Alienation Concept Term And Meanings

Nātān Rôtenšťraik

Alienation Concept Term And Meanings:

Alienation: Concept, Term, and Meanings Frank A. Johnson, 1973 **Perspectives on Human Conducts** Nātān Rôtenštraik, 1988 **Normal and Malignant Cells** Warren Harmon Lewis, 1935 *Theories of Alienation* R.F. Geyer, D.R. Schweitzer, 2012-12-06

The original papers which appear in this volume were initially presented in a series of sessions of the Ad Hoc Group on Alienation Theory and Research at the 1974 World Congress of Sociology in Toronto Canada. This group was organized by the editors as a result of their longstanding research and teaching interest in the field. The purpose of the Toronto sessions was to provide an international forum where scholars and researchers could come together for a personal exchange of ideas and research findings. To our knowledge this was the first forum of its kind concerned specifically with alienation theory and research. More than fifty theoretical and empirical papers from thirteen countries and several overlapping disciplines were organized into panels and workshops during the span of four days. The response to these sessions indicates that interest in the study of alienation by philosophers and social scientists continues unabated. The Toronto sessions were organized largely around a fundamental concern for further theoretical development and conceptual clarification in the alienation field. The papers selected for this volume reflect this thematic concern. Although many excellent empirical papers were presented, it was generally felt that meaningful empirical research would benefit from a continued elaboration and refinement of alienation theory. The present collection is consequently geared to problems of meaning, theory, and method. Considerable emphasis is also placed on a critical evaluation of the alienation theme as it has evolved from social philosophy to empirical social research.

Alienation Frank A. Johnson, 1973 *Political Alienation and Political Behavior* David C. Schwartz, 2017-07-05

Why do people adopt attitudes of political alienation, attitudes of estrangement, or lack of identification with the political system? Why do some politically alienated people react to their alienation by engaging in revolutionary behavior while others similarly alienated become reformers or ritualists and still others simply drop out of political activity? In *Political Alienation and Political Behavior*, David C. Schwartz attempts to answer these questions, challenging accepted theories of social status and economic difficulties and developing a completely new three-variable psychological theory to explain alienation. Based on observations of threat from value conflict, perceived personal inefficacy, and perceived systemic inefficacy, the theory includes a process model for predicting political behavior. The book is organized into a definition and discussion of the concept of political alienation, including reviews and critiques of relevant scholarly and popular literature; a theoretical explanation of the causes and consequences of alienation; presentation of data, research reports, and testing of the author's explanation of political alienation; tests of a process model explaining the consequences of alienation; and a summary of the major findings of the research, indicating some of the directions that future research might profitably take. Fascinating reading for social scientists, this well-written book will be important to teachers and students concerned with U.S. politics and more generally with the relationship of economic, social, and psychological forces manifested

in political behavior **Basic Concepts in the Methodology of the Social Sciences** Johann Mouton, H. C. Marais, 1988
This book consists of three major sections In the first which includes chapters 1 to 7 the basic concepts of the methodology of the social social sciences are discussed In the second chapters 8 and 9 the most important concepts of part one are integrated in discussions on the writing of research proposals and research reports The third section appendices consists of three case studies in which the most important methodological principles which were discussed in the preceding sections are illustrated Alienation Nathan Rotenstreich, 2022-07-04 Taxation of Capital Gains Under the OECD Model Convention Stefano Simontacchi, 2007-01-01 Increasing globalization and the related cross border flows of capital resources has only increased interest in the taxation of transnational capital gains among practitioners and scholars This is particularly true as it relates to investments in immovable property As a consequence Article 13 of the OECD Model Convention covering capital gains has emerged as one of the document s key provisions Based on in depth historical research this book pays particular attention to the definition of capital gains falling within the scope of Article 13 It also thoroughly analyses the treaty regime applicable to gains derived from the alienation of both immovable property and shares of immovable property companies

The Philosophical Reflection of Man in Literature Anna-Teresa Tymieniecka, 2012-12-06 *Contributions to Communicational, Cultural, Media, and Digital Studies* Paulo M. Barroso, 2020-10-15 This book is about communication a universal yet particular form of linking people and ideas It details the growing and multiform uses functions interactions and effects of communication in the contemporary world society and highlights the dialectic between society and communication It will also serve to stimulate critical thinking The book is structured as a compendium of the sociology of communication providing a practical and pedagogical didactic resource especially for students including case studies summary tables questions for review and excerpts from selected works and authors This book is a major contribution to cultural media and digital studies and will be of interest to those who live in an increasingly digital technological and global society and want to understand a phenomenon as social as it is inevitable spontaneous and influential **Measures of Personality and Social Psychological Attitudes** John P. Robinson, Phillip R. Shaver, Lawrence S. Wrightsman, 2013-10-22 Measures of Personality and Social Psychological Attitudes Volume 1 in Measures of Social Psychological Attitudes Series provides a comprehensive guide to the most promising and useful measures of important social science concepts This book is divided into 12 chapters and begins with a description of the Measures of Personality and Social Psychological Attitudes Project s background and the major criteria for scale construction The subsequent chapters review measures of response set the scales dealing with the most general affective states including life satisfaction and happiness and the measured of self esteem These topics are followed by discussions of measures of social anxiety which is conceived a major inhibitor of social interaction as well as the negative states of depression and loneliness Other chapters examine the separate dimensions of alienation the predictive value of interpersonal trust and attitudes in studies of occupational choice and racial attitude change and the attitude scales

related to locus of control The final chapters look into the measures related to authoritarianism androgyny and values This book is of great value to social and political scientists psychologists nurses social workers non academic professionals and students *The History and Philosophy of Social Science* H. Scott Gordon,2002-09-11 Scott Gordon provides a magisterial review of the historical development of the social sciences from their beginnings in renaissance Italy to the present day
