on the 18th and 19th Centuries the book provides a valuable resource for students of the conservative press in America. Covering a variety of disparate journals the volume arranges them both chronologically and in sections reflecting the themes covered. Politics individualism isolationism anti Communism the New Right neoconservatism and public policy are featured in four of the sections while journals examining the issues of religious conservatism appear in sections devoted to Orthodox Protestant and Catholic journals. Yet another section focuses on journals dealing with literary and cultural topics. The remaining sections examine libertarianism traditionalist perspectives and extreme right wing publications. Each section is unified with an introductory essay exploring the connecting themes and issues.
