The rigorous academic framework for the field of sustainable business required to respond to this need is now emerging. This book presents important new work in the theory of the sustainable firm in the application of sustainability principles to key management disciplines in sustainable business in practice and in the international challenges that are critical to sustainability demands. Renewable Fuels Agency 2008/09 annual report to Parliament on the renewable transport fuel obligation Renewable Fuels Agency, 2010-01-28 In 2008/09 the first year of operation the Renewable Transport Fuel Obligation (RTFO) met its objective of driving a market for biofuels in the UK. 2.7% of the UK's total road transport fuel supply was biofuel which was slightly over the Government's target of 2.5% and is more than twice the supply of biofuel in 2007/08. No obligated suppliers had to buy out of their obligations. The performance of suppliers in sourcing sustainable fuels was polarised. Whilst several companies met all three of the Government sourcing targets with fully verified data a number also performed poorly. Overall a significant improvement will be required to meet the challenges of the forthcoming EU Renewable Energy Directive. In 2008/09 there was also a 46% carbon saving against the Government target of 40%. The biofuels market has not as yet had a large impact on agriculture in the UK and although an effective driver of the market for biofuel the RTFO did not during 2008/09 drive increases in the biofuel production capacity in the UK

Social Audit Regulation Mia Mahmudur Rahim, Samuel O. Idowu, 2015-05-11 This book takes the concept of social audit and lifts it beyond the role of functioning largely as a management tool. The book proposes a system in which social audit is regulated so as to provide a mechanism for effectively promoting corporate accountability in society. Taking this as its theme this book provides both a conceptual explanation of the developmental perspectives of social audit regulation and empirical evidence of the impact of social audit practice from different parts of the world. It is the first book to
