**Picturesque and Sublime** Tim Barringer,T. J. Barringer,Gillian Forrester,Sophie Lynford,Jennifer Raab,Nicholas Robbins,2018-01-01 Thomas Cole 1801 1848 is widely acknowledged as the founder of American landscape painting Born in England Cole emigrated in 1818 to the United States where he transformed British and continental European traditions to create a distinctive American idiom He embraced the picturesque which emphasized touristic pleasures and the sublime an aesthetic category rooted in notions of fear and danger Including striking paintings and a broad range of works on paper from watercolors to etchings mezzotints aquatints engravings and lithographs this book explores the trans Atlantic context for Cole s oeuvre These works chart a history of landscape aesthetics and demonstrate the essential role of prints as agents of artistic transmission The authors offer new interpretations of work by Cole and the British artists who influenced him including J M W Turner and John Constable revealing Cole s debt to artistic traditions as he formulated a profound new category in art the American sublime

**Sanctified Landscape** David Schuyler,2012-04-06 The Hudson River Valley was the first iconic American landscape Beginning as early as the 1820s artists and writers found new ways of thinking about the human relationship with the natural world along the Hudson Here amid the most dramatic river and mountain scenery in the eastern United States Washington Irving and James Fenimore Cooper created a distinctly American literature grounded in folklore and history that contributed to the emergence of a sense of place in the valley Painters led by Thomas Cole founded the Hudson River School widely recognized as the first truly national style of art As the century advanced and as landscape and history became increasingly intertwined in the national consciousness an aesthetic identity took shape in the region through literature art memory and folklore even gardens and domestic architecture In Sanctified Landscape David Schuyler recounts this story of America s idealization of the Hudson Valley during the nineteenth and early twentieth centuries Schuyler s story unfolds during a time of great change in American history At the very moment when artists and writers were exploring the aesthetic potential of the Hudson Valley the transportation revolution and the rise of industrial capitalism were transforming the region The first generation of American tourists traveled from New York City to Cozzens Hotel and the Catskill Mountain House in search of the picturesque Those who could afford to live some distance from jobs in the city built suburban homes or country estates Given

these momentous changes it is not surprising that historic preservation emerged in the Hudson Valley the first building in the United States preserved for its historic significance is Washington's Headquarters in Newburgh Schuyler also finds the seeds of the modern environmental movement in the transformation of the Hudson Valley landscape Richly illustrated and compellingly written Sanctified Landscape makes for rewarding reading Schuyler expertly ties local history to national developments revealing why the Hudson River Valley was so important to nineteenth century Americans and why it is still beloved today

[Washington Irving's Critique of American Culture](#) J. Woodrow McCree, 2021-06-24 Washington Irving's Critique of American Culture Sketching a Vision of World Citizenship challenges long standing views of Washington Irving He has been portrayed as writing in the 18th century style of Addison and Goldsmith without having much substance of his own Irving has also been accused of being insufficiently American and adrift in an identity crisis The author argues that Irving addressed the American cultural context very extensively he was a writer of substance who articulated an ethic of world citizenship that was found in the philosophy of ancient Greek cynics and stoics This ethic was united with a love of picturesque travel which emphasized variety and texture in experience

resulting in an extraordinary affirmation of the value of cultural diversity in the new Republic Irving was in fact a liminal figure straddling Romantic and neoclassical modes of writing and acting The author draws attention to Irving s success as a writer in the pictorial mode Irving also expressed a critique of cultural loss and environmental destruction like that articulated by the artist Thomas Cole The work embraces an interdisciplinary approach where insights from philosophy religion art history and social history shed light on an underestimated writer
