Souls of Distortion Awakening J. Wicherink, 2006-02-17 This book reunites science and spirituality after her roads separated 300 years ago More and more scientists are discovering that both disciplines are only two sides of the same coin We are on the verge of a major paradigm change in science where the immaterial subjective world of the mind can no longer be separated from the objective material world This leap in human consciousness was already foreseen by the ancients and American indigenous people like the Maya Hopi and Aztecs who prophesized that this transformation of consciousness would take place in our time This book takes you on a journey from the ancient wisdom to the most modern scientific insights and demonstrates how both can be united **Edgar Cayce on Angels, Archangels and the Unseen Forces** Robert J. Grant, 2005-06 The next step for those who want to discover angels in their lives this book goes beyond angelic appearances to a keen new awareness of how angels influence world evolution and one's own personal psyche You will explore new research on angels roles in personal and planetary karma the angelic hierarchy the origin and destiny of Christ archangels and fallen angels and the meaning of angels in the Revelation **Science Awakening I** B. L. Van Der Waerden, 2012-12-06 Soon after the publication of my *Ontwakende Wetenschap* the need for an English translation was felt We were very glad to find a translator fully familiar with the English and Dutch languages and with mathematical terminology The publisher Noordhoff had the splendid idea to ask H G Beyen professor of archeology for his help in choosing a nice set of illustrations It was a difficult task The illustrations had to be both instructive and attractive and they had to illustrate the history of science as well as the general background of ancient civilization The publisher encouraged us to find better and still better illustrations and he ordered photographs from all over the world with never failing energy and enthusiasm Mr Beyen's highly instructive subscripts will help the reader to see the inter relation between way of living art and science of the ancient world Thanks are due to many correspondents who have suggested additions and pointed out errors Sections on Astrolabes and Stereographic Projection and on Archimedes construction of the heptagon have been added The sections on Perspective and on the Anaphorai of Hypsicles have been enlarged In the second English edition I have incorporated an important discovery of P Huber which sheds new light upon the role of geometry In Babylonian algebra see p 73 The section on Heron's Metrics see p 277 was written anew following a suggestion of E M Bruins Zurich 1961 B L *The Magdalene Awakening* L. Shannon Andersen, 2006 This book is the result of a deep and profound quest for origins meaning and healing written at a time when the human condition appears more fractured from within than at any other time in history In writing *The Magdalene Awakening* Shannon Anderson has successfully journeyed to that sacred space and has lifted the veil for her readers revealing the atrium of immortality and enticing them to come and join her on her high mission The smooth narrative style of the book weaves together a magical journey through the author's quest for the true Magdalene energy the origins of the Cathars the Gematria that holds the sacred key and in the end a call for transformation This story is a page turner
