Baumann,1981 Considered a German Byron by his contemporaries Johann Ludwig Wilhelm M ller 1794 1827 is usually remembered today as the German Romantic poet whose lyrics Franz Schubert set to music in Die sch ne M llerin and Die Winterreise A philhellene who wrote impassioned lyrics in support of the Greeks in their struggle for independence from the Turks M ller also collected and edited Italian and modern Greek folk songs Goethe very likely became acquainted with Marlowe s The Tragical History of Doctor Faustus through M ller s 1818 translation of that work M ller was an influential critic and scholar of the Romantic Era a creative public librarian and publisher s consultant with the prestigious firm of F A Brockhaus in Leipzig a respected teacher and a popular author of travel books all this despite his sudden and somewhat mysterious death at 32 The son of a guild tailor in the duchy of Anhalt Dessau and a precocious and sometimes rebellious student he nonetheless received lifelong aid from the ducal family including a scholarship to the new University of Berlin M ller left the University before completing his studies and spent two years as a volunteer in the Prussian Army fighting Napoleon During this time he had an unhappy love affair in Brussels At 26 M ller married into one of the leading Dessau families and at 30 he was granted the title Hofrat In this first comprehensive study of M ller Dr Baumann presents a lively and vivid profile of the poet prose writer translator critic editor philhellene and traveler whose life reflects the landscape of literary concern from the Romantic movement to Junges Deutschland A complete bibliography of works by and about M ller is included This work in the words of one reader should interest any person with a general concern for the complex interrelationship of cultural and socio political forces and the contact of key persons in German speaking culture with one another during the late 18th and early 19th centuries as a veritable window into the period of Goethe The Beethoven Syndrome Mark Evan Bonds,2019 The Beethoven Syndrome is the inclination of listeners to hear music as the projection of a composer s inner self This was a radically new way of listening that emerged

only after Beethoven's death Beethoven's music was a catalyst for this change but only in retrospect for it was not until after his death that listeners began to hear composers in general and not just Beethoven in their works particularly in their instrumental music The Beethoven Syndrome Hearing Music as Autobiography traces the rise fall and persistence of this mode of listening from the middle of the eighteenth century to the present Prior to 1830 composers and audiences alike operated within a framework of rhetoric in which the burden of intelligibility lay squarely on the composer whose task it was to move listeners in a calculated way But through a confluence of musical philosophical social and economic changes the paradigm of expressive objectivity gave way to one of subjectivity in the years around 1830 The framework of rhetoric thus yielded to a framework of hermeneutics concert goers no longer perceived composers as orators but as oracles to be deciphered In the wake of World War I however the aesthetics of New Objectivity marked a return not only to certain stylistic features of eighteenth century music but to the earlier concept of expression itself Objectivity would go on to become the cornerstone of the high modernist aesthetic that dominated the century's middle decades Masterfully citing a broad array of source material from composers critics theorists and philosophers Mark Evan Bonds's engaging study reveals how perceptions of subjective expression have endured leading to the present era of mixed and often conflicting paradigms of listening
