Alphabetic letters are ubiquitous multivalent and largely ignored. *Playful Letters* reveals their important cultural contributions through Alphabetics, a new interpretive model for understanding artistic production that attends to the signifying interplay of the graphemic phonemic lexical and material capacities of letters. A key period for examining this interplay is the century and a half after the invention of printing with its unique media ecology of print manuscript sound and image. Drawing on Shakespeare anthropomorphic typography figured letters and Cyrillic pedagogy and politics, this book explores the ways in which alphabetic thinking and writing inform literature and the visual arts and it develops reading strategies for the letterature that underwrites such cultural production. *Playful Letters* begins with early modern engagements with the alphabet and the human body, an intersection where letterature emerges with startling force. The linking of letters and typography with bodies produced a new kind of literacy. In turn, educational habits that shaped letter learning and writing permeated the interrelated practices of typography orthography and poetry. These mutually informing processes render visible the persistent crumbling of words into letters and their reconstitution into narrative poetry and image. In addition to providing a rich history of literary and artistic alphabetic interrogation in early modern Western Europe and Russia, *Playful Letters* contributes to the continuous story of how people use new technologies and media to reflect on older forms including the alphabet itself. **Who's Doing the Work?** Jan Burkins, Kim Yaris, 2023-10-10. Best selling authors Dr Jan Burkins and Kim Yaris rethink traditional teaching practices. *Who's Doing the Work: How to Say Less So Readers Can Do More*. They review some common instructional mainstays such as read aloud, guided reading, shared reading, and independent reading and provide small yet powerful adjustments to help hold students accountable for their learning. Next generation reading instruction is much more responsive to student needs and aims to remove some of the scaffolding that can hinder reader development. Instead of relying on teacher prompts, *Who's Doing the Work* asks teachers to have students take ownership of their reading by managing their challenges independently and working through any plateaus they encounter. Whether you are an elementary teacher, literacy coach, reading specialist, or

parent Who's Doing the Work provides numerous examples on how to readjust the reading process and teach students to gain proficiency and joy in their work      *Book Buddies* Marcia Invernizzi, Donna Lewis-Wagner, Francine R.
