*Sold American* Charles F. McGovern, 2009-01-06 At the turn of the twentieth century an emerging consumer culture in the United States promoted constant spending to meet material needs and develop social identity and self cultivation In *Sold American* Charles F. McGovern examines the key players active in shaping this cultural evolution advertisers and consumer advocates McGovern argues that even though these two professional groups invented radically different models for proper spending both groups propagated mass consumption as a specifically American social practice and an important element of nationality and citizenship Advertisers McGovern shows used nationalist ideals icons and political language to define consumption as the foundation of the pursuit of happiness Consumer advocates on the other hand viewed the market with a republican inspired skepticism and fought commercial incursions on consumer independence The result says McGovern was a redefinition of the citizen as consumer The articulation of an American Way of Life in the

Depression and World War II ratified consumer abundance as the basis of a distinct American culture and history

*Resources in Education*, 1993      **Making the Modern American Fiscal State** Ajay K. Mehrotra, 2013-09-30 At the turn of the twentieth century the US system of public finance underwent a dramatic transformation The late nineteenth century regime of indirect hidden partisan and regressive taxes was eclipsed in the early twentieth century by a direct transparent professionally administered and progressive tax system This book uncovers the contested roots and paradoxical consequences of this fundamental shift in American tax law and policy It argues that the move toward a regime of direct and graduated taxation marked the emergence of a new fiscal polity a new form of statecraft that was guided not simply by the functional need for greater revenue but by broader social concerns about economic justice civic identity bureaucratic capacity and public power Between the end of Reconstruction and the onset of the Great Depression the intellectual legal and administrative foundations of the modern fiscal state first took shape This book explains how and why this new fiscal polity came to be      **Dissenter in Zion** Judah Leon Magnes, 1982 For nearly half a century until his death in October 1948 Judah Magnes occupied a singular place in Jewish public life He won fame early as a preacher and communal leader but abandoned these pursuits at the height of his influence for the roles of political dissenter and moral gadfly During World War I he became an outspoken pacifist and supporter of radical causes Settling permanently in Palestine in 1922 he was a founder and the first president of the Hebrew University Increasingly he viewed rapprochement with the Arabs as the practical and moral test of Zionism and the formation of a bi national state of Arabs and Jews became his chief political goal His life interests thus focused on the core issues that confronted and still confront the Jewish people group survival in democratic America the direction and character of the return to Zion and thereconciliation of universal ideals with Jewish aspirations and needs *Dissenter in Zion* draws upon a rich corpus of private letters personal journals and diaries to offer a moving account of an eloquent and sensitive person grappling with the great questions of the day and of an activist striving to translate private moral feelings into public deeds through politics and diplomacy We see Magnes disagreeing with Brandeis over the leadership and direction of American Zionism and with Weizmann and Ben Gurion over ways to achieve peaceful relations with the Arabs defending himself against charges by Einstein that he was mismanaging the affairs of the Hebrew University and persistently negotiating with Arab leaders trying to reach a compromise on the eve of the establishment of the State of Israel *Dissenter in Zion* also contains a biographical essay on Magnes by Arthur Goren assessing his ideas and motives and placing him in the context of his times It shows Magnes s profundity without covering up his weaknesses his lifelong tactic for courting repeated defeat in favor of long term goals that could not come to pass in his lifetime      *American Science Fiction Television and Space* Joel Hawkes, Alexander Christie, Tom Nienhuis, 2023-03-05 This collection reads the science fiction genre and television medium as examples of heterotopia and television as science fiction technology in which forms processes and productions of space and time collide a multiplicity of spaces produced and re

configured The book looks to be a heterotopic production with different chapters and spaces of genre production mediums technologies homes bodies etc reflecting refracting and colliding to offer insight into spatial relationships and the implications of these spaces for a society that increasingly inhabits the world through the space of the screen A focus on American science fiction offers further spatial focus for this study a question of geographical and cultural borders and influence not only in terms of American science fiction but American television and streaming services The contested hegemonic nature of American science fiction television will be discussed alongside a nation that has significantly been understood even produced through the television screen Essays will examine the various re configurations or productions of space as they collapse into the science fiction heterotopia of television since 1987 the year Star Trek Next Generation began airing
