Algic Researches:

The Literary World, 1881 **Algic Researches**, Henry Rowe Schoolcraft, 1839 *The Collected Works* Henry Schoolcraft, 2022-01-04 This carefully created collection presents works of Henry Schoolcraft This book has been designed and formatted to the highest digital standards and adjusted for readability on all devices Contents Memoirs Explorations Narrative of an Expedition Through the Upper Mississippi to Itasca Lake Personal Memoirs of a Residence of Thirty Years with The Indian Tribes On The American Frontiers Scenes and Adventures in the Semi Alpine Region of the Ozark Mountains of Missouri and Arkansas Ethnographical Historical Works The American Indians The Myth of Hiawatha and Other Oral Legends The Indian Fairytale Book Henry Rowe Schoolcraft 1793 1864 was an American geographer geologist and ethnologist noted for his early studies of Native American cultures as well as for his 1832 expedition to the source of the Mississippi River He is also noted for his major six volume study of Native Americans published in the 1850s The Ladies' Companion, 1839 *Voices of Modernity* Richard Bauman, Charles L. Briggs, 2003-07-03 Language and tradition have long been relegated to the sidelines as scholars have considered the role of politics science technology and economics in the making of the modern world This reading of over two centuries of philosophy political theory anthropology folklore and history argues that new ways of imagining language and representing supposedly premodern people the poor labourers country folk non europeans and women made political and scientific revolutions possible The connections between language ideologies privileged linguistic codes and political concepts and practices shape the diverse ways we perceive ourselves and others This 2003 book demonstrates that contemporary efforts to make schemes of social inequality based on race gender class and nationality seem compelling and legitimate rely on deeply rooted ideas about language and tradition Showing how critics of modernity unwittingly reproduce these foundational fictions it suggests strategies for challenging the undemocratic influence of these voices of modernity , Algic Researches Henry Rowe Schoolcraft, 1839 *Gentleman's Magazine* Edgar Allan Poe, 1839 The Corsair, 1839 Primitive Manners and Customs James Anson Farrer, 1879 **The Limits of Multiculturalism**, 1999 In the early nineteenth century the profession of American anthropology emerged as European Americans James Fenimore Cooper and Henry Rowe Schoolcraft among others began to make a living by studying the Indian Less well known are the AmerIndians who at that time were writing and publishing ethnographic accounts of their own people By bringing to the fore this literature of autoethnography and revealing its role in the forming of anthropology as we know it this book searches out and shakes the foundations of American cultural studies Scott Michaelsen shows cultural criticism to be at an impasse trapped by tradition even in its attempts to get beyond tradition With this dilemma in mind he takes us back to anthropology s nineteenth century roots to show us a network of nearly unknown AmerIndian anthropological writers David Cusick Jane Johnston William Apress Ely S Parker Peter Jones George Copway and John Rollin Ridge working contemporaneously with the major white anthropologists who wrote on indian topics Michaelsen tests present

day theses about difference in light of these AmerIndian voices and concludes that multiculturalism never will locate critical differences from Western or white writing since these traditions are inextricably bound together

The Limits of Multiculturalism is a first step in finding the proper anthropological grounds for questions about cultures in the Americas and in coming to terms with the co invention of anthropology by AmerIndians with the fact that Indian voices are lodged at the heart of anthropology

The Demon of the Continent Joshua David Bellin, 2012-06-30 In recent years the study and teaching of Native American oral and written art have flourished During the same period there has been a growing recognition among historians anthropologists and ethnohistorians that Indians must be seen not as the voiceless nameless faceless Other but as people who had a powerful impact on the historical development of the United States Literary critics however have continued to overlook Indians as determinants of American rather than specifically Native American literature The notion that the presence of Indian peoples shaped American literature as a whole remains unexplored

In The Demon of the Continent Joshua David Bellin probes the complex interrelationships among Native American and Euro American cultures and literatures from the mid seventeenth to the mid nineteenth centuries He asserts that cultural contact is at the heart of American literature For Bellin previous studies of Indians in American literature have focused largely on the images Euro American writers constructed of indigenous peoples and have thereby only perpetuated those images Unlike authors of those earlier studies Bellin refuses to reduce Indians to static antagonists or fodder for a Euro American imagination Drawing on works such as Henry David Thoreau's *Walden* William Apess's *A Son of the Forest* and little known works such as colonial Indian conversion narratives he explores the ways in which these texts reflect and shape the intercultural world from which they arose In doing so Bellin reaches surprising conclusions that *Walden* addresses economic clashes and partnerships between Indians and whites that William Bartram's *Travels* encodes competing and interpenetrating systems of Indian and white landholding that Catherine Sedgwick's *Hope Leslie* enacts the antebellum drama of Indian conversion that James Fenimore Cooper and Henry Wadsworth Longfellow struggled with Indian authors such as George Copway and David Cusick for physical ideological and literary control of the nation *The Demon of the Continent* proves Indians to be actors in the dynamic processes in which America and its literature are inescapably embedded Shifting the focus from textual images to the sites of material ideological linguistic and aesthetic interaction between peoples Bellin reenvision's American literature as the product of contact conflict accommodation and interchange

From Ape to Angel Hoffman R Hays, 2023-07-07 First published in 1958 *From Ape to Angel* is a popular history of social anthropology which sketches the extraordinary world of ethical religious and marital customs revealed by the men and women who travelled to remote places to live among and observe primitive people Here in absorbing detail are the findings of such scholars as Henry Schoolcraft who unravelled the mysteries of kinship among American Indians Edward Westermarck who studied gorillas to seek the origins of monogamy Sir James Frazer who dealt with the meaning of ritual and symbolism Franz Boas who explored the nature of totem and taboo

Bronislaw Malinowski who investigated the sexual life of savages and many other whose adventurous study has added to man's knowledge of social man This book will be of interest to students of anthropology history and sociology

American Anthropology, 1888-1920 Frederica De Laguna, Alfred Irving Hallowell, 2002-01-01 The formative years of American anthropology were characterized by intellectual energy and excitement the identification of key interpretive issues and the beginnings of a prodigious amount of fieldwork and recording The American Anthropological Association AAA was born as anthropology emerged as a formal discipline with specialized subfields fieldwork among Native communities proliferated across North America yielding a wealth of ethnographic information that began to surface in the flagship journal the American Anthropologist and researchers increasingly debated and probed deeper into the roots and significance of ritual myth language social organization and the physical make up and prehistory of Native Americans The fifty five selections in this volume represent the interests of and accomplishments in American anthropology from the establishment of the American Anthropologist through World War I The articles in their entirety showcase the state of the subfields of anthropology archaeology linguistics physical anthropology and cultural anthropology as they were imagined and practiced at the dawn of the twentieth century Examples of important ethnographic accounts and interpretive debates are also included Introducing this collection is a historical overview of the beginnings of American anthropology by A Irving Hallowell a former president of the AAA

Native Tongues Sean P. Harvey, 2015-01-05 Exploring the morally entangled territory of language and race in 18th and 19th century America Sean Harvey shows that whites theories of an Indian mind inexorably shaped by Indian languages played a crucial role in the subjugation of Native peoples and informed the U S government's efforts to extinguish Native languages for years to come

Queequeg's Coffin Birgit Brander Rasmussen, 2012-01-06 Rather than seeing American literature as beginning with the writings of English or Spanish colonists Brander Rasmussen points to the wide variety of indigenous writing in the Americas prior to colonization The study looks at writing between 1524 and the mid 19th century work of Herman Melville

What Jane Knew Maureen Konkle, 2024-04-30 The children of an influential Ojibwe Anglo family Jane Johnston and her brother George were already accomplished writers when the Indian agent Henry Rowe Schoolcraft arrived in Sault Ste Marie in 1822 Charged by Michigan's territorial governor with collecting information on Anishinaabe people he soon married Jane discovered the family's writings and began soliciting them for traditional Anishinaabe stories But what began as literary play became the setting for political struggle Jane and her family wrote with attention to the beauty of Anishinaabe narratives and to their expression of an Anishinaabe world that continued to coexist with the American republic But Schoolcraft appropriated the stories and published them as his own writing seeking to control their meaning and to destroy their impact in service to the civilizing interests of the United States In this dramatic story Maureen Konkle helps recover the literary achievements of Jane Johnston Schoolcraft and her kin revealing as never before how their lives and work shed light on nineteenth century struggles over the future of Indigenous people in the United

States **Philology** James Turner, 2015-09-15 A prehistory of today's humanities from ancient Greece to the early twentieth century Many today do not recognize the word but philology was for centuries nearly synonymous with humanistic intellectual life encompassing not only the study of Greek and Roman literature and the Bible but also all other studies of language and literature as well as history culture art and more In short philology was the queen of the human sciences How did it become little more than an archaic word In *Philology* the first history of Western humanistic learning as a connected whole ever published in English James Turner tells the fascinating forgotten story of how the study of languages and texts led to the modern humanities and the modern university The humanities today face a crisis of relevance if not of meaning and purpose Understanding their common origins and what they still share has never been more urgent *The Sound the Stars Make Rushing Through the Sky* Jane Johnston Schoolcraft, 2007 Introducing a dramatic new chapter to American Indian literary history this book brings to the public for the first time the complete writings of the first known American Indian literary writer Jane Johnston Schoolcraft her English name or Bamewawagezhikaquay her Ojibwe name Woman of the Sound the Stars Make Rushing Through the Sky 1800 1842 Beginning as early as 1815 Schoolcraft wrote poems and traditional stories while also translating songs and other Ojibwe texts into English Her stories were published in adapted unattributed versions by her husband Henry Rowe Schoolcraft a founding figure in American anthropology and folklore and they became a key source for Longfellow's sensationallly popular *The Song of Hiawatha* As this volume shows what little has been known about Schoolcraft's writing and life only scratches the surface of her legacy Most of the works have been edited from manuscripts and appear in print here for the first time *The Sound the Stars Make Rushing Through the Sky* presents a collection of all Schoolcraft's extant writings along with a cultural and biographical history Robert Dale Parker's deeply researched account places her writings in relation to American Indian and American literary history and the history of anthropology offering the story of Schoolcraft her world and her fascinating family as reinterpreted through her newly uncovered writing This book makes available a startling new episode in the history of American culture and literature
