Whitehead's Philosophy; Selected Essays, 1935-1970 Charles Hartshorne, 1972 **Whitehead's Radically Different Postmodern Philosophy** David Ray Griffin, 2012-02-01 Postmodern philosophy is often dismissed as unintelligible self contradictory and as a passing fad with no contribution to make to the problems faced by philosophers in our time While this characterization may be true of the type of philosophy labeled postmodern in the 1980s and 1990s David Ray Griffin argues that Alfred North Whitehead had formulated a radically different type of postmodern philosophy to which these criticisms do not apply Griffin shows the power of Whitehead's philosophy in dealing with a range of contemporary issues the mind body relation ecological ethics truth as correspondence the relation of time in physics to the irreversible time of our lives and the reality of moral norms He also defends a distinctive dimension of Whitehead's postmodernism his theism against various criticisms including the charge that it is incompatible with relativity theory

Whitehead, 1961 **Process Philosophical Reflections on the Whiteheadian Intellectual Heritage** Vesselin

Petrov, 2025-09-09 A N Whitehead 1861 1947 is widely regarded as one of the most significant scientists philosophers and thinkers of the 20th century His philosophical work has had a profound impact on the development of philosophy in almost all of its areas Actually the sheer breadth and influence of his philosophical contributions is such that it is almost impossible to enumerate all the areas of philosophy that have been influenced by him His concepts possess a historical evolution and are in a perpetual state of development particularly within the context of contemporary Whiteheadian scholarship Whiteheadian philosophers do of course investigate and develop further Whitehead s legacy and it is thus advisable to probe these contemporary assessments of Whitehead The present volume aims to do just that In order to do so the book is divided into four parts 1 General concepts and basic skills in education 2 The future of education 3 Arts and ethics 4 Community medicine psychology AI

The Epochal Nature of Process in Whitehead's Metaphysics F. B. Wallack, 1980-06-30 While my book attempts to reflect the full range of scholarly debate I have also attempted to make it useful to anyone interested in Whitehead To this end I have introduced the Whiteheadian terms one by one explaining each in the light of my interpretation and I have used examples wherever possible I try to show that Whitehead intended his philosophy have a place in our lives by reshaping our common conceptions and that he did not intend it to be relegated to purely abstract or esoteric application F Bradford Wallack The twentieth century has seen the greatest innovations in philosophical cosmology since Newton and Descartes and Alfred North Whitehead was the first and greatest of the philosophers to work out these innovations in systematic ways In a book that will be controversial in the philosophical community F Bradford Wallack argues that interpretations widely accepted by Whiteheadians need revaluation because these interpretations are based on materialist and substantialist assumptions that Whitehead sought to replace Specifically she proposes a thorough revision of accepted interpretations of Whitehead s concept of the actual entity Wallack then elucidates Whitehead s ideas in order of their increasing dependence upon other basic Whiteheadian terms to complete the study of Whiteheadian time and to clarify its purpose within the cosmology of Process and Reality Whitehead s philosophy then emerges as more intelligible and cohesive than is generally believed
