Avicenne Lame Humaine:

Avicenne et l'âme humaine Meriem Sebti, 2000-03 La psychologie d'Avicenne tablit que l'homme est constitué de deux substances h t rog ne l me substance simple et spirituelle et le corps substance mat rielle et corruptible L me est un principe s par qui conf re l actualit au corps titre de perfection mais elle n est instaur e dans l existence que lorsqu un corps est dispos la recevoir Elle tire de cet attachement un b n fice en r alisant son accomplissement propre en partie gr ce aux donn es sensorielles transmises par le corps Cette doctrine conf re au corps un r le important dans la construction de l individualit de la personne et dans l acquisition de la science tout en affirmant l ind pendance de l me Cette double exigence g n re de nombreuses tensions le probl me de l unit de la personne et de son individualit la question de l acc s d une substance immat rielle au sensible l impossibilit pour l me d un retour complet sur soi Cet ouvrage analyse les efforts conceptuels labor s pour r souder ces difficult s et tente de saisir la signification de l exigence philosophique d Avicenne pour lequel l effort intellectuel est non seulement une th rapie de l me mais la voie m me du salut individuel Texte de couverture Que ce soit l tude du mouvement ou celle de la digestion l approche avicenne se caract rise par une attention soutenue aux ph nom nes physiologiques et l influence des tats mentaux sur le psychisme A cet gard sa r flexion sur l imagination est remarquable en ce qu elle met en oeuvre des donn es relevant de disciplines aussi diverses que la cosmologie la physiologie et la m decine pour rendre compte du mode de fonctionnement de l une des puissances les plus complexes de l homme Dans la perspective avicenne l attachement de l me au corps s il s agit d un tat naturel pour l me n en reste pas moins qu une tape dans son existence qui doit tre d pass e Il voit dans l effort intellectuel de l homme la condition de ce d passement L analyse de la doctrine de l me humaine permet de saisir la signification m me de l exigence philosophique d Avicenne pour lequel la pratique de la philosophie est non seulement une th rapie de l me mais la voie du Salut (@Poème d'Avicenne sur l'âme humaine.). School of Oriental and African Studies, 1969 **The Impulse of Freedom in Islam** John van Schaik, Christine Gruwez, 2013-12-01 The word Islam means surrender to God In our secular Western culture it is difficult to imagine what that means Among other things it indicates dependence and predestination But is this really the case Isn t this a superficial presumption Allah calls on human beings to surrender in freedom to their God Sura 96 Allah is merciful and forgiving At the same time however Allah is the all seeing one and the one who humbles In Islam free will and predestination have an uneasy relationship with each other but isn t this true for every religion In this collection of essays three authors discuss various aspects of the tension between freedom and predestination in Islam from the perspective of Rudolf Steiner s works This background enables them to throw sometimes surprising light on the freedom impulse of Islam It is the authors hope that this book may contribute to a more balanced view of Islam today This timely book

Jamīl Ṣalībā, 1926 Subject, Definition, Activity Tommaso Alpina, 2021-02-08 This book offers for the first time a comprehensive study of the reception and reworking of the Peripatetic theory of the soul in the Kitāb al Nafs Book of the Soul by Avicenna d 1037 This study seeks to frame Avicenna's science of the soul or psychology by focusing on three key concepts: subject, definition and activity The examination of these concepts will disclose the twofold consideration of the soul in Avicenna's psychology Besides the general approach to the soul of sublunary living beings which is the formal principle of the body Avicenna's psychology also exhibits a specific orientation towards the soul in itself i.e. the human rational soul that considered in isolation from the body is a self-subsistent substance identical with the theoretical intellect and capable of surviving severance from the body These two investigations demonstrate the coexistence in Avicenna's psychology of a more specific and less physical science: psychologia specialis within a more general and overall physical one: psychologia generalis

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
