

13th World Conference On Computer Security Audit And Control

Arthur James Wells

13th World Conference On Computer Security Audit And Control:

Computer Security John S. Potts, 2002 We live in a wired society with computers containing and passing around vital information on both personal and public matters Keeping this data safe is of paramount concern to all Yet not a day seems able to pass without some new threat to our computers Unfortunately the march of technology has given us the benefits of computers and electronic tools while also opening us to unforeseen dangers Identity theft electronic spying and the like are now standard worries In the effort to defend both personal privacy and crucial databases computer security has become a key industry A vast array of companies devoted to defending computers from hackers and viruses have cropped up Research and academic institutions devote a considerable amount of time and effort to the study of information systems and computer security Anyone with access to a computer needs to be aware of the developing trends and growth of computer security To that end this book presents a comprehensive and carefully selected bibliography of the literature most relevant to understanding computer security Following the bibliography section continued access is provided via author title and subject indexes With such a format this book serves as an important guide and reference tool in the defence of our computerised culture

13th National Computer Security Conference ,1990 *13th National Computer Security Conference* ,1990

ECCWS2014-Proceedings of the 13th European Conference on Cyber warefare and Security Andrew Liaropoulos, George Tsihrintzis, 2014-03-07 *Index of Conference Proceedings* British Library.
