National Union Catalog, 1982 ,1983 **American Newspaper Comics** Allan Holtz,2012 The most comprehensive guide to U S newspaper comics ever published **The Books of Moses Revisited** Paul J. N. Lawrence,2011-09-14 Who wrote the first five books of the Bible Does it really matter who did The Books of Moses Revisited explores this question by comparing the covenants of Exodus Leviticus and Deuteronomy with the inter state treaties of the late second millennium BC Some compelling similarities come to light both in the pattern adopted and in many small details Lawrence clearly demonstrates this with many examples and diagrams yet without assuming that readers possess a detailed knowledge of ancient history and linguistics Despite the entrenchment of the widely held theory the so called Documentary Hypothesis that the first five books of the Bible were the product of an anonymous editor living many centuries after Moses this book argues that the first five books of the Bible bear many hallmarks of being late second millennium BC compositions and that Moses

should not be ruled out as being the author The book also explores how several ancient texts the Egyptian Story of Sinuhe the Mesopotamian Epic of Gilgamesh and Homer s Iliad and Odyssey were transmitted in antiquity and suggests that a similar process also lies behind the transmission of the first five books of the Bible **Subject Guide to Books in Print** ,1997 Bookseller and the Stationery Trades' Journal ,1978 **Writing Around the Ancient Mediterranean** Philippa M. Steele,Philip J. Boyes,2022-10-06 Writing in the ancient Mediterranean existed against a backdrop of very high levels of interaction and contact In the societies around its shores writing was a dynamic practice that could serve many purposes from a tool used by elites to control resources and establish their power bases to a symbol of local identity and a means of conveying complex information and ideas This volume presents a group of papers by members of the Contexts of and Relations between Early Writing Systems CREWS research team and visiting fellows offering a range of different perspectives and approaches to problems of writing in the ancient Mediterranean They focus on practices viewing writing as something that people do within a wider social and cultural context and on adaptations considering the ways in which writing changed and was changed by the people using it *British Books in Print* ,1979
