The Ninth Siddhi Larry Vingelman,2012-07-10 Although the book was originally published in 2012 the book has been completely rewritten and republished in 2018 Also the book has been updated for recent scientific discoveries Can World Peace be obtained through a technology that supports an invincible force based on a transcendental source of energy Is humanity s world view approaching a paradigm shift of unprecedented proportions Are our concepts about reality and human nature about to bridge the gap between ancient wisdom and modern science The Ninth Siddhi Preparing for a technological Solution for World Peace illustrates and answers these questions Today violence is palpable around the world Unstable nuclear enabled regimes taunt and threaten large nation states with

annihilation Religious madmen kill and murder indiscriminately in the streets of Europe and North America In the United States school children armed with military weaponry kill and maim other school children for no apparent reason The Ninth Siddhi advocates for a new path to a nonviolent world A path without automatic weapons chemical bombs or nuclear missiles It is clear that gun laws sanctions diplomacy or the strongest political action will not bring peace to the world Reason will not prevail A new path is necessary that leads all loving families to a nonviolent world and a more peaceful ideology The technological solution for world peace is dependent on activating and inspiring world populations to walk this path together The new technology actualizes ancient wisdom from antiquity which states that when war suffering and terror grow an invincible force of nature moves to set man's vision right and establish a way of life living and loving that again will fulfill the high purpose of human existence
