But these Roman era writers drew on the accounts of earlier authors who were contemporary with Alexander some of whom took part in the momentous events they described. David Grant examines the fragments of these earlier eyewitness testimonies which are preserved as undercurrents in the later works. He traces their influence and monopoly of the truth and spotlights their manipulation of events to reveal how the Wars of the Successors shaped the agendas of these writers. It becomes clear that Alexander's courtiers were no less ambitious than their king and wanted to showcase their role in the epic conquest of the Persian Empire to enhance their credibility and legitimacy in their own quests for power. In particular Grant reveals why reports of the dying king's last wishes conflict and he explains why testimony relegated to romance may house credible grains of truth.
