Fiddling Is My Joy Jacqueline Cogdell DjeDje, 2025-06-18 In *Fiddling Is My Joy* Jacqueline Cogdell DjeDje examines the history of fiddling among African Americans from the seventeenth to the mid twentieth century Although music historians acknowledge a prominent African American fiddle tradition during the era of slavery only recently have researchers begun to closely examine the history and social implications of these musical practices Research on African music reveals a highly developed tradition in West Africa which dates to the eleventh or twelfth century and continues today From these West African roots fiddling was prominent in many African American communities between the seventeenth and nineteenth centuries and the fiddle became an important instrument in early twentieth century blues jazz and jug bands While less common in late twentieth century African American jazz and popular music groups the fiddle remained integral to the musicking of some Black musicians in the rural South Featured in *Fiddling Is My Joy* is access to a comprehensive online eScholarship Companion that contains maps photographs audiovisual examples and other materials to expand the work of this enlightening and significant study To understand the immense history of fiddling DjeDje uses geography to weave together a common thread by profiling the lives and contributions of Black fiddlers in various parts of the rural South and Midwest including the mountains and along the Atlantic and Gulf coasts In addition to exploring the extent that musical characteristics and aesthetics identified with African and European cultures were maintained or reinterpreted in Black fiddling she also investigates how the sharing of musical ideas between Black and white fiddlers affected the development of both traditions Most importantly she considers the contradiction in representation Historical evidence suggests that the fiddle may be one of the oldest uninterrupted instrumental traditions in African American culture yet most people in the United States including African Americans do not identify it with Black music

Popular Chinese Literature and Performing Arts in the People's Republic of China, 1949-1979 Bonnie S.

McDougall, 2024-06-21 The essays in this volume constitute an exceptionally broad and inclusive account of Chinese literature and performing arts since 1949 Extending beyond fiction to poetry and drama and covering song opera and film as well these essays reveal a more lively and varied cultural life than that disclosed by studies confined to fiction and literary politics Rather than stopping at the assumption that art reflects Party or government policy the essays uncover the traditional roots of popular literature and performing art by employing literary and artistic methods of analysis While often lacking in appeal to Western audiences these popular arts nonetheless have their own artistic validity and convey complex meanings to broadly based Chinese audiences The materials and analyses presented here have social as well as cultural relevance Variety and change rather than monolithic uniformity have characterized post 1949 cultural bureaucracies writers performers and audiences This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1984

Reminded by the Instruments You Nakai, Yu Nakai, 2021

David Tudor is remembered today as an extraordinary pianist of post war avant garde music who worked closely with composers like John Cage and Karlheinz Stockhausen and as a founding figure of live electronic music His bold reinterpretation of Cage's Variations II and his idiosyncratic performances using homemade modular instruments inspired a whole generation of musicians But his reticence his unorthodox approaches and the diversity of his creative output which began with the organ and ended with visual art have kept Tudor a puzzle Reminded by the Instruments sets out to solve the puzzle of David Tudor by applying Tudor's own methods for approaching the materials of others to the vast archive of materials that he himself left behind Author You Nakai deftly patches together instruments electronic circuits sketches diagrams recordings letters receipts customs declaration forms and testimonies like modular pieces of a giant puzzle to reveal a new perspective on Tudor's creative process Rejecting the established narrative of Tudor as a performer turned composer this book presents a lively portrait of an artist whose work always merged both of these roles In reading Tudor's electronic devices as musicological texts and examining his dissection of electronic circuits Nakai transcends discourses on sound and illuminates our understanding of the instruments behind the sounds in post war experimental music

Wired for Sound Paul D. Greene, Thomas Porcello, 2012-01-01 Winner of the Society for Ethnomusicology's Klaus Wachsmann Award 2006 Wired for Sound is the first anthology to address the role of sound engineering technologies in the shaping of contemporary global music Wired sound is at the basis of digital audio editing multi track recording and other studio practices that have powerfully impacted the world's music Distinctions between musicians and engineers increasingly blur making it possible for people around the globe to imagine new sounds and construct new musical aesthetics This collection of

11 essays employs primarily ethnographical but also historical and psychological approaches to examine a range of new technology intensive musics and musical practices such as fusions of Indian film song rhythms heavy metal and gamelan in Jakarta urban Nepali pop which juxtaposes heavy metal Tibetan Buddhist ritual chant rap and Himalayan folksongs collaborations between Australian aboriginals and sound engineers the production of heaviness in heavy metal music and the production of the Austin sound This anthology is must reading for anyone interested in the global character of contemporary music technology CONTRIBUTORS Harris M Berger Beverley Diamond Cornelia Fales Ingemar Grandin Louise Meintjes Frederick J Moehn Karl Neunfeldt Timothy D Taylor Jeremy Wallach Embodied Knowledge in Ensemble Performance J.Murphy McCaleb,2017-07-05 Performing in musical ensembles provides a remarkable opportunity for interaction between people When playing a piece of music together musicians contribute to the creation of an artistic work that is shaped through their individual performances However even though ensembles are a large part of musical activity questions remain as to how they function In Embodied Knowledge in Ensemble Performance Murphy McCaleb explores the processes by which musicians interact with each other through performance McCaleb begins by breaking down current models of ensemble interaction particularly those that rely on the same kind of communication found in conversation In order to find a new way of describing this interaction McCaleb considers the nature of the information being shared between musicians during performance Using examples from postgraduate ensembles at Birmingham Conservatoire as well as his own reflective practice he examines how an understanding of the relationship between musicians and their instruments may affect the way performers infer information within an ensemble Drawing upon research from musicology occupational psychology and philosophy and including downloadable resources of excerpts from rehearsals and performances Embodied Knowledge provides an holistic approach to ensemble research in a manner accessible to performers researchers and teachers
