The Standard Model and Beyond J. A. Villar, Angel Morales, 1995 **Spaceflight in the Shuttle Era and Beyond** Valerie Neal, 2017-06-27 An exploration of the changing conceptions of the Space Shuttle program and a call for a new vision of spaceflight The thirty years of Space Shuttle flights saw contrary changes in American visions of space Valerie Neal who has spent much of her career examining the Space Shuttle program uses this iconic vehicle to question over four decades worth of thinking about and struggling with the meaning of human spaceflight She examines the ideas images and icons that emerged as NASA Congress journalists and others sought to communicate rationales for or critiques of the Space Shuttle missions At times concurrently the Space Shuttle was billed as delivery truck and orbiting science lab near Earth station and space explorer costly disaster and pinnacle of engineering success The book s multidisciplinary approach reveals these competing depictions to examine the meaning of the spaceflight enterprise Given the end of the Space Shuttle flights in 2011 Neal makes an appeal to reframe spaceflight once again to propel humanity forward Neal may be the one person who knows the space shuttle program better than the astronauts who flew this iconic vehicle Her book casts new light on the program exploring its cultural significance through a thoughtful analysis As one who lived this history I gained much from her broader perspective and deep insights Kathryn D Sullivan retired NASA astronaut and former Administrator of the National Oceanic and Atmospheric Administration A much needed look at how to create a cultural narrative for human spaceflight that resonates with millennials rather than the Apollo generation Quite valuable Marcia Smith Editor SpacePolicyOnline com

Beyond the Easel Gloria Lynn Groom, Nicholas Watkins, Jennifer Paoletti, Thérèse Barruel, Metropolitan Museum of Art (New York, N.Y.), 2001-01-01 The Contributions of Artists Pierre Bonnard Edouard Vuillard Maurice Denis and Ker Xavier Roussel to the French avant garde of the 1890s as members of the Nabis are widely recognized What is less known about these artists careers is their extraordinary work in decorative painting work on a large or unusual scale for private interiors

This illustrated book focuses on the many decorative works carried out by the four artists between 1890 and 1930. During these years they moved beyond the narrow parameters of easel painting and applied their wholly untraditional aesthetic of decoration to a wide range of works for domestic interiors from wall size ensembles to folding screens. The cosmopolitan group of patrons who made this work possible ranged from the avant garde circle of *La Revue Blanche* to prominent members of the French establishment. An examination of their role and tastes is another fascinating feature of this publication. The book and accompanying exhibition reunite paintings that have long been dispersed, introducing contemporary viewers to a group of bold and evocative works which had a wide ranging though little recognized influence on modern art. As the book's authors argue, the aesthetic embodied by these works indeed helped set the stage for the large non-narrative paintings by artists as diverse as Rothko and Lichtenstein that came to dominate the avant garde after World War II.

The book analyzes lexical variation comprehensively and provides deep insights on the present state of the language with some speculations on its future.

Beyond Rigidity Mu Ren, 2021-01-23. This book investigates China's foreign policy concerning the principle of non-intervention in domestic affairs of other states in the post-Cold War period. The principle of non-intervention has traditionally been central to Chinese foreign policy, but as China's economy has boomed, international attention to her foreign policy has been increasingly hostile. Accordingly, an exploration of China's non-intervention policy is worthwhile to understand China's foreign policy and its international behavior. This book will be of interest to China watchers, scholars of geopolitics, and Asian historians.
