1996 Raoul Wallenberg Lecture:

Portico, 1998 Modern Architecture and Other Essays Vincent Scully, 2003 Combining the modes of historian and critic in unique and compelling ways Scully has profoundly influenced the way architecture is thought about and made This illustrated and elegantly designed volume distills Scully's incalculable contribution 300 illustrations *Repairing the American Metropolis* Douglas S. Kelbaugh, 2015-07-16 *Repairing the American Metropolis* is based on Douglas Kelbaugh's *Common Place Toward Neighborhood and Regional Design* first published in 1997 It is more timely and significant than ever with new text charts and images on architecture sprawl and New Urbanism a movement that he helped pioneer Theory and policies have been revised refined updated and developed as compelling ways to plan and design the built environment This is an indispensable book for architects urban designers and planners landscape architects architecture and urban planning students and scholars government officials developers environmentalists and citizens interested in understanding and shaping the American metropolis *Regents' Proceedings* University of Michigan. Board of Regents, 1995 Proceedings of the Board of Regents University of Michigan. Board of Regents, 1995 Making a New World Tom Avermaete, 2012 A heavily illustrated study of the foundations and working mechanisms of modern communities **Unlikely Heroes** Ari Kohen, Gerald J. Steinacher, 2019-05-01 Classes and books on the Holocaust often center on the experiences of victims perpetrators and bystanders but rescuers also occupy a prominent space in Holocaust courses and literature even though incidents of rescue were relatively few and rescuers constituted less than 1 percent of the population in Nazi occupied Europe As inspiring figures and role models rescuers challenge us to consider how we would act if we found ourselves in similarly perilous situations of grave moral import Their stories speak to us and move us Yet this was not always the case Seventy years ago these brave men and women today regarded as the Righteous Among the Nations went largely unrecognized indeed sometimes they were even singled out for abuse from their co-nationals for their selfless actions *Unlikely Heroes* traces the evolution of the humanitarian hero looking at the ways in which historians politicians and filmmakers have treated individual rescuers like Raoul Wallenberg and Oskar Schindler as well as the rescue efforts of humanitarian organizations Contributors in this edited collection also explore classroom possibilities for dealing with the role of rescuers at both the university and the secondary level **2000 Raoul Wallenberg Lecture** Michael Benedikt, 2000 American Jewish Year Book, 1996, 1995 The Library owns the volumes of the American Jewish Yearbook from 1899 current *Dimensions*, 2002 *Dimensions* is the annual student produced journal of architecture at the University of Michigan It seeks to contribute to the critical discourse of architectural education by documenting the most compelling work produced by its students faculty fellows and visiting lecturers **The Work of TEN Architectos** Enrique Norten, 1997 *Mosaic of a Scientific Life* István Hargittai, 2020-04-24 In this book István Hargittai an internationally renowned physical chemist narrates his life by introducing over forty personalities that played noteworthy roles in his career The time span

ranges from the Holocaust which the author survived through the periods of hard and softer dictatorships of Soviet type socialism and the current revival of an autocratic regime in Hungary He overcame barriers to get a high school then a university education He received excellent training in Moscow and was active at Hungarian American and other international scientific venues and he has interacted with more Nobel laureates than anyone in the world The chapters feature such famous contributors to world science as Francis Crick Richard L Garwin Ronald J Gillespie Avram Hershko George Klein Paul Lauterbur and Peter Mansfield Peter D Lax Paul Nurse Yuval Ne eman George A Olah Guy Ourisson Michael Polanyi Andrei D Sakharov Albert Szent Gy rgyi Edward Teller James D Watson and Eugene P Wigner The areas covered include chemistry molecular biology physics materials science and mathematics On the basis of Hargittai s mosaic of his personal and scientific life I could compose two further patterns One would be the history of the twentieth century and the other the science history of the same time period From the Foreword by the late philosopher Agnes Heller Goethe Medalist Wallenberg Medalist and Hannah Arendt Prize laureate

Synchronizing Science and Technology with Human Behaviour Ralf

Brand,2010-09-23 A rare achievement one of the first books to link technological and behavioural change to the sustainability agenda Charles Landry author of The Creative City Any course interested in sustainable development in practice would benefit from the case studies here Dr Adrian Smith SPRU Science and Technology Policy Research Unit University of Sussex UK Two disjointed voices can be identified in the prevailing sustainability discourse one technology focused the other favouring behavioural solutions This new practical text bridges the gap in a co evolutionary framework enabling more sustainable policies and projects to be developed Arguing that technical and social realms are much more connected than most people concerned with sustainability tend to admit the author has developed an innovative and integrated strategy that encourages planners architects and politicians to work with end users in co designing technologies and infrastructures that make socially desired behaviours more attractive Having explained the nature of the problem the author outlines key concepts and shared characteristics of co evolutionary projects and anticipates possible criticisms Through detailed analysis and diverse case studies the reader is presented with a clear picture of a more holistic approach to planning sustainable cities and regions which will be invaluable for students and professionals alike This will be an invaluable textbook and planning tool suitable for students of science and technology studies STS regional policy and planning and practitioners including city and regional planners policy makers and consultants

Vincent Scully A. Krista Sykes,2024-07-25 The renowned architectural historian and critic beloved

Yale professor and outspoken public activist Vincent Scully 1920 2017 emerged in the 1950s as a guiding voice in American architecture This intellectual biography of Scully s life and career traces the formative moments in his thinking charting his relationships with a constellation of architects artists and cultural personalities of the twentieth century Scully charted an unlikely course from postwar modernism to postmodernism and New Urbanism overturning outdated beliefs and changing

the face of the built environment as he went A teacher for more than 60 years and a figure of immense importance in the field he was central to an expansive network of associations from Frank Lloyd Wright Louis Kahn and Robert Venturi to Robert Stern Harold Bloom and Norman Mailer Scully s extensive body of work coalesced around the core belief that all architecture shapes society and responds above all else to the human need for community and connection This timely appraisal provides a platform for reassessing the legacy of these values as well as raising fresh questions about how we write and think about architecture in the twenty first century *Under Blue Cup* Rosalind E. Krauss,2024-02-06 A personal journey leads a celebrated critic to discover knights of the medium contemporary artists who battle the aesthetic meaninglessness of the post medium condition In *Under Blue Cup* Rosalind Krauss explores the relation of aesthetic mediums to memory her own memory having been severely tested by a ruptured aneurysm that temporarily washed away much of her short term memory The title *Under Blue Cup* comes from the legend on a flash card she used as a mnemonic tool during cognitive therapy Krauss emphasizes the medium as a form of remembering contemporary artists in what she terms the post medium condition reject that scaffolding Krauss explains the historical emergence of the post medium condition and describes alternatives to its aesthetic meaninglessness examining works by knights of the medium contemporary artists who extend the life of the specific medium These artists including Ed Ruscha William Kentridge Sophie Calle Harun Farocki Christian Marclay and James Coleman reinstate the recursive rules of a modernist medium by inventing what Krauss terms new technical supports battling the aesthetic meaninglessness of the post medium condition The technical support is an underlying ground for aesthetic practice that supports the work of art as canvas supported oil paint The technical support for Ruscha s fascination with gas stations and parking lots is the automobile for Kentridge the animated film for Calle photojournalism for Coleman a modification of PowerPoint for Marclay synchronous sound Their work Krauss argues recuperates more than a century of modernist practice The work of the post medium condition conceptual art installation and relational aesthetics advances the idea that the white cube of the museum or gallery wall is over Krauss argues that the technical support extends the life of the white cube restoring autonomy and specificity to the work of art

Architectural Research Methods Linda N. Groat,David Wang,2013-04-12 ARCHITECTURAL RESEARCH METHODS ARCHITECTURE GENERAL A PRACTICAL GUIDE TO RESEARCH FOR ARCHITECTS AND DESIGNERS NOW UPDATED AND EXPANDED From searching for the best glass to prevent glare to determining how clients might react to the color choice for restaurant walls research is a crucial tool that architects must master in order to effectively address the technical aesthetic and behavioral issues that arise in their work This book s unique coverage of research methods is specifically targeted to help professional designers and researchers better conduct and understand research Part I explores basic research issues and concepts and includes chapters on relating theory to method and design to research Part II gives a comprehensive treatment of specific strategies for investigating built forms In all the book covers seven types of research including historical

qualitative correlational experimental simulation logical argumentation and case studies and mixed methods Features new to this edition include Strategies for investigation practical examples and resources for additional information A look at current trends and innovations in research Coverage of design studio based research that shows how strategies described in the book can be employed in real life A discussion of digital media and online research New and updated examples of research studies A new chapter on the relationship between design and research Architectural Research Methods is an essential reference for architecture students and researchers as well as architects interior designers landscape architects and building product manufacturers

Immaterial Architecture Jonathan Hill, 2006-04-18 This fascinating argument from Jonathan Hill presents the case for the significance and importance of the immaterial in architecture Architecture is generally perceived as the solid physical matter that it unarguably creates but what of the spaces it creates This issue drives Hill's explorative look at the immaterial aspects of architecture The book discusses the pressures on architecture and the architectural profession to be respectively solid matter and solid practice and considers concepts that align architecture with the immaterial such as the superiority of ideas over matter command of drawing and design of spaces and surfaces Focusing on immaterial architecture as the perceived absence of matter Hill devises new means to explore the creativity of both the user and the architect advocating an architecture that fuses the immaterial and the material and considers its consequences challenging preconceptions about architecture its practice purpose matter and use This is a useful and innovative read that encourages architects and students to think beyond established theory and practice

Memory & Oblivion A.W. Reinink, Jeroen Stumpel, 2012-12-06 Memory is a subject that recently has attracted many scholars and readers not only in the general historical sciences but also in the special field of art history However in this book in which more than 130 papers given at the XXIXth International Congress of the History of Art Amsterdam 1996 have been compiled Memory is also juxtaposed to its counterpart Oblivion thus generating extra excitement in the exchange of ideas The papers are presented in eleven sections each of which is devoted to a different aspect of memory and oblivion ranging from purely material aspects of preservation to social phenomena with regard to art collecting from the memory of the art historian to workshop practices from art in antiquity to the newest media from Buddhist iconography to the Berlin Wall The book addresses readers in the field of history history of art and psychology
