Continuity and Crisis in German Cinema, 1928-1936 Barbara Hales, Mihaela Petrescu, Valerie Weinstein, 2016. New essays examining the differences and commonalities between late Weimar era and early Nazi era German cinema against a backdrop of the crises of that time.

Barnstormers, Wing-Walking and Flying Circuses Peter C. Brown, 2022-04-21. While large numbers of aeroplanes had been produced in America for the war effort overseas at the Western Front, it was found that the British, French, and Germans were far ahead of them when it came to flight technology, which led to a huge surplus of aeroplanes in the United States. The government's solution to recover some of the money was to sell the surplus stock off for as little as 200 dollars each. With no licence being required to fly a plane, the offer attracted many ex-fighter pilots as well as civilians who developed a new American pastime known as barnstorming. Part entertainers, part thrill seekers, the barnstormers made their way across the country as solo acts and in groups called Flying Circuses. The American flier Ormer Locklear wowed the crowds by climbing out of his aeroplane and walking along the wing, and it wasn't long before flying circuses held less appeal for spectators if it didn't have a wing-walking act. Handstands, jumps across planes, and even the odd game of tennis were attempted by barnstormers to attract larger paying audiences. In 1936, the US Government banned wing walking under 1,500 ft, which doomed aerial stunting, and while a few wing-walking teams operated in the 1970s, it wasn't until barnstormer Vic Norman founded his famous AeroSuperBatics wing-walking team in the early 1980s that the sight of daredevils hand-standing and flying upside down on the wing was seen in Europe. Several teams around the world subsequently formed, using aeroplanes such as the Boeing Stearman or the Curtiss Jenny biplanes, to wow crowds as a part of regular air displays, and their appeal has continued to rise since the 2000s.

The Thrill Makers Jacob Smith, 2012-05. Starring human flies, daredevil aviators.

bridge jumpers and lion tamers *The Thrill Makers* is a great read as evocative as it is theoretically savvy and convincingly argued. Culling telling details from a host of long overlooked sources, Jacob Smith's account of sensational high risk public performance from the Victorian age to the 1930s unearths and illuminates the interwoven histories of public spectacle, masculinity, the motion picture industry, new forms of celebrity, and the expanding American metropolis. Greg Waller, Department of Communication and Culture, Indiana University, *The Thrill Makers* is an historical tour de force that illuminates the origins of risk taking performance in American entertainment and shows how its practitioners were gradually marginalized as invisible stunt doubles during the rise of the motion picture industry. Smith's analysis of the lion tamer, the human fly, and the airplane wing walker, as well as the many others who thrilled audiences before and during the advent of cinema, inspires us to reconsider the nature of media spectacle, masculinity, performance, celebrity, and labor at the turn of the last century. Impeccably researched, this book is a captivating read that re-frames the emergence of cinema in the context of its relationship to other forms of modern entertainment.

Barbara Klinger, author of *Beyond the Multiplex: Cinema, New Technologies, and the Home* *Focus On: 100 Most Popular New Line Cinema Films* Wikipedia contributors, **Hearings** United States Congress, House, Committee on Patents, 1926 **Film Study** Frank Manchel, 1990-10. The four volumes of *Film Study* include a fresh approach to each of the basic categories in the original edition. Volume one examines the film as film; volume two focuses on the thematic approach to film; volume three draws on the history of film; and volume four contains extensive appendices listing film distributors, sources, and historical information, as well as an index of authors, titles, and film personalities.
