The Clash of Civilizations Allan Trawinski, 2017-05-26 In this work Allan Trawinski will test and disprove the commonly held hypothesis that the present West Near East Conflict is a relatively new development since the founding of the State of Israel in 1948 is primarily driven by religion culture radical Islamic fundamentalism against Christianity Judaism and that terrorism is employed as the Near East s primary method weapon tactic of choice which could all be ended by solving the Palestinian Israeli religious problem ending radical terrorism becoming energy independent liberating the region from

despots and establishing prosperous economic and democratic regimes in their wakes. Consequently, he will test and prove his own counterhypothesis that the present West Near East Conflict is a part of a continuous 3 275 year conflict that is secular geopolitical economic as much as or more than ideological religious cultural in nature and that terrorism has only until very recently played a relatively minor role as the Near East's primary method weapon tactic of choice. **Australia and China at 40** Jingdong Yuan, 2012 For the first time Australia's leading trading partner is not a democracy. Rather, it is a powerful authoritarian state with a fast growing economy, a rapidly modernising military, and bold global ambition. How should Australia respond to the seemingly unstoppable and dazzlingly swift rise of China? To mark the 40th anniversary of diplomatic relations between Australia and the People's Republic of China, expert writers from Australia and China come together here to analyse how both countries relate to each other. They cast light on security and economic issues, trade and investment, and political, diplomatic, and strategic challenges that can only increase in intensity. While China's prosperity is good for Australia's bottom line, China's assertiveness in regional affairs, its tight domestic political, human rights, and currency controls, and the expansion of its cultural influence all make Australians uneasy. And could this global powerhouse become a military threat? Or can we have it all in the Asian Century: healthy trade and diplomatic relations and a genuine and robust dialogue. **Hollywood Behind the Wall** Daniela Berghahn, 2005-07-15 This book is a representative history of East German film culture from 1946 to the present, examining both DEFA's celebrated classics and the most acclaimed post-unification feature films by East German directors. As Berghahn shows, East German cinema occupies an ambivalent position between German national cinema on the one hand and East European and Soviet cinema on the other. It includes a wide-ranging exploration of post-unification cinema from East Germany, including cult films such as *Sun Alley* and *Goodbye Lenin*, and provides contextualized readings of twenty significant films, referencing one hundred and ninety East German films in total, along with numerous West German and East European classics. [Rabin and Israel's National Security](#) Efraim Inbar, 1999-06-17 For more than forty years, Yitzhak Rabin played a critical role in shaping Israeli national security policy and military doctrine. He began as a soldier in the Palmach, the elite underground unit of the Jewish community in Palestine, served in the 1948 War of Independence, and ultimately became chief of staff of the Israel Defense Force (IDF), defense minister in several governments, ambassador to the United States, and twice prime minister. As chief of staff, Rabin led the IDF to its triumph in the 1967 Six Day War. He was assassinated in 1995 as prime minister as he left a peace rally. Drawing on unpublished materials and interviews with important sources, including Rabin himself, Efraim Inbar's work offers a systematic study of Rabin's strategic thinking and his policies. Topics include the evolution of Rabin's thinking, his contributions to IDF military buildup, his stress on Israel's relationship to the United States, his attitudes toward the use of force, and his approach to Israel's nuclear status in the Middle East. Inbar's conclusion evaluates Rabin's contribution to Israel's national security and assesses Rabin's personal transition from warrior to peace maker. Because of Rabin's crucial role in Israel's defense,

establishment at important junctures in its history this book provides an important view into the security challenges Israel has faced and how the country has responded over four decades To Save a City Roger Gene Miller,1998 **The Offensive Mine Laying Campaign Against Japan** United States Strategic Bombing Survey,1946 From Hannibal to Sulla Carsten Hjort Lange,2024-01-29 The second century BCE was a time of prolonged debate at Rome about the changing nature of warfare From the outbreak of the Second Punic War in 218 to Rome s first civil war in 88 BCE warfare shifted from the struggle against a great external enemy to a conflict against internal parties This book argues that Rome s Italian subjects were central to this development having rebelled and defected to Hannibal at the end of the third century the allies again rebelled in 91 BCE with significant consequences for Roman thought about warfare as such These rebellions constituted an Italian renewal of the war against their old conqueror Rome and an internal war within the polity Accordingly we need to add internal war to the already well established dichotomy of foreign and civil war This fresh analysis of the second century demonstrates that the Roman experience of internal war during this period provided the natural stepping stone in the invention of civil war as such It conceives of the period from the Second Punic War onward as an antebellum period to the later civil war s of the Late Republic during which contemporary observers looked back at the last great war against Hannibal in preparation for the next conflict The American Synthetic Organic Chemicals Industry Kathryn Steen,2014 American Synthetic Organic Chemicals Industry War and Politics 1910 1930 **Global City Typologies** Nigel C. Lewis,2025-07-31 Global City Typologies explores the historical cultural and socio economic transactional forces in the development of existing cities through to newly planned and emerging cities Individual chapters address different sets and typologies of global cities to analyse their comparative evolution and standing today The separate parts and individual chapters have been grouped around 125 different established planned and emerging cities and analysed according to different typologies and thematic categories that comprise historic cities early trading cities planned cities emerging global cities mega cities and megalopolitan agglomerations These span five continents including the industrial cities of Chicago and Manchester new capitals such as Bras lia and New Delhi innovative cities such as Singapore and Tel Aviv and mega cities such as Mexico City The book is fully illustrated throughout with modern and historical maps which enables visualisation of the forces that have shaped ongoing development of these major global cities This is an essential book for students and professionals in urban design and planning administrators economists designers and developers **Anything, Anywhere, Anytime** ,1991 Modern Diplomacy of Capitalist Powers Andrei A. Gromyko,2016-04-20 Modern Diplomacy of Capitalist Powers details the problems in bourgeois diplomacy The book is comprised of 11 chapters that cover the international relation policy of a great power The text first discusses the characteristics and distinctive features of imperialist foreign policy in the 70s and early 80s The next chapters deal with the diplomacy of major world powers which include U S France Federal Republic of Germany Great Britain and Italy The next two chapters cover eastern powers namely China and Japan

Chapter 9 tackles the diplomacy of capitalist countries and the disarmament problem The 10th chapter discusses the diplomacy of the western powers and European security while the last chapter details the diplomacy of the developed capitalist countries and the United Nations organization The book will be of great use to individuals who have a keen interest in international diplomacy particular the diplomatic pattern of the global superpowers

Going Global Or Going Nowhere? Jennifer Medcalf, 2008 This book examines the changing nature and location of NATO s operations concentrating on the development of its extra European interventions The objectives of the book are twofold The first is to provide a historical overview of the importance of the out of area issue to NATO The book takes a chronological approach to this and maps the evolution of the debates that took place about NATO s appropriate response to threats beyond the North Atlantic area from NATO s founding in 1949 until the present day The second objective is to assess how successfully NATO has made the transition from being a security actor with regional responsibilities to one that responds to global security threats The author considers the argument that emerged post 9 11 that the key to ensuring NATO s future vitality was to expand its geographic area of responsibility to encompass threats occurring both within and beyond the Euro Atlantic area This book therefore provides the first detailed examination of the evolution of NATO s global role and the success with which NATO has adapted to its new responsibilities
