Fragments Sophocles,1969 Found in Translation J. Michael Walton,2006-07-06 In considering the practice and theory of translating Classical Greek plays into English from a theatrical perspective Found in Translation first published in 2006 also addresses the wider issues of transferring any piece of theatre from a source into a target language The history of translating classical tragedy and comedy here fully investigated demonstrates how through the ages translators have wittingly or unwittingly appropriated Greek plays and made them reflect socio political concerns of their own era Chapters are devoted to topics including verse and prose mask and non verbal language stage directions and subtext and translating the comic Among the plays discussed as case studies are Aeschylus Agamemnon Sophocles Oedipus Tyrannus and Euripides Medea and Alcestis The book concludes with a consideration of the boundaries between translation and adaptation followed by an appendix of every translation of Greek tragedy and comedy into English from the 1550s to the present day **A Classified Catalogue of School, College ... and General Educational Works in use in the United Kingdom and its dependencies in 1876, etc** ,1876 **A Classified Catalogue of School, College, Classical, Technical, and General Educational Works in Use in the United Kingdom and Its Dependencies in 1876** ,1876 A classified catalogue of ... education works in use in the United Kingdom and its dependencies United Kingdom,1876 **Tragic Rites** Adriana E. experience of womanhood lived by real women in order to embody the patriarchal values of Athenian democracy Whether praised for their passivity or demonized for showing unnatural agency and subjectivity women in Greek tragedy were conceived to re assert the supremacy of men Carr s theatre stands in stark opposition to such a purpose Focusing on women s struggle to achieve agency and subjectivity in a male dominated world her plays show the diversity of experiencing womanhood and sexist oppression in the Republic of Ireland and the Western societies more generally Yet Carr s enduring conversation with the classics in her theatre demonstrates the feminist willingness to alter the founding myths of Western civilisation to advocate for gender equality The Athenaeum ,1882 Athenaeum and Literary Chronicle ,1866

Higher Education in Constantinople in the Fifteenth Century Elias Petrou,2025-11-03 Higher Education in Constantinople in the Fifteenth Century explores the intellectual life and educational institutions of fifteenth century Constantinople a period often overlooked in the history of Byzantine scholarship While the twilight of the empire is frequently associated with decline this book demonstrates that it was in fact a time of vibrant intellectual activity laying crucial groundwork for the Renaissance in the West Drawing on a wide array of primary sources including manuscripts codices letters and treatises this book reconstructs the networks of teachers and students the transmission of Classical Greek texts and the methods of instruction that defined higher education in late Byzantium It presents the cultural landscape of the final Byzantine century as a dynamic space of learning where Classical heritage was not merely preserved but reinterpreted and reactivated in a world on the brink of transformation This volume will appeal to scholars of Byzantine Medieval and Classical Studies as well as historians of education and intellectual history Its interdisciplinary approach offers fresh insights to paleographers codicologists and special collections professionals while its broader narrative speaks to anyone interested in the pivotal cultural exchanges between East and West that helped shape modern Europe This is the first comprehensive account of Byzantine higher education during this era illuminating a missing link in the story of the Renaissance and the survival of Hellenic knowledge P.Beatty III (P47): The Codex, Its Scribe, and Its Text Peter Malik,2017-05-01 Since ancient works were preserved by means of handwritten copies critical enquiry into their texts necessitates the study of such copies In P Beatty III P47 The Codex Its Scribe and Its Text Peter Malik focuses on the earliest extensive copy of the Book of Revelation Integrating matters of palaeography codicology and scribal practice with textual analysis Malik sheds new light on this largely neglected yet crucially important early Christian papyrus Notable contributions include a new proposed date for P47 identification of several previously unreported scribal corrections as well as the discovery of the manuscript s close affinity with the Sahidic version Significantly Malik s detailed data rich analyses are accompanied by a fresh transcription and for the first time high resolution colour photographs of the manuscript *The Athenaeum* John Aikin,1808
