respect in fact cosmopolitanism is affected by mutual phobias between migrants and their host cultures These phobias stem from ethno racism Islamophobia classicism clannism xenophobia and mutual superiority and inferiority complexes In building this analysis the book considers key texts from Ayaan Hirsi Yasmeeen Maxamuud Jonny Steinberg Nuruddin Farah and Santur Ghedi with settings that range from North America Canada Norway Holland Germany South Africa Saudi Arabia to East Africa Considering literature on the Somali diaspora within the context of major cosmopolitan theories and postcolonial inflexions this book is an important contribution to contemporary sociopolitical conversations and will be of interest to researchers across literary and cultural studies
