Pietruska,2017-12-08 In the decades after the Civil War the world experienced monumental changes in industry trade and governance As Americans faced this uncertain future public debate sprang up over the accuracy and value of predictions asking whether it was possible to look into the future with any degree of certainty In Looking Forward Jamie L Pietruska uncovers a culture of prediction in the modern era where forecasts became commonplace as crop forecasters weather prophets business forecasters utopian novelists and fortune tellers produced and sold their visions of the future Private and government forecasters competed for authority as well as for an audience and a single prediction could make or break a forecaster s reputation Pietruska argues that this late nineteenth century quest for future certainty had an especially ironic consequence it led Americans to accept uncertainty as an inescapable part of both forecasting and twentieth century economic and cultural life Drawing together histories of science technology capitalism environment and culture Looking Forward explores how forecasts functioned as new forms of knowledge and risk management tools that sometimes mitigated but at other times exacerbated the very uncertainties they were designed to conquer Ultimately Pietruska shows how Americans came to understand the future itself as predictable yet still uncertain *APRIL Daily Reading Activities: Main Idea, Fact/Opinion, Inference | Activities* Jack Kabakoff,2022-03-22 Improve Reading Comprehension While Learning Interesting Historical Facts This book features high interest on this date in history stories for the month of April There is an historical nonfiction short story for each day of the month Reading and Interest Level The stories were written at an approximate reading level of grades 3 4 In some cases proper names of people places and events as well as other necessary descriptive vocabulary may drive the reading level up a bit The interest level is aimed at students in grades 5 and up who may not be reading at grade level High Interest Stories The topics chosen are not necessarily the most important thing to have happened on a particular date The variety of people places and events highlighted in each story were chosen to appeal to a wide range of interests Students will learn a variety of historical facts while improving their reading and comprehension skills Skill Specific Lessons Each story is followed by 8 skill specific comprehension questions Question formats include multiple choice fill in the blank and writing complete sentences Skills focus on main idea facts locating the answer vocabulary sequence comparison cause and effect fact or opinion conclusion and inference Includes 65 Pages Answer Key
