Awakened One:

The Awakened One Sherab Chödzin Kohn, 2000-02-15 The story of the founder of Buddhism is one of the world's great archetypal tales of spiritual awakening. He was born Siddhartha Gautama in the sixth century BCE, the son of a prince who ruled a small kingdom in what is now Nepal. Siddhartha led a sheltered existence until the age of twenty-nine when he left his life of ease and set out to find a solution to the problem of suffering. For years he wandered as a homeless ascetic practicing severe austerities that brought him to the brink of death but no nearer to his goal. He then abandoned asceticism for a middle way. Sitting down under a tree, he vowed to remain there until he realized the truth. After a night of deep meditation, his Enlightenment came at dawn, and he was thereafter known as the Buddha, the Awakened One. **The Awakened One**

Gananath Obeyesekere, 2012-02-07 While a rational consciousness grasps many truths, Gananath Obeyesekere believes an even richer knowledge is possible through a bold confrontation with the stuff of visions and dreams. Spanning both Buddhist and European forms of visionary experience, he fearlessly pursues the symbolic, nonrational depths of such phenomena, reawakening the intuitive creative impulses that power greater understanding. Throughout his career, Obeyesekere has combined psychoanalysis and anthropology to illuminate the relationship between personal symbolism and religious experience. In this book, he begins with Buddha's visionary trances, wherein over the course of four hours he witnesses hundreds of thousands of his past births and eons of world evolution, renewal and disappearance. He then connects this fracturing of empirical and visionary time to the realm of space, considering the experience of a female Christian penitent who stares devotedly at a tiny crucifix only to see the space around it expand to mirror Christ's suffering. Obeyesekere follows the unconscious motivations underlying rapture, the fantastical consumption of Christ's body and blood, and body mutilation and levitation, bridging medieval Catholicism and the movements of early modern thought as reflected in William Blake's artistic visions and poetic dreams. He develops the term dream ego through a discussion of visionary journeys, Carl Jung's and Sigmund Freud's scientific dreaming, and the cosmic and erotic dream visions of New Age virtuosos, and he defines the parameters of a visionary mode of knowledge that provides a more elastic understanding of truth. A career culminating work, this volume translates the epistemology of Hindu and Buddhist thinkers for western audiences while

Buddhavacana and Dei Verbum Michael Fuss, 1991

Challenged by the teaching of Vatican II about the seeds of the Word in non-Christian religions, this book investigates the sacred character of the Saddharmapūṣṭika Sūtra and its relation to the fundamental theological category of scriptural inspiration. In applying the methods of modern exegesis, the Sūtra in its ingenious composition is disclosed as a religious drama about the inspirational experience of the Buddha. The draft of a theology of inspiration along the guide lines of the Dogmatic Constitution Dei Verbum of Vatican II elaborates a christology of the Word as its core which allows an extension of inspiration in an analogical manner to non-Biblical scriptures. The contrast of Christ the Word incarnate and Buddha the Inspired One offers a new contribution to an inter-religious dialogue.
