1956. Counter-revolution in Hungary ,1986 Fabricating Authenticity in Soviet Hungary Péter Apor,2015-03-01

This book explores the memory of the First Hungarian Soviet Republic of 1919 which proved crucial for communist Hungarian political culture in the twentieth century Apor approaches the topic in an innovative way focusing on the understudied aspects of European memory cultures Offering great insights on how a dictatorship remembers and the concept of authenticity Apor s study integrates the broad range of processes through which history is sought to be rendered authentic The volume successfully reveals the crooked history of the retrospective revisions of the iconic First Republic between the years of its 30th and 40th anniversary 1949 and 1959 **Revolutionary World** David Motadel,2021-03-25 The first truly global history of revolutions and revolutionary waves in the modern age from Atlantic Revolutions to Arab Spring

International Law and the Use of Armed Force Joel Westra,2007-04-11 Since the UN Charter came into effect in 1945 there have been numerous incidents in which one or more of the five major powers at least arguably violated the Charter s Article 2 4 prohibition of force Such incidents notwithstanding this book demonstrates how the Charter restrains the major powers military actions As an instrument of international order the Charter provides a framework of legal rules restricting the use of armed force Although these rules are subject to auto interpretation by the major powers as a consequence of their veto they create an expectation of compliance that subjects the major powers military actions to international scrutiny To reduce the likelihood of resistance from states threatened by such actions major powers exercise prudential restraint altering the manner and timing of their military actions in accordance with the legal arguments offered to justify those actions as consistent with the Charter and therefore not threatening to the existing international order The book evaluates the efficacy of the Charter using large N methods and five case studies US intervention in the Caribbean 1953 61 Anglo French intervention in Egypt 1956 Soviet intervention in Hungary 1956 US British intervention in Iraq 1990 98 and US British intervention in Iraq 1999 2003 The book s extensive focus on the two Iraq cases provides a basis for timely evaluation of the continuing salience and possible reforms of the UN Charter system This book will be of much interest to students of security studies the UN international law and international relations Cultural Studies Lawrence Grossberg,Cary Nelson,Paula Treichler,2013-02-01 Featuring new essays by such prominent cultural theorists as Tony Bennett Homi Bhabha Donna Haraway bell hooks Constance Penley Janice Radway Andrew Ross and Cornel West Cultural Studies offers numerous specific cultural analyses while simultaneously defining and debating the common body of assumptions questions and concerns that have helped create the field **Political History of Russia** ,1994 **Imre Nagy, Martyr of the Nation** Karl P. influenced political socialization in Hungary The book begins with Nagy's 1989 funeral and the role memorialization played in the politics of transition continuing with a review of the important personages and events that informed Nagy's life and afterlife and it concludes in the tumultuous politics following the establishment of the Republic in 1989 Readers interested in Central and Eastern Europe will find this book useful as it expands the literature on history and memory and transition politics in the region *Political History and Culture of Russia*, 1998 Scholarly articles dealing with political events in Russia up to 1991

Challenging Communism in Eastern Europe Terry Cox, 2013-09-13 Marking the 50th anniversary of events in 1956 that were a major turning point in the history of communist ruled Eastern Europe this book contains a selection of some of the most recent research on those momentous events and their memory and legacy The book contains edited contributions from historians and social scientists from Hungary Poland the UK and the USA Their contributions are the fruit of research which has only been possible since 1989 In the years since the fall of the communist regimes the state archives have been opened to researchers and it has been possible to collect the testimony of eye witnesses without fear of repression and censorship The outcome of 1956 led to Poland embarking on its own distinctive version of communist rule Meanwhile 1956 in Hungary saw the first society wide attempt to overthrow a ruling communist regime only to be put down by Soviet military intervention In both countries the events of 1956 had lasting repercussions for society and its relationship with the communist regime In retrospect they can be seen as paving the way for the eventual fall of the communist regimes in East Central Europe in 1989 *Hungarian Studies*, 1993

Revising History in Communist Europe David A.J. Reynolds, 2020-01-31 Those who define the past control the present Revising History in Communist Europe shows how the manipulation of history both empowered and

weakened the communist regimes of post World War Two Europe It demonstrates how seismic events of the recent past reverberate in the understandings of the present determining perceptions and decisions With fresh analysis on the imposed communist definition of Hungary s 1956 uprising and its effects on the definition of the Prague Spring this study will give readers a timely and penetrating insight into both landmark events **KGB** Peter Deriabin,Tennent H. Bagley,1990 Mikhail Gorbachev was hailed as the herald of a new era of international cooperation This uncompromising book argues that Gorbachev might not have been as revolutionary as we would like to believe The authors show how Soviet foreign policy in fact stemmed from the leaders struggle for internal power and therefore how the KGB s operations abroad were afforded the highest priority The true function of the organization was to keep the Party in power whatever the human cost It is estimated that while the population of the USSR only doubled between 1905 and 1990 the repressive apparatus of the KGB increased eightfold Whereas other books on the KGB emphasize its subversive role in foreign countries this book uniquely written from an insider s viewpoint focuses on its dominant role within the Soviet system In the most comprehensive and authoritative survey of the activities of the KGB to date the authors look back to its founding in 1917 and also put recent events in perspective Most importantly they provide sound guidelines by which Western observers can distinguish fundamental from superficial change Adapted from jacket **Books in Print** Akadémiai Kiadó,1987 *C.D. Jackson* John Allen Stern,2012-01-31 This book is a study of U S propaganda strategy and some of its major proponents during the seminal Cold War period of the 1950s John Allen Stern delves into the lives of Dwight Eisenhower and most notably C D Jackson his chief adviser for psychological warfare His aim is to present a comprehensive analysis of so called democratic propaganda as a tool in confronting post World War II communist expansion Stern focuses on how such propaganda was employed as a method of celebrating the virtues of what we call the American way of life What unfolds is a story of how one individual C D Jackson evolved different modes of traditional advertising to construct an effective counterbalance to Soviet propaganda in Europe and around the world Stern assays the efforts of these American psywarriors in ultimately stemming the Soviet quest for world domination and ending the Cold War **International Affairs** ,1987 American Foreign Policy, Current Documents ,1959
