Healing, Performance and Ceremony in the Writings of Three Early Modern Physicians: Hippolytus Guarinonius and the Brothers Felix and Thomas Platter M.A. Katritzky, 2016-12-05 While the writings of early modern medical practitioners habitually touch on performance and ceremony few illuminate them as clearly as the Protestant physicians Felix Platter and Thomas Platter the Younger who studied in Montpellier and practiced in their birth town of Basle or the Catholic physician Hippolytus Guarinonius who was born in Trent trained in Padua and practiced in Hall near Innsbruck During his student years and brilliant career as early modern Basle s most distinguished municipal court and academic physician Felix Platter built up a wide network of private religious and aristocratic patients His published medical treatises and private journal record his professional encounters with them as a healer They also offer numerous vivid accounts of theatrical events experienced by Platter as a scholar student and gifted semi professional musician and during his Grand Tour and long medical career Here Felix Platter s accounts many unavailable in translation are examined together with relevant extracts from the journals of his younger brother Thomas Platter and Guarinonius s medical and religious treatises Thomas Platter is known to Shakespeare scholars as the Swiss Grand Tourist who recorded a 1599 London performance of Julius Caesar and Guarinonius s descriptions of quack performances represent the earliest substantial written record of commedia dell arte lazzi or comic stage business These three physicians records of ceremony festival theatre and marketplace diversions are examined in detail with particular emphasis on the reactions of respectable medical practitioners to healing performers and the performance of healing Taken as a whole their writings contribute to our understanding of many aspects of European theatrical culture and its complex interfaces with early modern healthcare in carnival and other routine manifestations of the Christian festive year in the extraordinary performance and ceremony of court festivals and above all in the rarely welcomed intrusions of quacks and other itinerant performers *The Literature of Provence* Daniel Vitaglione, 2000-01-01 Annexed by France in 1481 Provence still retains its own distinct culture traditions and language While many primarily French authors like Emile Zola have dabbled in Provencal literature this book is dedicated to those whose lives and writing careers have been devoted to this temperate and beautiful land Included are analyses of the important literary contributions of groups or schools like the Troubadours and the Felibres poets like Frederic Mistral and Henri Bosco playwrights such as Marcel Pagnol novelists like Alphonse Daudet and more recent writers such as Marie Mauryon and Jean Claude Izzo Photographs of many of the authors illustrate the text which includes English translations of extracts so that even readers unfamiliar with the language of Provence can enjoy its literature This introduction is ideal both for those who have enjoyed the work of the featured authors before and for those who are yet to be exposed to the charms of Provencal [British Museum Catalogue of printed Books](#) ,1889 **Catalogue of Printed Books in the Library of the British Museum** British Museum. between the competing construction of a national French Petrarch and a local Avignonese or Provençal poet Taking Petrarch as its litmus test this book also asks probing questions about the bases of nationality identity and belonging Jennifer Rushworth is a Junior Research Fellow at St John's College Oxford

Completely revised and updated for this new edition Benedictow's acclaimed study remains the definitive account of the Black Death and its impact on history The first edition of *The Black Death* collected and analysed the many local studies on the disease published in a variety of languages and examined a range of scholarly papers The medical and epidemiological characteristics of the disease its geographical origin its spread across Asia Minor the Middle East North Africa and Europe and the mortality in the countries and regions for which there are satisfactory studies are clearly presented and thoroughly discussed The pattern pace and seasonality of spread revealed through close scrutiny of these studies exactly reflect current medical work and standard studies on the epidemiology of bubonic plague Benedictow's findings made it clear that the true mortality rate was far higher than had been previously thought In the light of those findings the discussion in the last part of the book showing the Black Death as a turning point in history takes on a new significance
