The Root Tantra and The Explanatory Tantra from the Secret Quintessential Instructions on the Eight Branches of the Ambrosia Essence Tantra [Men-Tsee-Khang - བཞུགས་པའི་མཁའ་མཁའ་] Yuthok Yonten Gonpo, 2011-03-23

PREFACE The Tibetan medical system more popularly known as Sowa Rigpa Knowledge of Healing is undoubtedly as old as Tibetan civilization itself The earliest inhabitants of Tibet were confronted with a host of difficulties due to the way they had to live during those ancient times The only means of sustenance and survival was to rely on the various natural resources around them These early people gradually learned the uses and medical efficacy of natural resources The inherent discernment of these early people led them to discover natural remedies for various healthrelated problems Their innate urge to overcome physical discomfort combined with their curiosity about the world around them made them create some effective natural remedies for many common illnesses Drinking and sprinkling cold water against fever compressing cold stone on an inflamed swelling using heated oil to

stop bleeding drinking hot water for indigestion eating boiled foods rather than eating them raw these insights¹ and many others have proven their effectiveness and have continued to be of use even to this day The development of the Tibetan science of healing is based on the wisdom of such ancient medical practices The application of a medical remedy against poisoning² as pronounced by Tsiblhpa Karma Yolde to the first king of Tibet Nyatri Tsenpo circa 300 B C clearly demonstrates that the early inhabitants of Tibet had knowledge of the therapeutic value of herbs and minerals even during that time Medical knowledge continued to be passed on by means of various oral traditions and has kept alive the knowledge of numerous remedies over many centuries Before Buddhism and the present Tibetan script were introduced to Tibet the Bon religious and cultural traditions flourished in the region of Shang Shung in southwestern Tibet The legendary Bon master and cultural founder Tonpa Shenrab Miwoche was born in Purang Tibet at the time of the Lord Buddha The Bon master authored many important medical literatures such as Sojay Kyi Do Ghu Sorig Chegyud Daser Sojay Nadbum Nagpo³ Sojay Manbum Karp⁴ Sothab Chedbum Trawo⁵ and Tsawa Thukbum Khangon⁶ and he established the foundation for the development of the Bon medical tradition His eldest son Chebu Trishey learned the art of medicine from his father and later became a very important figure in the development of the Bon medical system At that time Bon religion and culture were at their height and shamanistic ways of healing were very popular throughout Tibet They undoubtedly influenced the existing Tibetan medical knowledge and practices The Gyueshi Four Tantras which is the fundamental text of Tibetan medicine contains mantras and the names of some medicinal substances compounds and diseases in the original Bon language This is a clear indication of the influence of Bon on Tibetan medicine We can therefore assume that there was knowledge and practices of medicine before the reign of King Lha Thothori Nyentsen and before the introduction of the present Tibetan script during the 7th century

The Secret Astrology of the Bible Michael Ledo, 2010-05-02 *The Secret Astrology of the Bible* by Michael Ledo is a landmark book that will change the way the scholarly community and the general public views the Bible history and myth Epic in scope this provocative book explores the connections between religious belief and cosmic theory even as it attempts to explain contradictions and irregularities in the text The Bible states Ledo was constructed as a living document with much of its text expanded as time went on If readers stripped away this added material they could actually be left with an Early Bronze Age text over a thousand years older than what is currently accepted by scholars This text suggests Ledo would be a veritable cosmic myth which follows the constellations with stories in a contiguous fashion that combine both history and myth Originally sold as *On Earth as it is in Heaven The Cosmic Roots of the Bible*

Unlocking the Ancient Secret of Life's Origins in the Cosmos Andrew Collins Author, 2011-05-02 It was a universal belief among ancient civilizations that life came originally from the cosmos and ultimately would return there after death The shamanic journey was always to this sky world and it appears that it was always located in the direction of the stars of Cygnus also known as the Northern Cross accessed either via the Milky Way or an imagined cosmic axis Andrew Collins demonstrates that this belief is based on an ancient astronomy around 17 000 years old All over the world standing stones temples and monuments are orientated towards the rising and setting of the stars of the Cygnus constellation or the entry point of the Milky Way Collins has discovered that the use of deep caves by palaeolithic man was essential to the rise of religious thought and the belief in life's stellar origins Science has now confirmed the existence of high energy particles in the caves particles that come from a binary star known as Cygnus X3 It would seem that these ancient people were aware of what science is now telling us that the DNA of life came originally from deep space [The Royal Secret](#) I. Clark, 2017-07-11 A fascinating book on Symbolism and Astrology of Freemasonry first published in 1923 Away back in 1887 when the city of Alpena was located in the heart of one of the lumber districts of Michigan Hopper Lodge U D now No 386 of that city was pleased to honor me with membership in due and ancient form In those days or at least in that Lodge there was no horseplay and I was so impressed with the work that I resolved to master all the lectures which I did The part which interested me the most was the one which I could learn the least about I would have sacrificed a five dollar note to learn why Pythagoras sacrificed a hecatomb and would have given as much to anyone who would explain the mystery surrounding the 47th Problem of Euclid as depicted on the lecture chart When inquiry failed me I made diligent search and finally discovered the KEY OF THE HOUSE OF DAVID through the knowledge of which I was enabled to penetrate the allegorical veil just as Pythagoras did five hundred years before the Christian era On the night of my initiation I was told that Freemasonry was founded on the Bible and all its secrets were hidden therein In my research work I discovered that the true secrets of

Freemasonry were written in the stars and the book of nature and a knowledge of astronomy and astrology was necessary to lift the allegorical veil Upon obtaining this knowledge I discovered that the Bible was founded upon the same law as Freemasonry i e the stars and the book of nature Author s Foreword **The Secret Societies of All Ages and Countries**
