Investororientierte Unternehmenspublizität Laurenz Lachnit,Carl-Christian Freidank,2013-03-09 Durch die Globalisierung unternehmerischer Aktivit ten und die Internationalisierung der Kapitalm rkte r ckt die Adressatengruppe der Investoren immer st rker in den Mittelpunkt der Publizit t deutscher Unternehmen und Konzerne Vor diesem Hintergrund geben renommierte Wissenschaftler und Praktiker des Rechnungs und Pr fungswesens einen Einblick in wichtige Fragestellungen die durch die investorinduzierte Reform der Unternehmenspublizit t aufgeworfen wurden Audit Quality Jonas Tritschler,2013-10-31 Arising from the author s experience as a practicing CPA this book is quite different from other

research in this field as it confronts the subject of audit quality from a pragmatic perspective The first goal of Jonas Tritschler is to develop an audit quality metric on national audit firm level Financial reporting errors as detected by the German enforcement institutions during examinations which subsequently are published in the German Federal Gazette by the involved companies are the data basis for this measurement Using the developed audit quality metric the second goal of this study is to analyze audit quality differences of selected audit firms by comparing their deployed audit input factors such as employee s competence ratio of certified professionals to total audit staff experience of employees average tenure of employees in years and client specific experience client fluctuation rate Results indicate a correlation between audit quality according to the developed metric and the operationalized audit input factors mentioned above

Enhancing Inter-Firm Networks & Interorganizational Strategies Anthony F. Buono, 2003-07-01 The focus of this volume is on the myriad dynamics associated with these interorganizational ventures Emphasis is placed on 1 understanding the nature of these different interorganizational forms and 2 ways to enhance their effectiveness creating and sustaining complex problem solving capabilities and collaborative tendencies in a multiorganizational environment While the orientation of many of the initiatives and interventions in this volume reflects a traditional organization development OD focus emphasis is placed on working across organizational interfaces attempting to create the capacity and systemic potential for greater interorganizational learning and performance rather than releasing human potential solely within an organization see e g Cummings 1984 Consultants and researchers in this realm thus focus on spanning organizations creating and modifying networks of participants that 1 have a stake in particular interorganizational outcomes and 2 depend on those inter firm relationships and networks to accomplish their goals
