Availability Joe McCown,2000-08-01 The Mystery of the Child Martin E. Marty,2007-04-23 Much of today's writing on children treats the child of any age as a problem or a set of problems to be solved effectively reducing the child to a complex of biological and chemical factors explainable in scientific terms or regarding children as objects of adult control In contrast Martin Marty here presents the child as a mystery who invokes wonder and elicits creative responses that affect the care provided him or her Drawing on literature as new as contemporary poetry and as old as the Bible The Mystery of the Child encourages the thoughtful enjoyment of children instead of the imposition of adult will and control Indeed Marty treats the impulse to control as a problem and highlights qualities associated with children responsiveness receptivity openness to wonder that can become sources of renewal for adults The Mystery of the Child represents a new tack for Martin Marty universally respected as a historian theologian and interpreter of religion and culture but displays the same incisive erudite quality marking the fifty plus books and thousands of articles that he has previously written Marty's broad thoughtful perspective will inspire readers to think afresh about what it means to be a child and to be a caregiver This book is sure to claim a wide readership parents grandparents schoolteachers theologians historians engaging anyone wanting to explore more fully the profound realm of the child Gabriel Marcel's Ethics of Hope Jill Graper Hernandez,2011-10-13 Aspects of Alterity Brian Treanor,2006 Every other is truly other but no other is wholly other This is the claim that Aspects of Alterity defends Taking up the question of otherness that so fascinates contemporary continental philosophy this book asks what it means for something or someone to be other than the self After a thorough assessment and critique of otherness in Levinas's and Marcel's work including a discussion of the relationship of ethical alterity to theological assumption Aspects of Alterity traces the transmission and development of these two conceptions of otherness Ultimately Aspects of Alterity makes a case for a hermeneutic account of otherness Jacket Living Theodrama Wesley Vander Lugt,2016-05-13 Living Theodrama is a fresh creative introduction to theological ethics Offering an imaginative approach through dialogue with theatrical theory and practice Vander Lugt demonstrates a new way to integrate actor oriented and action oriented approaches to Christian ethics within a comprehensive theodramatic model This model affirms that life is a drama performed in the company of God and others providing rich metaphors for relating theology to everyday formation and performance in this drama Different chapters explore the role of the triune God Scripture tradition the church mission and context in the process of formation and performance thus dealing separately with major themes in theological ethics while incorporating them within an overarching model This book contains not only a fruitful exchange between theological ethics and theatre but it also presents a promising method for interdisciplinary dialogue between theology and the arts that will be valuable for students and practitioners across many different fields Pastoral Care in Context John Patton,2005-01-01 An expert in the field of pastoral care John Patton demonstrates that pastoral care is a ministry of the church He focuses on the community of faith as an authorizer and

source of care and upon the relationship between the pastor and a caring community Patton identifies and compares three paradigms of pastoral care the classical the clinical pastoral and the communal contextual This third paradigm emphasizes the caring community and the various contexts for care rather than focusing on pastoral care as the work of the ordained pastor

Tragic Vision and Divine Compassion Wendy Farley,1990-01-01 Offering an alternative to classic Christian theodicies justification of God s goodness and omnipotence in view of the existence of evil Wendy Farley interprets the problem of evil and suffering within a tragic context advocating compassion to describe the power of God in the struggle against evil

Medicine and Hope: A Natural Theology of Human Caretaking Richard Sherlock,2024-09-12 This book expands in a modest way the discussion of hope and does so by focusing on a field where it is at the core of care taking medicine The three great religious virtues of medieval theology were faith hope and love An enormous literature exists about faith and love but much less exists about hope Doctors often know what they want to do for a patient but do not know whether they are able to have a good result If they fail will the result be worse They must hope they can succeed In other cases they know what they can do but they are uncertain whether they should If they do not undertake action will the patient try to do it themselves with a much worse result Questions such as these raise the issue of the importance of hope in medicine This book builds on an insight from the first modern textbook of medical ethics Thomas Percival s 1803 classic Medical Ethics There Percival says that the doctor is a minister of hope to the sick This book analyses this concept which is central to the practice of medicine

The Way of the Beloved Robert Arsdale,Diana Van Arsdale,2016-11-18 The foundation of the Way of the Beloved is discovered in the heart of love itself where there lives and moves a will to exaltation of the other To truly love another is to will the spiritual ideal upon that beloved one When there is a mutual intention to exalt infusing the daily life of a man and woman they enter into the Way of the Beloved This handbook is an attempt to put into book form what authors Robert and Diana Van Arsdale have been teaching to small groups of couples since 1976 Their workshops offer an ageless set of protocols for the transformation of the love relationship between a woman and a man into a path of spiritual development Here they present an integrated body of progressive experiential exercises and meditations that were taught originally taught by Herman Rednick Simply stated The Way of the Beloved teaches a couple how to actualize the potential of their relationship through the intensification of love and compassion Designed for couples in search of spiritual and emotional exploration this guide offers methods intended to help them realize a vision of love fulfilled

C. Berendzen, Gregory Hoskins, 2017-03-24 Writing in the late 1990s about the tendency of encyclopedists to designate existentialism a finished project Thomas W Busch cautions that such hasty periodization risks distorting our understanding of the contemporary philosophical scene and of depriving ourselves of vital resources for critiquing contemporary forms of oppression what Garbriel Marcel referred to as processes of dehumanization We should recall that

existentialism made possible present forms of Continental philosophy all of which assume the existentialist critique of dualism essentialism and totality in modern philosophy and we should acknowledge that existentialism remains capable of haunting today's scene as an important and relevant critic Offered in honor of Thomas W Busch after his more than fifty years of work in philosophy the essays in this volume attest to existentialism as a living project The essays are written by scholars who championed existentialism in America and by scholars who now seek to extend existentialist insights into new territory including into research in cognitive science The essays range from studies of key figures and texts to explorations of urgent topics such as the nature of freedom and the possibility of what Busch calls incorporation a sense of communicative solidarity that respects difference and disagreement *Healing the Wounds of Change* Anne M. Brady Reinsmith, 2012-10 At one time or another each of us must deal with the inner wounds left in the wake of life's changes transitions and losses These challenging experiences affect every part of who we are body mind and spirit In *Healing the Wounds of Change* Dr Brady Reinsmith provides a practical guide to helping us understand and heal our wounds of change She shares meaningful insights and suggestions that can help us move confidently forward toward personal and spiritual renewal and toward a more satisfying life She suggests that we begin with a deeper understanding of the significance of change of its many faces She then focuses on dealing with the stress of change on the relational nature of change the fears and anxieties it generates and its opportunities for holistic renewal *Healing the Wounds of Change* presents an inclusive approach to personal and spiritual renewal It includes relevant information from the disciplines of psychology philosophy neuroscience theology and spirituality and suggests ways that we can generate inner peace and joy for ourselves and for others Gabriel Marcel's Theory of Religious Experience Seymour Cain, 1995 This work presents an intensive illuminating and fascinating analysis and interpretation of Gabriel Marcel's basic thought on human existence and its ultimate religious meaning It focuses on Marcel's examination of religious experience as rooted in the human condition lived by beings who are basically incarnate in situation continually en route beset by tension contradiction and ambiguity It presents Marcel's masterly intuitive descriptive examination of such real life religious acts as hope fidelity and witness It pays full attention to Marcel's early *Metaphysical Journal* truly a basic work too often neglected in assaying this great neglected thinker Marcel along with Martin Buber is one of the founders of 20th century dialogical I-Thou philosophy **Beyond Theodicy** Sarah K. Pinnock, 2012-02-01 *Beyond Theodicy* analyzes the rising tide of objections to explanations and justifications for why God permits evil and suffering in the world In response to the Holocaust striking parallels have emerged between major Jewish and Christian thinkers centering on practical faith approaches that offer meaning within suffering Author Sarah K Pinnock focuses on Jewish thinkers Martin Buber and Ernst Bloch and Christian thinkers Gabriel Marcel and Johann Baptist Metz to present two diverse rejections of theodicy one existential represented by Buber and Marcel and one political represented by Bloch and Metz Pinnock interweaves the disciplines of philosophy of religion post-Holocaust thought and liberation theology to formulate a dynamic

vision of religious hope and resistance **Understanding Self-help/mutual Aid** Thomasina Borkman,1999 Self help groups have encountered fierce criticism as places where individuals join to share personal problems and to engage in therapeutic intervention without the aid of skilled professionals These groups have flourished since the 1970s and continue to serve more people than professional therapy Yet these groups have been criticized as fostering a culture of whiners and victims and not using professional help as needed Thomasina Jo Borkman debunks this commonly held assessment and also examines the reasons for these groups enduring popularity since the 1960s more people attend these meetings word than see professional therapists What accounts for their success and popularity Understanding Self Help Mutual Aid Groups is the first book to describe three stages of individual and group evolution that is part of this organization s very structure it also reconceptualizes participants interactions with professionals The group as a whole Borkman posits draws on the life experiences of its membes to foster nurturing support and transformation through a circle of sharing Groups create more positive and less stigmatizing meaning perspectives of the members problems than is available from professionals or lay folk culture **Wonder as a New Starting Point for Theological Anthropology** José Francisco Morales Torres,2023-04-04 In Wonder as a New Starting Point for Theological Anthropology Opened by the World Jos Francisco Morales Torres constructs a new theological anthropology that begins with wonder He contends that the visceral experience of wonder is an opening up of the human by an excess that saturates the world This opened by ness points to a transforming receptivity as the basis of the person and to an extravagant Generosity that grounds all creation Thus wonder which is grounded in generous Excess is not only a gift but a demand it calls for a liberative praxis that resist the forces that flatten the fullness of life into what is useful and profitable and that reduce the limitless worth of fellow humans to mere commodities to be exploited and exchanged at the altar of the idolatrous Market Wonder reveals a primordial receptivity in the human person which demands of us an ethic of sustainability that does not reduce the other to commodity a vulnerability that risks being opened by the other a commitment to solidarity and liberation that resist the forces of an insatiable idolatrous Market that seeks only to steal and kill and destroy Gabriel Marcel on Religious Knowledge Neil Gillman,1980 An earlier version of this study was presented to the Faculty of Philosophy at Columbia University in 1975 in partial fulfillment of the requirements for the degree of Doctor of Philosophy in the Department of Philosophy I have now revised and updated that work utilizing material by and about Marcel that has been published in the intervening years *Seeking Communion as Healing Dialogue* Margaret M. Mullan,2021-06-10 Seeking Communion as Healing Dialogue Gabriel Marcel s Philosophy for Today discusses society s problems with interpersonal communication arguing that these issues are more deeply rooted in problems in being Margaret M Mullan draws on the work of Gabriel Marcel to explore the meaning of body of being with and of being at all in today s world answering questions about why we are often unable to dialogue with the people around us why we feel disconnected and alone even in an increasingly technological world and how these changing technologies expose and sometimes

exacerbate our weak connections to others Engaging Marcel s reflective method and theory of communion Mullan explores how we seek communion amid technology and proposes that Marcel s reflections are generative contributions to the understanding and study of communication offering a way to seek healing dialogue in present day Scholars of communication philosophy conflict studies and media studies will find this book particularly useful **Toward a Fuller Human Identity** Pius Ojara,2006 This book is based on the thought of Gabriel Marcel and offers an introduction to the central categories of Marcel s thought focusing on his idea of existential humanism This study deals with the ambivalence of human existence and the concepts of being ego and bodiliness The author draws on examples from everyday life with a particular focus on African values and the recovery of the black self
