Emotional Amoral Egoism Nayef R.F. Al-Rodhan, 2022-01-01. What makes us who we are? Are we born good or evil? Do we have free will? What drives our behaviour and why? Can technology change what it means to be human? In this thoroughly revised second edition of Emotional Amoral Egoism, Professor Nayef Al-Rodhan demonstrates the impact of our innate predispositions on key issues from conflict, inequality, and transcultural understanding to Big Data, fake news, and the social contract. However, it is the societies we live in and their governance structures that largely determine how we act on our innate predispositions. Consequently, Al-Rodhan proposes a new and sustainable good governance paradigm which must reconcile the ever-present tension between the three attributes of human nature: Emotional Amoral Egoism and the nine critical needs of human dignity. This book is a perfect resource for enlightened readers, academics, and policy makers interested in how our innate instincts and tendencies shape the world we live in and how the interplay between neurophilosophy and policy can be harnessed for pragmatic and sustainable peace, security, and prosperity solutions for all at all times and under all circumstances.
