Coins of the Roman Revolution, 49 BC-AD 14 Andrew Burnett, Lucia F. Carbone, Hannah Cornwell, Anton Powell, 2020-12-15 Coins of the best known Roman revolutionary era allow rival pretenders to speak to us directly After the deaths of Caesar and Cicero in 44 and 43 BC hardly one word has been reliably transmitted to us from even the two most powerful opponents of Octavian Mark Antony and Sextus Pompeius except through coinage and the occasional inscription The coins are an antidote to a widespread fault in modern approaches the idea from hindsight that the Roman Republic was doomed that the rise of Octavian Augustus to monarchy was inevitable and that contemporaries might have sensed as much Ancient works in other genres skilfully encouraged such hindsight Augustus in the *Res Gestae* and Virgil in *Georgics* and *Aeneid* sought to flatten the history of the period and largely to efface Octavian's defeated rivals But the latter's coins in precious metal were not easily recovered and suppressed by Authority They remain for scholars to revalue In our own age when public untruthfulness about history is increasingly accepted or challenged we may value anew the discipline of

searching for other ancient voices which ruling discourse has not quite managed to silence In this book eleven new essays explore the coinage of Rome s competing dynasts Julius Caesar s coins and those of his son Octavian Augustus are studied But similar and respectful attention is given to the issues of their opponents Cato the Younger and Q Metellus Scipio Mark Antony and Sextus Pompeius Q Cornificius and others A shared aim is to understand mentalities the forecasts current in an age of rare insecurity as the superpower of the Mediterranean faced and slowly recovered from division and ruin **Coins**

provide an up close look at beautiful and ingenious artifacts Judah Between East and West Lester L. Grabbe, Oded Lipschits, 2013-05-01 This is a collection of essays examining the period of transition between Persian and Greek rule of Judah ca 400-200 BCE. Subjects covered include the archaeology of Maresha, Marisa, Jewish identity, Hellenization, Hellenism, Ptolemaic administration in Judah, biblical and Jewish literature of the early Greek period, the size and status of Jerusalem, the Samaritans in the transition period, and Greek foundations in Palestine **Travel Writing and Empire** Steven H. Clark, 1999 Travel writing has become central to postcolonial studies. This book provides an introduction to the genre, particularly to its dynamics of power and representation and the degree to which it has promoted ideologies of empire. The book combines detailed evaluations of major contemporary models of analysis: new historicism, travelling theory, and postcolonial studies, with a series of specific studies detailing the complicity of the genre with a history of violent incursion. From Columbus reports from the New World through to the nomadism of postmodern travelogue, among its particular areas of concern are: Othering discourses of cannibalism and infanticide; the production of colonial knowledge; geographic, medicinal, zoological; the role of sexual anxiety in the construction of the gendered travelling body; the interplay between imperial and domestic spheres; reappropriation of alien discourse by indigenous cultures. Postcolonial studies has concentrated on travellers as conduits of erasure and appropriation. This book resists the temptation to think in terms of a simple monolithic Eurocentrism and offers a more complex reading of texts produced before, during, and after periods of imperial ascendancy. In doing so, it provides a more nuanced account of the hegemonic functions of travel writing. As such, it is necessary reading for students and academics of cultural studies, literary theory, anthropology, and history **The Pepper Wreck** Filipe Vieira de Castro, 2005 An account of the history and evacuation of the Portuguese merchant ship *Nossa Senhora dos Martires* sunk at the mouth of the Tagus River in 1606 **Gold Coins of the World, 10th edition** Arthur & Ira Friedberg, 2023-12-20 The tenth edition of *Gold Coins of the World* expands on its predecessor, digging more deeply into new areas of collector interest and expanding many sections. From the coins of Ancient Greece, Rome, and the Byzantine Empire, and from Afghanistan through Zanzibar, it includes the addition of many new discoveries for dozens of countries. From the 384 pages of the 1958 edition, the work has expanded to 852 pages, which have been completely revised and updated. The authors have listed more than 22,000 coin types, which are illustrated with more than 8,500 photos, now for the first time, each one of them in color. Each country's section includes tables of weight and fineness. The market valuations are extensively revised to reflect both the higher price of gold as well as the skyrocketing demand for numismatic rarities. Valuations are now provided for the first time in up to three states of preservation. Many of the prices, especially for great rarities and coins in higher grades, have at least doubled. In fact, as collectors recognize the scarcity of coins in the highest states of preservation, the premium for such coins relative to lower graded ones is escalating beyond traditional proportions. The coinage of India and the Islamic world, long dismissed by western collectors as difficult to decipher, unimportant, and lacking in value, is now the subject of intense
