Alexander Mackenzie And The North West:

Alexander Mackenzie and the North West Roy Daniells, 1969 **Sir Alexander Mackenzie and His Influence on the History of the North West** Walter Noble Sage, 1922 **The Canadian North-west** Graeme Mercer Adam, 1885
Includes appendix The trial of Louis Riel p 391 408 **Travels, Explorations and Empires, 1770-1835, Part I Vol 1** Tim Fulford, Peter J Kitson, Tim Youngs, 2021-12-16 A collection of work that attempts to reflect the diversity of travel literature from the late 18th and early 19th centuries This literature often reveals something of the cultural and gender difference of the travellers as well as ideas on colonialism anthropology and slavery **Modernity and Its Other** Robert W. Sayre, 2017-12 In *Modernity and Its Other* Robert Woods Sayre examines eighteenth century North America through discussion of texts drawn from the period He focuses on this unique historical moment when early capitalist civilization modernity in colonial societies especially the British interacted closely with Indigenous communities the Other before the balance of power shifted definitively toward the colonizers Sayre considers a variety of French perspectives as a counterpoint to the Anglo American lens including J Hector St John de Crèvecoeur and Philip Freneau as well as both Anglo American and French or French Canadian travelers in Indian territory including William Bartram Jonathan Carver John Lawson Alexander Mackenzie Baron de Lahontan Pierre Charlevoix and Jean Baptiste Trudeau *Modernity and Its Other* is an important addition to any North American historian's bookshelf for it brings together the social history of the European colonies and the ethnohistory of the American Indian peoples who interacted with the colonizers **The Northwest Coast** Barry M. Gough, 2011-11-01 The voyages of Cook and Vancouver heralded a vast influx of irrepressible Europeans fur traders whalers administrators visitors missionaries miners botanists and sailors people of every class and distinction They came to conquer the Pacific its islands and its continents for God gold and glory They brought with them their morals ideologies knowledge technology plants and animals They also brought diseases rum and guns They brought with them powers to build and powers to destroy from the Epilogue The Northwest Coast was irrevocably changed the day that Captain James Cook sailed into Nootka Sound in 1778 Cook's discovery of the sea otter population along the coast initiated the maritime fur trade which in turn led to feverish competition among several nations especially Britain Russia and the United States as well as the celebrated rivalry between Spain and Britain for control of Nootka By 1812 a toe hold of British empire was established and the aboriginal way of life was shattered The Northwest Coast documents Britain's rise to pre eminence in this far flung corner of the empire It shows how the relentless activities of its commercial interests the adroit use of its naval power and the steely resolve of its diplomats secured British claims to dominion and rights to trade along the Northwest Coast Written by a leading maritime scholar and based on fresh research into known manuscripts and printed works on Pacific trade and exploration this book incorporates new interpretations on exploration and commercial activity in this area It documents the interaction often violent between British sailors and aboriginal people depicts many of the rivalries among British mariners

and examines various claims to the discovery of the Northwest Passage The Northwest Coast significantly expands and updates the author's award winning book *Distant Dominion* Gough's compelling narrative combined with his extensive use of quotations from the journals and correspondence of explorers and merchant traders provide insights into the motives and attitudes of these early pioneers of the empire Encyclopedia of the Lewis and Clark Expedition Elin Woodger, Brandon Toropov, 2014-05-14 Provides facts and information about the travels of Meriwether Lewis and William Clark and their Corps of Discovery and its importance in relation to Native Americans and the westward expansion in the United States The Subarctic Indians and the Fur Trade, 1680-1860 Colin Yerbury, 2011-11-01 Using the accounts of fur traders explorers officials and missionaries Colin Yerbury documents the profound changes that swept over the Athapaskan speaking people of the Canadian subarctic following European contact He challenges with a rich variety of historical documents the frequently articulated view that there is a general cultural continuity from the pre contact period to the twentieth century Leaving to the domain of the archaeologists the pre historic period when all the people of the vast area from approximately 52N to the edge of the tundra and from Hudson Bay to Alaska were hunters fishers and gatherers subsisting entirely on native resources Yerbury focuses on the Protohistoric and Historic Periods The ecological and sociocultural adaptations of the Athapaskans are explored through the two centuries when they moved from indirect contact to dependency on the Hudson Bay trading posts For nearly one hundred years prior to 1769 when North West Company traders began to establish trading relationships in the heart of Athapaskan territory contacts with Europeans were almost entirely indirect conducted through Chipewyan middlemen who jealously guarded their privileged access to the posts The boundaries of the indirect trade areas fluctuated owing to intertribal rivalries but generally the hardships of travel over great distances prevented the Athapaskans from establishing direct contact with the posts The pattern was only broken by the gradual expansion of the traders themselves into new regions But as Yerbury shows it is a mistake to believe significant sociocultural change only began when posts were established In fact technological changes and economic adjustments to facilitate trade had already transformed Athapaskan groups and integrated them into the European commercial system by the opening of the Historic Era The Early Fur Trade Period 1770 1800 was characterized by local trade centered on a few posts where Indians were simultaneously post hunters trappers and traders as well as middlemen But the following Competitive Trade Period before the amalgamation of the fur companies in 1821 saw ruinous and violent feuding which had devastating effects on traders and natives alike During these years there were great qualitative changes in the native way of life and the debt system was introduced Finally in the Trading Post Dependency Period monopoly control brought peace and stability to the native population through the formation of trading post bands and trapping parties in the Athapaskan and Mackenzie Districts This regularization of the trade and proliferation of new commodities represented a further basic transformation in native productive relations making trade a necessity rather than a supplement to furnishing native livelihoods By detailing this series of changes *The Subarctic Indians*

and the Fur Trade 1680 1860 furthers understanding of how the Hudson s Bay Company and then government officials came to play an increasing role that the Dene themselves now wish to modify drastically *Introduction to the social history of Scots in Quebec (1780-1840)* Lynda Price,1981-01-01 This volume comprises a historical study of the Scottish urban elite of Quebec between 1780 and 1840 whose educational religious philanthropic and economic institutions demonstrate a strong continuity with their homeland and resistance to cultural assimilation within the larger French Canadian society Published in English **Architecture and Town Planning in Colonial North America** James D.
