Aliens and Man Jerome A. Kroth, 2010 When it comes to extraterrestrials UFOs crop circles and ancient astronaut literature most intelligent readers are repulsed by New Age hype turned off by Erik Van Daniken flustered by blatant pseudo science and deeply chagrined at how even the History Channel got dragged into the tabloid and sensational Yet many intelligent open minded readers harbor secret interests in the Great Pyramid and how it was built in mythic tales of sky gods coming and going from Ezekiel to the Rig Veda They are awed by the intricate fractals in crop circles and they more than take notice when a NASA astronaut says he was trailed in space by UFOs That questioning readership however swims in a vast sea of agnosticism curious but not convinced And there just aren't any books for them None they can trust None that reaches them None that transcends tabloid fantasies to authentically treat issues with enough dispassion and scholarly erudition not to insult their intelligence Here Dr Kroth gives the run down on a wide range of evidence and ponders how reliable any of it may be Readers are left with all the elements to form their own equation

medieval castles and rich cultures vibrant until the demons rose and slaughtered ninety percent of the planet's population. Swarms of lethal creatures with black husks, murderous claws, barbed tails, and dreaded tooth tongues rage across the land. Terrified survivors hide in ruined mountain keeps where they eke out a meager existence. Skilled runners travel the treacherous paths between keeps, maintaining trade and sharing information. If caught, they die screaming. Ahiliyah of Lemeth Hold is an exceptional runner, constantly risking her life for her people. When she and her closest companions discover a new weapon, it may offer the one last chance to end the demon plague. But to save humanity, the trio must fight their way to the tunnels of Black Smoke Mountain, the lair of the mythical Demon Mother VASQUEZ. Even before the doomed mission to Hadley's Hope, Jenette Vasquez had to fight to survive. Born to an immigrant family with a long military tradition, she looked up to the stars but life pulled her back down to Earth, first into a street gang, then prison. The Colonial Marines proved to be Vasquez's way out, a way that forced her to give up her twin children. Raised by Jenette's sister Roseanna, those children, Leticia and Ramon, have been forced to discover their own ways to survive. Leticia, by following her mother's path into the military, Ramon, by embracing the corporate hierarchy of Weyland Yutani. Their paths converge on an unnamed world, which some see as a potential utopia while others would use it for highly secretive research. Regardless of what humans might have planned for it, however, Xenomorphs will turn the planet into a living hell. Sarcastic, sexy, and action-packed, Vasquez brings generational heritage into the Alien universe in an explosive way.
