Alternative Methods for International Security Carolyn M. Stephenson, 1982      Emerging Trends and Methods in International Security National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, 2018-06-18 Beginning in October 2017 the National Academies of Sciences Engineering and Medicine organized a set of workshops designed to gather information for the Decadal Survey of Social and Behavioral Sciences for Applications to National Security The second workshop focused on emerging trends and methods in international security and this publication summarizes the presentations and discussions from this workshop      **International Relations Theory and Ecological Thought** Eric Laferrière, Peter J.

Stoett, 2003-09-02 Ecological crises have never been higher on the international political agenda However ecological thought and international relations theory have developed as separate disciplines This ground breaking study looks at the relationship between ecological thought and international relations theory arguing that there are shared concerns peace co operation and security The authors ask what ecological crisis can teach IR theorists as well as what ecological perspectives have been adopted by governments and international NGOs      **Researching Non-state Actors in International Security**

Andreas Kruck, Andrea Schneiker, 2017-04-28 This volume provides researchers and students with a discussion of a broad range of methods and their practical application to the study of non state actors in international security All researchers face the same challenge not only must they identify a suitable method for analysing their research question they must also apply it This volume prepares students and scholars for the key challenges they confront when using social science methods in their own research To bridge the gap between knowing methods and actually employing them the book not only introduces a broad range of interpretive and explanatory methods it also discusses their practical application Contributors reflect on how they have used methods or combinations of methods such as narrative analysis interviews qualitative comparative analysis QCA case studies experiments or participant observation in their own research on non state actors in international security Moreover experts on the relevant methods discuss these applications as well as the merits and limitations of the various methods in use Research on non state actors in international security provides ample challenges and opportunities to probe different methodological approaches It is thus particularly instructive for students and scholars seeking insights on how to best use particular methods for their research projects in International Relations IR security studies and neighbouring disciplines It also offers an innovative laboratory for developing new research techniques and engaging in unconventional combinations of methods This book will be of much interest to students of non state security actors such as private military and security companies research methods security studies and International Relations in general The Open Access version of this book available at <https://www.routledge.com> Researching Non state Actors in International Security Theory and Practice Kruck Schneiker p book 9780367141561 has been made available under a Creative Commons Attribution Non Commercial
