der 1. englischen Ausgabe wurde der Seitenumfang um 50 % auf nunmehr etwas über 1200 Druckseiten gesteigert. Das vorliegende Buch ist die erste zusammenfassende historische Gesamtdarstellung der Baustatik vom 16. Jahrhundert bis heute. Über die Reihe *edition Bautechnikgeschichte* Mit erstaunlicher Dynamik hat sich die Bautechnikgeschichte in den vergangenen Jahrzehnten zu einer höchst lebendigen international vernetzten und viel beachteten eigenständigen Disziplin entwickelt. Auch wenn die nationalen Forschungszugänge unterschiedliche Akzente setzen, eint sie doch das Bewusstsein, dass gerade die inhaltliche und methodische Vielfalt und das damit verbundene synthetische Potenzial die Stärke des neuen Forschungsfeldes ausmachen. Bautechnikgeschichte erschließt neue Formen des Verstehens von Bauen zwischen Ingenieurwesen und Architektur, zwischen Bau und Kunst, Technik und Wissenschaftsgeschichte. Mit der *edition Bautechnikgeschichte* erhält die neue Disziplin erstmals einen Ort für die Publikation.

Effects of Contaminants on Naiad Mollusks (Unionidae) Marian E. Havlik, Leif L. Marking, 1987. Although the uptake, storage, and elimination of contaminants by naiad mollusks has been studied, relatively little information is available on toxicity. Contaminants appear to have destroyed some populations directly by exerting toxic effects or indirectly by causing or contributing to the elimination of essential food organisms or host fish. Often two or more factors appear to work in combination to produce the total stress that adversely affects populations. Naiad mollusks are important indicators of contaminants in the environment; residues in soft tissue indicate recent or current exposure, and residues in shells indicate past exposure.

Hydrologic Reconnaissance of the Delta River and Its Drainage Basin, Alaska, 1971. A one-year reconnaissance study was made of a large braided glacial river and its drainage basin for which a minimum of hydrometric and meteorologic data existed. The report includes estimates of the water balance, flow duration curves, and sediment characteristics and descriptions of stream response to glacial melt and rain. Channel geometry and channel processes. Mean annual basin precipitation is estimated at 40.4 in, and mean annual loss of permanent glacial storage is about 1 in. About 30% of this leaves the basin as evapotranspiration, 50% as stream flow, and 20% as groundwater flow. Characteristics of response to glacial melt are outlined. Flow peaks near the mouth occur within 24 hours of rainfall greater than 0.5 in/day at foothill meteorological stations; rains of less than that amount do not generally produce discernible stream response. Stream channel geometry is described in detail. Most channels on the lower floodplain are asymmetrical and are roughly triangular or parabolic and have high width/depth ratios. At a station, hydraulic geometry is described. Surveys and ground and aerial photography are used to describe channel changes. Author.

few years From being a largely descriptive subject with a few under tones concerned with such things as fisheries pollution or control of blackflies it has evolved into a discipline with hypotheses such as the River Continuum Concept Vannote et al 1980 and even a book suggesting that it offers opportunity for the testing of ecological theory Barnes Minshall 1983 However perusal of the literature reveals that although some of the very early studies were concerned with large rivers references in Hynes 1970 the great mass of the work that has been done on running water has been on streams and small rivers and information on larger rivers is either on such limited topics as fisheries or plankton scattered among the journals or not available to the general limnologist The only exceptions are a few books in this series of publications such as those on the Nile Rz6ska 1976 the Volga Morduckai Boltovskoi 1979 and the Amazon Sioli 1984 and the recent compendium by Whitton 1984 on European rivers among which there are a few that rate as large *Proceedings RMRS.* ,2000 **Wilderness Science in a Time of Change Conference** ,2000 **Wilderness Science in a Time of Change Conference: Wilderness as a place for scientific inquiry** ,2000 **General Technical Report RMRS** ,1998 *Restoring western ranges and wildlands* ,2004 **Anthropologica** ,1998 *Restoring Western Ranges and Wildlands* Stephen B.
