Minor John Ma,1999 **The Hellenistic Settlements in Syria, the Red Sea Basin, and North Africa** Getzel M. Cohen,2006-10-03 The Hellenistic Settlements in Syria the Red Sea Basin and North Africa will take its place as the first volume has already done as an indispensable resource for the study of Greek history The book will be a research tool of lasting value there is nothing remotely similar available to the student of urbanism in the ancient world The scholarship is of the highest quality thorough and current Kent Rigsby editor of Greek Roman and Byzantine Studies **The Oxford Handbook of Greek Cities in the Roman Empire** ,2024-11-13 This handbook provides the first comprehensive treatment of the Greek cities in the Roman Empire The poleis are studied here both as urban forms with a specific organization of space and specific public buildings and as socio political entities with specific institutions and social hierarchies The contributions cover all the important aspects of civic life and present the on going debates on the degree of integration and autonomy uniformization and diversity of the Greek civic model in the Roman Empire One of the main guidelines of the handbook is the issue of the impact of Roman rule on the long lasting Greek model of political social

and spatial organization Geographically the volume covers the whole Roman Empire with a focus on regions where the Greek polis was the dominant form of organization such as mainland Greece the Aegean Islands Asia Minor Syria and the Black Sea region In addition to that the Greek cities of Sicily and Egypt as well as more isolated Greek settlements such as Cyrene in North Africa are also considered The chronological scope of the handbook runs from a community's integration into the Roman Empire varying depending on the region until the 3rd c AD when the epigraphic documentation strongly decreases and some important changes make way for the transition to Late Antiquity

City and Empire in the Age of the Successors Ryan Boehm, 2021-11-02 In the chaotic decades after the death of Alexander the Great the world of the Greek city state became deeply embroiled in the political struggles and unrelenting violence of his successors' contest for supremacy As these presumptive rulers turned to the practical reality of administering the disparate territories under their control they increasingly developed new cities by merging smaller settlements into large urban agglomerations This practice of synoikism gave rise to many of the most important cities of the age initiated major shifts in patterns of settlement and consolidated numerous previously independent polities The result was the increasing transformation of the fragmented world of the small Greek polis into an urbanized network of cities Drawing on a wide array of archaeological epigraphic and textual evidence *City and Empire in the Age of the Successors* reinterprets the role of urbanization in the creation of the Hellenistic kingdoms and argues for the agency of local actors in the formation of these new imperial cities

The Seleukid Royal Economy G. G. Aperghis, 2004-12-23 The Seleukid empire the principal successor state of the empire of Alexander the Great endured for over 200 years and stretched at its peak from the Mediterranean to the borders of India This book provides a wide ranging study of the empire's economy and the methods used by the Seleukid kings to monetise and manage it so as to extract tribute rent and taxes as efficiently as possible It uses a variety of Greek literary sources and inscriptions cuneiform

texts archaeological numismatic and comparative evidence to explore in detail the manner of exploitation of their lands and subjects by the Seleukid kings their city building activity the financing of their armies and administration the use they made of coinage and their methods of financial management The book adopts a highly original numerical approach throughout which leads to a quantified model of the economy of an ancient state **A Companion to Ancient Thrace** Julia Valeva, Emil Nankov, Denver Graninger, 2020-01-29 A Companion to Ancient Thrace presents a series of essays that reveal the newly recognized complexity of the social and cultural phenomena of the peoples inhabiting the Balkan periphery of the Classical world Features a rich and detailed overview of Thracian history from the Early Iron Age to Late Antiquity Includes contributions from leading scholars in the archaeology art history and general history of Thrace Balances consideration of material evidence relating to Ancient Thrace with more traditional literary sources Integrates a study of Thrace within a broad context that includes the cultures of the eastern Mediterranean southwest Asia and southeast Europe Eurasia Reflects the impact of new theoretical approaches to economy ethnicity and cross cultural interaction and hybridity in Ancient Thrace

The Greco-Roman East Stephen Colvin, 2004-06-17 This collection of papers illustrates how our picture of the Greco Roman East has changed in recent decades The chapters by a distinguished international cast of contributors present a view of life in the Eastern Empire from the bottom up and show how a thoughtful use of both more recent and existing material evidence can shed light on aspects of social and political life that could barely be guessed at from the literary record alone The evidence of coins inscriptions and archaeological data is used in the investigation of wider socio historical issues including processes of Hellenization and acculturation the permeability and flexibility of political boundaries at all levels the interaction of civil and religious authority and the operation of networks of patronage and power from the highest to the lowest social level **'Noncanonical' Religious Texts in Early Judaism and Early Christianity** Lee Martin McDonald, James H. Charlesworth, 2012-04-05 Discusses ancient religious texts especially the so called non canonical texts by focusing on how they were used or functioned in Early Judaism and Early Christianity *Great Power Diplomacy in the Hellenistic World* John D Grainger, 2016-11-03 Diplomacy is a neglected aspect of Hellenistic history despite the fact that war and peace were the major preoccupations of the rulers of the kingdoms of the time It becomes clear that it is possible to discern a set of accepted practices which were generally followed by the kings from the time of Alexander to the approach of Rome The republican states were less bound by such practices and this applies above all to Rome and Carthage By concentrating on diplomatic institutions and processes therefore it is possible to gain a new insight into the relations between the kingdoms This study investigates the making and duration of peace treaties the purpose of so called marriage alliances the absence of summit meetings and looks in detail at the relations between states from a diplomatic point of view rather than only in terms of the wars they fought The system which had emerged as a result of the personal relationships between Alexander s successors continued in operation for at least two centuries The intervention of Rome brought in a new

great power which had no similar tradition and the Hellenistic system crumbled therefore under Roman pressure Greek History: Hellenistic: Oxford Bibliographies Online Research Guide Oxford University Press,2010-05-01 This ebook is a selective guide designed to help scholars and students of the ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In classics as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is just one of many articles from Oxford Bibliographies Online Classics a continuously updated and growing online resource designed to provide authoritative guidance through the scholarship and other materials relevant to the study of classics Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.aboutobo.com **Handbook of Ancient Afro-Eurasian Economies** Sitta von Reden,2021-12-20 The second volume of the Handbook describes different extractive economies in the world regions that have been outlined in the first volume A wide range of economic actors from kings and armies to cities and producers are discussed within different imperial settings as well as the tools which enabled and constrained economic outcomes A central focus are nodes of consumption that are visible in the archaeological and textual records of royal capitals cities religious centers and armies that were stationed in some cases permanently in imperial frontier zones Complementary to the multipolar concentrations of consumption are the fiscal tributary structures of the empires vis vis other institutions that had the capacity to extract mobilize and concentrate resources and wealth Larger volumes of state issued coinage in various metals show the new role of coinage in taxation local economic activities and social practices even where textual evidence is absent Given the overwhelming importance of agriculture the volume also analyses forms of agrarian development especially around cities and in imperial frontier zones Special consideration is given to road and water management systems for which there is now sufficient archaeological and documentary evidence to enable cross disciplinary comparative research *A Companion to the Hellenistic World* Andrew Erskine,2009-02-09 Covering the period from the death of Alexander the Great to the celebrated defeat of Antony and Cleopatra at the hands of Augustus this authoritative Companion explores the world that Alexander created but did not live to see Comprises 29 original essays by leading international scholars Essential reading for courses on Hellenistic history Combines narrative and thematic approaches to the period Draws on the very latest research Covers a broad range of topics spanning political religious social economic and cultural history **Jews in a**

The Greek Slogan of Freedom and Early Roman Politics in Greece Sviatoslav Dmitriev, 2011-03-24 This book elucidates the many uses of the slogan of freedom by ancient Greeks beginning with the Peloponnesian war and continuing throughout the Hellenistic period and shows in detail how the Romans appropriated and adjusted Greek political vocabulary and practices to establish the pax Romana over the Mediterranean world

Origins of the Colonnaded Streets in the Cities of the Roman East Ross Burns, 2017 The colonnaded axes define the visitor's experience of many of the great cities of the Roman East How did this extraordinarily bold tool of urban planning evolve The street instead of remaining a mundane passage a convenient means of passing from one place to another was in the course of little more than a century transformed in the Eastern provinces into a monumental landscape which could in one sweeping vision encompass the entire city The colonnaded axes became the touchstone by which cities competed for status in the Eastern Empire Though adopted as a sign of cities prosperity under the Pax Romana they were not particularly Roman in their origin Rather they reflected the inventiveness fertility of ideas and the dynamic role of civic patronage in the Eastern provinces in the first two centuries under Rome This study will concentrate on the convergence of ideas behind these great avenues examining over fifty sites in an attempt to work out the sequence in which ideas developed across a variety of regions from North Africa around to Asia Minor It will look at the phenomenon in the context of the consolidation of Roman rule
