The Facilitating University Adrianus Hendrikus Wilhelmus van der Zanden, 2009

Self-Efficacy in Instructional Technology Contexts Charles B. Hodges, 2018-10-24

This edited volume contains reports of current research and literature reviews of research involving self-efficacy in various instructional technology contexts. The chapters represent international perspectives across the broad areas of K-12 education, higher education, teacher self-efficacy, and learner self-efficacy to capture a diverse cross-section of research on these topics. The book includes reviews of existing literature and reports of new research, thus creating a comprehensive resource for researchers and designers interested in this general topic. The book is especially relevant to students and researchers in educational technology, instructional technology, instructional design, learning sciences, and educational psychology.

Control and Monitoring with Flowol2 Phill Evans, 2003

This book introduces pupils to computer control using Flowol2, which provides a cost-effective way of teaching control in a simulated on-screen environment without the need for additional hardware.

Computing and ICT in the Primary School Gary Beauchamp, 2016-09-13

Now fully updated to reflect recent changes in the curriculum, *Computing and ICT in the Primary School* encourages teachers and pupils to realise the potential of a full range of ICT and computing resources. Tackling computing head-on, this book enables trainee and experienced teachers to better understand what computing is and how to use ICT effectively in teaching and learning. It is not a how-to guide or a collection of lesson plans, but instead balances research-based theory with everyday experiences, challenging readers to understand teaching methods and how they translate into a range of suitable teaching and learning strategies using ICT. This book offers primary teachers the knowledge, skills, and confidence to plan, teach, and assess creatively to enhance learning across the whole curriculum. This second edition includes updates of all chapters and completely new chapters on mobile technologies, social media, and modern foreign languages. Gary Beauchamp places theory and practice hand-in-hand, providing a uniquely relatable resource based on his own teaching practice, classroom experience, and research. This text is crucial reading for both serving teachers and those in training on undergraduate and PGCE courses, Education Studies courses, and MA Ed programmes.
