Alfred Doblins Historisches Denken:

Alfred Döblins historisches Denken Adalbert Wichert, 2016-12-12 **The Critical Reception of Alfred Döblin's Major Novels** Wulf Köpke, 2003

The first thorough study in English of the reception of Döblin's novels written by one of the foremost Döblin scholars Alfred Döblin 1878-1957 is one of the major German writers of the twentieth century. His experimental ever-changing avant-garde style kept both readers and critics off guard and although he won the acclaim of critics and had a clear impact on German writers after the Second World War Günter Grass called him my teacher he is still largely unknown to the reading public and under-researched by literary scholars. He was a prolific writer with thirteen novels alongside a great many other shorter fiction works and non-fiction writings to his credit and yet paradoxically he is known to a larger public as the author of only one book the 1929 novel *Berlin Alexanderplatz* which sold more copies in the first weeks of publication than all his previous novels combined. *Alexanderplatz* is known for its depiction of the criminal underground of Berlin and a montage and stream of consciousness technique comparable to James Joyce's *Ulysses*; it became one of the best-known big-city novels of the century and has remained Döblin's one enduring popular success. Döblin was forced into exile in 1933 and the works he wrote in exile were neglected by critics for decades. Now epic works like *Amazonas* (November 1918) and *Hamlet Oder die lange Nacht nimmt ein Ende* are finding a fairer critical evaluation. Wulf Köpke tackles the paradox of Döblin the leading but neglected avant-gardist by analysis of contemporary and later criticism both journalistic and academic always taking into account the historical context in which it appeared. Wulf Köpke is Professor Emeritus at Texas A M University.

Nietzsche and Jewish Culture Jacob Golomb, 2002-01-04

Friedrich Nietzsche occupies a contradictory position in the history of ideas: he came up with the concept of a master race yet an eminent Jewish scholar like Martin Buber translated his *Also sprach Zarathustra* into Polish and remained in a lifelong intellectual dialogue with Nietzsche. Sigmund Freud admired his intellectual courage and was not at all reluctant to admit that Nietzsche had anticipated many of his basic ideas. This unique collection of essays explores the reciprocal relationship between Nietzsche and Jewish culture. It is organized in two parts: the first examines Nietzsche's attitudes towards Jews and Judaism; the second Nietzsche's influence on Jewish intellectuals as diverse and as famous as Franz Kafka, Martin Buber, Franz Rosenzweig and Sigmund Freud. Each carefully selected essay explores one aspect of Nietzsche's relation to Judaism and German intellectual history from Heinrich Heine to Nazism.

A Companion to the Works of Alfred Döblin Roberta L. Krueger, Roland Dollinger, Wulf Köpke, Heidi Thomann Tewarson, 2010

A volume of carefully focused essays illuminating the works of one of the leading 20th-century German writers. Alfred Döblin 1878-1957 was one of the great German Jewish writers of the 20th century, a major figure in the German avant-garde before the First World War and a leading intellectual during the Weimar Republic. Döblin greatly influenced the history of the German novel; his best-known work, the best-selling 1929 novel *Berlin Alexanderplatz*, has frequently been compared in its use of internal monologue and literary montage to James Joyce's *Ulysses* and John Dos

Passos's *Manhattan Transfer* Döblin's oeuvre is by no means limited to novels but in this genre he offered a surprising variety of narrative techniques themes structures and outlooks Döblin's impact on German writers after the Second World War was considerable Günter Grass for example acknowledged him as my teacher And yet while *Alexanderplatz* continues to fascinate the reading public it has overshadowed the rest of Döblin's immense oeuvre This volume of carefully focused essays seeks to do justice to such important texts as Döblin's early stories his numerous other novels his political philosophical medical autobiographical and religious essays his experimental plays and his writings on the new media of cinema and radio

Alfred Döblin Steffan Davies, Ernest Schonfield, 2009-10-28 Döblin's texts which range widely across contemporary discourses are paradigms of the encounter between literary and scientific modernity With their use of *Tatsachenphantasie* they explode conventional language seeking a new connection with the world of objects and things This volume reassesses and reevaluates the uniquely interdisciplinary quality of Döblin's interdiscursive factually inspired poetics by offering challenging new perspectives on key works The volume analyses not only some of Döblin's best known novels and stories but also neglected works including his early medical essays political journalism and autobiographical texts Other topics addressed are Döblin's engagement with German history his relation to medical discourse his topography of Berlin his aestheticisation of his own biography and his relation to other major writers such as Heine Benn Brecht and Sebald With contributions in English and in German by scholars from Germany and the United Kingdom the volume presents insights into Döblin that are of value to
