## **Avoid Fighting In The First Crusade:**

Avoid Fighting in the First Crusade! Fiona MacDonald, 2006 It is AD 1096 and you are a dashing young Christian knight about to travel thousands of miles to fight for your faith and defend the Holy Land The humorous cartoon style illustrations and the narrative approach encourages readers to get emotionally involved with the characters aiding the understanding of what life would have been like for a crusader Informative captions a complete glossary and an index make this title the ideal introduction to the conventions of non fiction texts for young readers It is an ideal text for shared and guided reading for Key Stage 2 pupils within the framework of the National Literacy Strategy

**War and Violence in the Western Sources for the First Crusade** Sini Kangas, 2024-05-27 Medieval Westerners accepted killing for religion and praised the outcome of the First Crusade 1096 1099 At the same time their attitude to violence was ambivalent Theologians shunned the practical use of force while the warrior aristocracy valued the capacity for physical destruction In the absence of theological doctrine on the practicalities of holy warfare the first crusaders draw their ideas about killing from diverse and sometimes conflicting traditions This book answers questions about how religious violence was described justified and remembered in the sources of the First Crusade What was the relation between faith convention and action

**Fighting Their Way; Or, The History of the Crusades** George Procter, 1876 *The First Crusade* Thomas Asbridge, 2012-01-26 A nuanced and sophisticated analysis Exhilarating Sunday Telegraph Nine hundred years ago one of the most controversial episodes in Christian history was initiated The Pope stated that in spite of the apparently pacifist message of the New Testament God actually wanted European knights to wage a fierce and bloody war against Islam and recapture Jerusalem Thus was the First Crusade born Focusing on the characters that drove this extraordinary campaign this fascinating period of history is recreated through awe inspiring and often barbaric tales of bold adventure while at the same time providing significant insights into early medieval society morality and mentality The First Crusade marked a watershed in relations between Islam and the West a conflict that set these two world religions on a course towards deep seated animosity and enduring enmity The chilling reverberations of this earth shattering clash still echo in the world today Asbridge balances persuasive analysis with a flair for conveying with dramatic power the crusaders plight Financial Times

**The Rise & Fall of the Mounted Knight** Clive Hart, 2023-01-05 The medieval mounted knight was a fearsome weapon of war captivating and horrifying in equal measure they are a continuing source of fascination They have been both held up as a paragon of chivalry whilst often being condemned as oppressive and violent Occupying a unique place in history knights on their warhorses are an enigma hidden behind their metal armor and seemingly unreachable on their steeds This book seeks to understand the world of the medieval knight by studying their origins their accomplishments and their eventual decline Forged in the death throes of the Roman Empire the mounted knight found a place in a harsh and dangerous world where their skills and mentality carved them into history From the First Crusade to the fields of Scotland knights could be found and their human side is examined to see how these men

to both rule Europe and ride into enduring legend The challenges facing the mounted knight were vast and deadly from increasingly professional and competent infantry forces to gunpowder the rise of political unity and the crunch of finance The factors which forced the knight into the past help to define who and what they were as well as the legacy that they have left indelibly imprinted on the world The standout feature of this book is the focus on the equine half of the partnership from an author who practices the arts of horsemanship on a daily basis including combat with sword and lance The psychology of the horse refined by the experience of actually training warhorses has helped the author to add to the body of academic work on the subject This insight opens up the world of the mounted knight and importantly and uniquely challenges the perception of what he and his horse could really do

**Warfare, Crusade and Conquest in the Middle Ages** John France, 2023-04-21 This volume brings together a series of articles by John France published over a span of more than forty years covering a number of aspects of the military and crusading history of the Middle Ages both in Europe and the Near East An interest in understanding how war worked and why informs a first group of articles ranging from Carolingian armies to the organisation of war in the 13th century The focus then turns to the Crusades the most ambitious conquests of the era with a set of studies on the First Crusade and others on the manner and conduct of warfare in the territories of the Latin East The volume also includes a major unpublished analysis co authored with Nicholas Morton of the problems faced by the local Islamic powers in the early Crusading period reminding us that an army is only as strong as its enemies permit and suggesting that the crusaders should be seen in this light

*A Chronology of the Crusades* Timothy Venning, Peter Frankopan, 2015-05-01 A Chronology of the Crusades provides a day by day development of the Crusading movement the Crusades and the states created by them through the medieval period Beginning in the run up to the First Crusade in 1095 to the fall of Constantinople in 1453 and ending with the Turkish attack on Belgrade in 1456 this reference is a comprehensive guide to the events of each Crusade concentrating on the Near East but also those Christian expeditions sanctioned by the Papacy as Crusades in the medieval era As well as clashes between Christians and Muslims in the Latin States Timothy Venning also chronicles the Albigensian Crusade clashes in Anatolia and the Balkans and the Reconquista in the Iberian Peninsula Both detailed and accessible this chronology draws together material from contemporary Latin Frankish Byzantine and Arab Muslim sources with assessment and explanation to produce a readable narrative which gives students an in depth overview

of one of the most enduringly fascinating periods in medieval history Including an introduction by Peter Frankopan which summarises and contextualises the period this book is an essential resource for students and academics alike **A/AS Level History for AQA The Age of the Crusades, c1071-1204 Student Book** Richard Kerridge,2015-10-29 A new series of bespoke full coverage resources developed for the AQA 2015 A AS Level History Written for the AQA A AS Level History specifications for first teaching from 2015 this print Student Book covers The Age of the Crusades c1071 1204 Breadth component Completely matched to the new AQA specification this full colour Student Book provides valuable background information to contextualise the period of study Supporting students in developing their critical thinking research and written communication skills it also encourages them to make links between different time periods topics and historical themes **The Two Cities: A History of Christian Politics** Andrew Willard Jones,2021-06-24 The prevailing narrative of human history given to us as children and reinforced constantly through our culture is the plot of progress As the narrative goes we progressed from tyranny to freedom from superstition to science from poverty to wealth from darkness to enlightenment This is modernity s origin myth Out of it a consensus has emerged part of human progress is the overcoming of religion in particular Christianity and that the world itself is fundamentally secular In The Two Cities A History of Christian Politics Andrew Willard Jones rewrites the political history of the West with a new plot a plot in which Christianity is true in which human history is Church history The Two Cities moves through the rise and fall of empires cycles of corruption and reform the rise and fall of Christendom the emergence of new political forms such as the modern state and new political ideologies such as liberalism and socialism through the horrible destruction of modern warfare and on to the plight of contemporary Christians These movements of history are all considered in light of their orientation toward or away from God The Two Cities advances a theory of Christian politics that is both an explanation of secular politics and a proposal for Christians seeking to navigate today s most urgent political questions Beat the Drum Slowly Robert Firth,2013-02 BEAT THE DRUM SLOWLY is the story of war parenthetically and unfortunately it is also unavoidably the story of man s history From our earliest days conflict has been the single most common characteristic of humanity Man has fought man and men have fought men on every continent every ocean and every island from the moment one set eyes on the other Be this xenophobia or be this a form of insanity is difficult to tell In any case the difference is lost amid the bombastic sounds of war The weapons themselves are of little consequence be they bare hands clubs knives swords spears arrows muskets machine guns or atomic bombs The end remains the same lives are lost like a sputtering candle guttering in the wind with darkness having the final word We can easily enough research each of the thousands of battles between one group on this sad earth and another Countries have fought countries and people people since before we began keeping count We don t need this book or any like it to recount the history of these terrible conflicts Beat The Drum Slowly instead delves into the underlying nature and motivations driving human kind toward war and murder We look beneath the facile explanations and histories

offered by conquerors the losers seldom get a say and attempt to peel away the layers of rationalization lies and hypocrisy The question is what is it in humanity compelling us to engage in wholesale murder of our fellow man Of course it does superficially seem to be a blood sport engaged in mostly by men Perhaps the culprit is testosterone Women don't seem to be driven to dress up in silly uniforms parade around to martial music and then run out screaming for blood do they From what we have observed this seems a valid point Those women who do go in for this kind of thing often have as much hair on their chins as the men they emulate Of course unless every country in the world placed women into every possible governmental position giving the female of the species complete and total power over everything we will never know Such is about as unlikely to happen as a vegan snarling up a bloody steak the world will have to wait until some time in the future to see how that would work out In the real world men are stronger than women and men are highly competitive and combative Men fight for power and never willingly give it up Seeing things in this light it is completely understandable as to why the world is governed by men Men fight for survival dominance money religion race patriotism real estate and revenge This book examines each of these motivating factors with the purpose being to explain to ourselves and our readers exactly what in holy hell is wrong with us If the best way we have devised over thousands of years to settle differences is warfare then it does seem that mankind is doomed Sooner or later one side or another will design and field the ultimate weapon and with our historical inability to foresee the future consequences of our actions it is entirely likely that we will have finally managed to destroy all human life Probably the animals and other creatures of the earth will be rejoice over this Is it at all possible that we can learn to settle our differences using our intellect and common sense or are we a doomed species This is the question we examine and try to answer in this book Regardless of the means one uses to bring death war is by man's hand whether driven by religion murder etc To study the countless wars throughout history trying to ascertain a cumulative total of deaths caused by war would take days weeks or even months Outside of war murder and other direct causes of death we are our own worst enemy With the ability to annihilate the earth with the press of a button man's potential to end the lives of

*The Battle Rhetoric of Crusade and Holy War, c. 1099-c. 1222* Connor Christopher Wilson, 2022-11-25 This book examines Latin narratives produced in the aftermath of the First Crusade and challenges the narrative of supposed brutality and amorality of warfare in this period instead focusing on the moral and didactic concerns surrounding warfare and violence with which medieval authors wrestled The battle oration a rousing harangue exhorting warriors to deeds of valour has been regarded as a significant aspect of warfare since the age of Xenophon and has continued to influence conceptions of campaigning and combat to the present day While its cultural and chronological pervasiveness attests to the power of this trope scholarly engagement with the literary phenomenon of the pre battle speech has been limited Moreover previous work on medieval battle rhetoric has only served to reinforce the supposed brutality and amorality of warfare in this period highlighting appeals to martial prowess a hatred for the enemy and promises of wealth and glory This book through an examination of Latin narratives produced in the aftermath of the First Crusade and the decades that followed challenges this understanding and illuminates the moral and didactic concerns surrounding warfare and violence with which medieval authors wrestled Furthermore while battle orations form a clear mechanism by which the fledgling crusading movement could be explored ideologically this comparative study reveals how non crusading warfare in this period was also being reconceptualised in light of changing ideas about just war authority and righteousness in Christian society This volume is perfect for researchers students and scholars alike interested in medieval history and military studies
